Growth rules for these 12 posts	
Before you hit post (every time)	

How to use this file

1. Go post by post. Every gray box is one prompt. Copy it, paste it, generate.
2. **Image prompts** go into ChatGPT, Gemini or Ideogram. **Video prompts** go into Kling, Veo, Runway or Hailuo, using “image to video”, 9:16, 10 seconds.
3. Every video shot has two prompts. Make the **First frame** image first, pick the most real-looking one, upload it to your video tool, then paste the **Motion** prompt.
4. Make 3 takes of everything. Keep the one where the hands have five fingers and nothing melts.
5. If the AI misspells text or changes an app screenshot, generate it again without the text and type the text yourself in Canva or CapCut. App screens are always your real screenshots and recordings.
6. Build each reel in CapCut from its **Timeline**. It tells you which seconds of which clip to use, what text goes on screen, and which sound to add.
7. **Attach** means: upload that file together with the prompt.

Before you post these to US sellers

The scripts are ready. Five things in the app are not ready for a US seller yet, and a US viewer who taps through will hit them:

1. **Card checkout is not switched on.** Sellers can save Stripe or PayPal keys, but the code still marks card charging as not ready. Posts 2 and 12 send sellers to open a store, so hold them until a real card payment goes through end to end.
2. **The store setup still speaks India.** It ends by asking for a UPI ID, and the checkout asks for a “PIN code” and drops any letters. A US seller needs a card step, and US shoppers need a “ZIP code” field.
3. **The new pricing is not in the app yet.** The pricing page still shows ₹0 forever and ₹999. Put in the 7-day free trial, Pro at \$10 and Pro Max at \$12.99 before you record Post 9.
4. **The sample shop is Indian.** Your screenshots and recordings show kurtas, sarees, rupees and Indian names. Make a US version of the sample shop (dollar prices, US product and customer names) and re-record every app screen. Then change any number in these scripts (like 10.6% or 3.2 days) to match what the new recording shows.
5. **The Christmas campaign in the holiday planner was written for India** (it uses hashtags like #31stNight). Rewrite it for the US before you record Post 6.

Make these once

1. Reference photos. Take 3 photos of your own hands in a mustard-yellow cotton shirt with the sleeves rolled once, a thin gold bangle on the right wrist and a red-and-yellow woven string bracelet on the left. Take 1 photo of your red cloth-covered notebook. Attach them to every prompt that shows hands or the notebook, so the character looks the same in all 12 posts.

2. The 1T logo (image prompt)

Flat logo, square 1080x1080. A solid deep indigo (#1E3A8A) square with slightly rounded corners. In the center, the characters "1T" in a bold monospace font (like JetBrains Mono Bold), color off-white #F7F5EF, about 46% of the square's width. A short, thin marigold (#F5A623) bar sits just under the "1T". Nothing else: no outline, no gradient, no shadow, no other text.

3. The reel end card (image prompt). You will type each reel's comment line on it in CapCut.

Flat graphic, 9:16 vertical, 1080x1920. Solid warm off-white paper background #F7F5EF with very faint horizontal ruled lines, like a ledger page.
At about 35% from the top, centered: a rounded deep indigo (#1E3A8A) square logo about 200 px wide, with "1T" in off-white bold monospace letters, surrounded by one thin marigold (#F5A623) ring like a ripple from a finger tap.
Directly under the logo, leave a clear empty band about 200 px tall (a line of text will be added there later).
At about 58% from the top, centered, heavy bold sans-serif (like Inter ExtraBold), dark navy #101828: "One shop problem. Fixed every week."
Under it, smaller, gray monospace: "@onetapmanager"
Keep the bottom 22% empty.
Avoid: emoji, purple, gradients, shadows, any other text. Spell exactly.

4. The phone frame for app recordings (image prompt)

Flat graphic, 9:16 vertical, 1080x1920. Solid dark navy background #111827. In the center, a plain black modern smartphone seen straight from the front, thin bezels, rounded corners, about 78% of the image width. Its whole screen is filled with solid bright chroma green #00B140. Nothing else: no reflections, no buttons, no logos, no text, no shadow.

In CapCut: put the screen recording on the bottom layer, the phone frame on top, and use **Chroma key** on the green so the recording shows through.

5. CapCut styles (set once, reuse in every reel)

- **Hook text:** Inter ExtraBold (or the closest heavy sans in CapCut), off-white #F7F5EF on a navy #111827 box with rounded corners. Maximum 7 words per line, 2 lines on screen. Keep it in the middle of the screen, away from the top 12% and the bottom 22%, where Instagram's buttons sit.
- **Navy card:** a solid #111827 background with off-white text. The key words in marigold #F5A623.
- **Numbers:** a bold monospace font (JetBrains Mono or similar). Money the seller keeps is in mint green #34D399.

- **Chat bubbles:** light beige #EFECE3 rounded boxes, a thin dark border, dark text. Never copy Instagram’s or any messaging app’s design.
- **Tags:** tiny gray monospace capitals in the bottom-left corner. “AI GENERATED” on every AI shot. “SAMPLE SHOP DATA” on every app recording.
- **Zooms on app screens:** a fast “snap zoom” (100% to 130% in about 0.15 s) onto the exact number or button named in the timeline, held for at least 0.8 s.

6. Sound kit. Phone buzz, bass hit, cash register “ding”, soft “bonk”, record scratch, heartbeat, whoosh, pop, click, ding. The **sonic logo** closes every reel: a soft tap on glass, then a two-note rising chime. **Music** comes from Instagram’s own audio library on the day you post, kept low under the sound effects.

If Posts 2 and 12 are still waiting on card checkout, swap them with Posts 7 and 10 and run them later. Post 6 is about the holidays: it works any time from October to early December.

Post 1: “You do 6 people’s jobs”

Carousel · 6 slides · 4:5 (1080x1350) · Week 1, Monday · Pin this post

Needs: app-today.png , retaken from the US sample shop.

The idea: A stranger who opens the profile understands the whole page in one swipe. Slide 1 is the joke every one-person seller recognizes: six jobs, one empty chair, paid in cold coffee. The rest of the swipe answers “so what do you do for me?” and ends on the line that earns trust: we never take a cut of your sales.

Slide 1 (image prompt · Attach: your notebook photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: the corner of a small home studio at 9:30 am. A warm oak desk against a white-painted brick wall. On the desk, six small cream card name plates stand in one straight row facing the camera, evenly spaced across the middle of the frame. Behind them, one empty wooden desk chair, pushed in slightly, centered between the 3rd and 4th plates. On the left edge of the desk, a thick red cloth-covered notebook tied shut with string, worn corners, partly cut off by the frame. On the right edge, a white ceramic mug of black coffee, half full and gone cold, a faint coffee ring on the desk beside it, partly cut off by the frame.

NAME PLATES: one word on each, in small dark monospace capital letters, left to right: CEO, ACCOUNTANT, PHOTOGRAPHER, PACKING, CUSTOMER SERVICE, INSTAGRAM.

CAMERA: straight-on at desk height, 10 degrees above, 50 mm lens look. Focus on the name plates, the wall softly out of focus.

LIGHT: soft morning window light from the left, the shadow of a window grid falling on the brick behind the chair. No ceiling light.

COLOR: warm wood, white brick, cream. The red notebook is the only strong color.

TEXT: the bottom 45% of the image fades smoothly into dark navy #111827. In that navy area, left aligned with a wide margin, in a heavy bold sans-serif (like Inter ExtraBold), off-white #F7F5EF:

"You're the CEO. The accountant. The photographer. The packer."

On its own line below, in marigold #F5A623:

"Salary? One cold coffee."

Bottom-left corner, very small gray text: "AI GENERATED"

STYLE: looks like a real phone photo, fine natural grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ruled lines every 56 px, like a ledger page, and one thin marigold (#F5A623) vertical margin line about 120 px from the left edge.

TEXT, left aligned just right of the margin line, dark navy #101828:

Headline, heavy bold sans-serif (like Inter ExtraBold), large, in the top third: "Big brands don't make better products."

Body, medium sans-serif, about half the headline size: "They just have people. People who read the numbers, then act on them."

Behind the words "have people" only: a hand-drawn marigold highlighter stroke at 70% opacity, slightly tilted, covering the lower half of the letters.

Top-right corner, small gray monospace: "2/6"

STYLE: calm, lots of empty space in the bottom half.

AVOID: emoji, purple, gradients, shadows, icons, any other text. Spell every word exactly.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

LAYOUT, top to bottom, left aligned with a wide margin:

1. A small label in gray monospace capitals: "A BIG BRAND'S BACK OFFICE"
 2. Six rows, each with a simple thin-line off-white icon on the left and off-white #F7F5EF monospace text:
bar chart icon: "Data analyst"
box icon: "Inventory manager"
person with a heart icon: "Customer manager"
phone icon: "Social media manager"
camera icon: "Photographer"
dollar sign in a square icon: "Accountant"
 3. A thin off-white divider line at 40% opacity.
 4. Heavy bold sans-serif, off-white: "Your back office:"
 5. Very large bold monospace in marigold #F5A623, the biggest thing on the slide: "1 person."
- Top-right corner, small gray monospace: "3/6"

STYLE: crisp and minimal, generous spacing.

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 4 (image prompt · Attach: app-today.png from the US sample shop)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

PHONE: in the upper 60% of the slide, centered, a plain black modern phone frame with thin bezels and rounded corners, about half the slide's width, showing the attached screenshot exactly as it is. Do not redraw, crop, translate or change anything inside the screenshot. A small beige tag at the phone's top-left corner, gray monospace capitals: "SAMPLE SHOP DATA"

TEXT below the phone, left aligned:

Bold sans-serif, off-white #F7F5EF: "One Tap Manager is that team. One app."

Then four short lines, medium sans-serif, light blue #A9C1F5:

"Tells you what to do today."

"Writes your customer messages."

"Fills in your supplier orders."

"Plans your week of posts."

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

CENTER: a huge bold monospace "\$0" in mint green #34D399, the largest element on the slide.

Below it, bold sans-serif, off-white #F7F5EF: "Our cut of your sales."

Below that, smaller medium sans-serif in light blue #A9C1F5, centered, maximum 3 lines: "Try it free for 7 days. Then \$10 or \$12.99 a month, flat. Never per order, never a percentage."

Top-right corner, small gray monospace: "5/6"

AVOID: emoji, purple, gradients, any other text. Spell every word and number exactly.

Slide 6 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "SHOP DOCTOR · EVERY TUESDAY"

UPPER CENTER: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold (#F5A623) ring like a tap ripple.

BELOW, centered, heavy bold sans-serif, dark navy #101828: "One shop problem every week."

Next line, same style, with a marigold highlighter stroke behind it: "Roasted. Fixed. Free."

Below, small gray text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

The difference between you and a big brand isn't the product.

They have a team that reads the numbers every morning and acts on them.
You have a red notebook and a cold coffee.

One Tap Manager is that team, for a one-person shop.

It tells you what to do today, writes your customer messages, fills in your supplier orders and plans your week of posts.

Try it free for 7 days. We never take a cut of your sales.

Follow for Shop Doctor: one shop problem, roasted and fixed, every Tuesday.

#smallbusiness #smallbusinessowner #shopsmall #boutiqueowner

Pinned comment: "Which of the 6 jobs eats most of your day? Drop the number, 1 to 6."

Post 2: “The \$1,500 phone and the deep fryer”

Reel · 18 seconds · 9:16 · Week 1, Thursday · Comment word: STORE

Needs: recordings R2 (website builder) and R3 (checkout), made from the US sample shop with card checkout working. **Do not post until a real card payment goes through end to end.**

The idea: The seller’s own DMs are the drumroll. Every “price?” buzz pushes a \$1,500 phone closer to a food truck’s deep fryer, until a hand grabs it at the last moment. That phone is her whole shop, living inside one Instagram account. The fix: her own website.

Director’s note: Cut the first 3 seconds to the buzzes, not the music. Every cut must show the phone closer than the one before. The grab is at real speed; slow motion looks fake.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 0.5	Shot 1A, its first 0.5 s	\$1,500. (big, marigold)	fryer oil crackling
0.5 to 3.0	8 cuts of 0.3 s, alternating Shot 1B and Shot 1A. Take each piece from later in its clip, so the phone is closer on every cut	One chat bubble pops in per cut: “price?” “size M?” “still available?” “shipping?” “link?” “price??” “discount?” “hello??” and a counter in the corner: 12 to 19	a buzz on every cut, speeding up like a drumroll
3.0 to 3.4	Shot 2, its 0 to 0.4 s: the phone tips, the hand grabs it	(none)	buzzing stops dead, one deep “whoomp”
3.4 to 5.0	Shot 3, any 1.6 s: the phone safe in her hand	Your whole shop lives in this account.	silence, faint fryer
5.0 to 6.5	Navy card	Lose the account, lose the shop. (“lose the shop” in marigold)	bass hit
6.5 to 8.0	R2 at 4x speed in the phone frame, snap zoom on the shop name box	Your own website. Step 1: name.	keyboard clicks
8.0 to 10.0	R2 at 4x, three product photos appear	Step 2: 3 products.	pop, pop, pop
10.0 to 12.0	R2, snap zoom on Publish, tap	Step 3: publish. Done.	click, then ding
12.0 to 14.0	R3: cart, then card checkout	Cart. Card. Paid straight to you.	whoosh
14.0 to 16.0	Navy card, “\$0” rolling down	Our cut: \$0. (\$0 in mint green)	cash register “ding”
16.0 to 18.0	End card	Comment STORE.	sonic logo

Music: none for the first 5 seconds, the buzzes are the beat. From 6.5 s, a hard-hitting hip-hop beat from Instagram’s library (search “hip hop beat”).

Shot 1A · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Night, inside a busy American food truck. In the left half of the frame, a stainless steel deep fryer full of bubbling oil, a basket of golden fries sizzling, steam rising into the light of one warm bare bulb above. On the right, on the scratched, slightly greasy stainless steel counter, a top-end smartphone in a matte black case lies flat, screen up and lit with a notification banner (no readable text), about 15 cm from the fryer's edge.

CAMERA: side view at counter height, 28 mm lens look, the phone and the fryer's edge both sharp, the street outside the serving window dark and blurred with a few soft bokeh lights.

LIGHT: warm 2700 K bulb from above-left, bright highlights on the oil, deep shadows around.

STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 1A · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.

CAMERA: locked on a tripod, no movement at all.

ACTION: the phone vibrates with incoming messages. Every vibration makes it jump and slide about 1.5 cm toward the fryer, turning a few degrees, the way a vibrating phone does. The buzzes come faster and faster: slow from 0 to 3 s, quicker from 3 to 7 s, rapid from 7 to 10 s. At 10 s the phone's edge touches the fryer's rim but does not fall in. The oil keeps bubbling and steam drifts across the bulb light.

SOUND: loud oil crackling throughout, a sharp phone buzz on every jump.

STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no cinematic grading, no CGI sheen.

AVOID: hands, faces, the phone falling in, readable text or logos, purple or neon, background music, cross-fades.

Shot 1B · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Night, inside an American food truck, seen from directly above. On the left, a stainless steel deep fryer of bubbling oil with a basket of golden fries sizzling and steam rising. On the right, on a scratched, slightly greasy stainless steel counter, a top-end smartphone in a matte black case lies screen up, lit with a notification banner (no readable text), about 15 cm from the fryer's rim.

CAMERA: straight down from about 60 cm above, 24 mm lens look, everything sharp.

LIGHT: one warm bare bulb from the top-left, glowing highlights on the oil, dark edges.

STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 1B • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, straight down, no movement.
ACTION: the phone vibrates with incoming messages. Every vibration makes it jump and slide about 1.5 cm toward the fryer, turning slightly. The buzzes get faster: slow at first, rapid by the end. At 10 s its corner reaches the fryer's rim but it does not fall in. The oil bubbles and steam drifts the whole time.
SOUND: loud oil crackling, a sharp buzz on every jump.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: hands, faces, the phone falling in, readable text or logos, purple or neon, background music, cross-fades.

Shot 2 • First frame (image prompt • Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Night, inside an American food truck, close side view at counter height: a smartphone in a matte black case balanced on the rim of a stainless steel deep fryer of bubbling oil, one third of it hanging over the oil, starting to tip. Golden fries sizzling below, steam rising, one warm bare bulb above.
CAMERA: 35 mm lens look, focus on the phone and the rim, background dark and blurred.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 2 • Motion (video prompt • Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed, no slow motion.
CAMERA: locked at counter height.
ACTION: 0 to 0.4 s: the phone tips off the rim toward the oil. At 0.4 s a woman's hand shoots in from the right and snatches it in mid-air, a few centimeters above the oil. The hand: an adult woman with medium-brown skin, short nude-beige nails, a red-and-yellow woven string bracelet on the wrist, the rolled sleeve of a mustard-yellow cotton shirt. The bracelet faces the camera as her fingers close. 0.8 to 10 s: she pulls the phone away and holds it safely, the oil still bubbling behind.
SOUND: oil crackling. The buzzing stops the instant the phone tips. One deep, low "whoomp" on the grab.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: slow motion, any face, extra or fused fingers, the hand touching the oil, the phone falling in, readable text or logos, purple or neon, background music.

Shot 3 • First frame (image prompt • Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. First-person view looking down at a woman's hand holding a smartphone in a matte black case, safe, inside a food truck at night. The phone fills 60% of the frame. Its screen shows a blurred grid of colorful clothing product photos, like a shop's profile page, nothing readable. The hand: an adult woman with medium-brown skin, short nude-beige nails, a red-and-yellow woven string bracelet on the wrist, the rolled sleeve of a mustard-yellow cotton shirt. Behind, out of focus: the fryer, steam and one warm bulb.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: faces, readable text, logos, app names, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: handheld first-person view with a very slight natural sway, a slow 5% push-in toward the phone over the full 10 seconds.
ACTION: the hand holds the phone still. Steam drifts slowly past in the background.
SOUND: near silence, a faint fryer crackle far away.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: faces, readable text or logos, extra fingers, purple or neon, background music.

Pinned comment: "Comment STORE and the link lands in your DMs. Your website, your payments, \$0 cut."

Post 3: “More followers, fewer orders. Why?” (Shop Doctor, Ep 01)

Carousel · 7 slides · 4:5 (1080x1350) · Week 1, Tuesday · Pin this post

Needs: app-sales-top.png, retaken from the US sample shop.

The idea: The most saveable post on the page. The cover shows the whole problem without explaining it: a heap of likes weighs less than three parcels. Slides 3 to 5 each give a free check she can do with a notebook. The app only shows up on slide 6, and even there we say a notebook works too. Being useful first is what earns the save.

Slide 1 (image prompt)

Photorealistic still life, 4:5 portrait, 1080x1350.

SCENE: an old-fashioned brass balance scale standing on a warm wooden desk. The left pan is piled high with a big heap of small red paper hearts and is lifted high. The right pan holds only three small brown kraft-paper parcels tied with twine and hangs low, because the parcels are heavier. Four or five paper hearts are falling through the air, sharp.

CAMERA: straight-on at desk height, slightly above, 85 mm lens look, the scale sharp, the background soft.

LIGHT: soft morning window light from the left, warm, gentle shadows on a white plaster wall about 1 m behind.

TEXT: the top third of the image is plain white wall. Write there, centered, in a heavy bold sans-serif (like Inter ExtraBold), dark navy #101828:

"More followers. Fewer orders."

Next line, same size, marigold #F5A623:

"Why?"

Below, smaller, gray: "Swipe. The answer's on slide 3."

Bottom-left corner, very small gray text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ruled lines like a ledger page, and one thin marigold (#F5A623) vertical margin line about 120 px from the left edge.

TEXT, left aligned just right of the margin, dark navy #101828:

Headline, heavy bold sans-serif (like Inter ExtraBold): "Likes don't pay rent."

A hand-drawn marigold highlighter stroke at 70% opacity behind "don't pay rent" only.

Body, medium sans-serif, smaller: "Your landlord doesn't accept hearts. I asked."

Near the bottom, small gray: "(Joke. Please don't pay rent in hearts.)"

Top-right corner, small gray monospace: "2/7"

AVOID: emoji, purple, gradients, icons, any other text. Spell every word exactly.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small gray monospace capitals: "NUMBER 1 OF 3"

2. A simple thin-line icon of a cardboard box in deep indigo #1E3A8A.

3. Headline, heavy bold sans-serif: "What's about to sell out."

4. One line, medium sans-serif, gray-navy: "You only find out it was your bestseller after it's gone."

5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font, three lines:

"Stock left ÷ sold per day = days left."

"Fewer than your supplier's days + 3? Reorder today."

"Example: $12 \div 2 = 6$ days. Supplier $4 + 3 = 7$. $6 < 7$: reorder today."

Top-right corner, small gray monospace: "3/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word and number exactly.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small gray monospace capitals: "NUMBER 2 OF 3"
2. A simple thin-line icon of a person with a curved return arrow, in deep indigo #1E3A8A.
3. Headline, heavy bold sans-serif: "Who didn't come back."
4. One line, medium sans-serif, gray-navy: "A past customer costs less than a new follower. They already trust you."
5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font:
"Bought once in the last 60 days, then nothing for 45? Make that list."
Top-right corner, small gray monospace: "4/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small gray monospace capitals: "NUMBER 3 OF 3"
2. Three simple thin-line icons in a row in deep indigo #1E3A8A: a dollar sign, a not-equal sign, a heart.
3. Headline, heavy bold sans-serif: "What sells vs. what just gets likes."
4. One line, medium sans-serif, gray-navy: "That product from your viral reel? It might have sold 2."
5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font:
"For each product: units sold this month x profit per unit. Ignore likes."
Top-right corner, small gray monospace: "5/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 6 (image prompt · Attach: `app-sales-top.png` from the US sample shop)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

TOP HALF, left aligned:

Big bold monospace text in marigold #F5A623: "10 minutes. Every Monday."
Below, bold sans-serif, off-white #F7F5EF: "Three numbers. A notebook works."
Below, medium sans-serif, light blue #A9C1F5: "Or One Tap Manager shows all three on one screen."

BOTTOM HALF, centered: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at the phone's top-left corner, gray monospace capitals: "SAMPLE SHOP DATA"

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 7 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "SHOP DOCTOR · EP 01"

UPPER CENTER: a rounded deep indigo (#1E3A8A) square logo with "IT" in off-white bold monospace, circled by one thin marigold (#F5A623) ring.

BELOW, centered, heavy bold sans-serif, dark navy #101828: "Save this. You'll need it Monday." with a marigold highlighter stroke behind the word "Monday" only.

Next line, medium sans-serif: "Next Tuesday: another shop problem."

Below, small gray text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

10K followers and 3 orders isn't a reach problem. It's a numbers problem.

Every Monday, check three numbers:

1. What's about to sell out.
2. Which customers stopped coming back.
3. What actually sells, not what gets likes.

Ten minutes and a notebook is enough. Slides 3 to 5 show you how.

Save this for Monday. Send it to the friend who's "going viral" but still asking where the orders are.

Pinned comment: "Which number are you checking first on Monday? 1, 2 or 3?"

Post 4: “Grandpa’s not scared of the drop”

Reel · 18 seconds · 9:16 · Week 2, Monday · Comment word: DEMO

Needs: recording R1b (sales analytics), made from the US sample shop.

The idea: On the scariest ride at the state fair, everyone screams except Grandpa, who eats popcorn all the way down. He isn’t scared, because he watched the ride climb and knew exactly when the drop was coming. Then the question to the seller: do you know when your sales dropped? The app catches the drop, explains it and tells you what to do.

Director’s note: Grandpa is the hero, never the joke. Everything around him is chaos; he is perfectly still. The cuts in the first 3 seconds are fast (0.4 s each), so his calm stands out.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 0.4	Shot 1, its 0 to 0.4 s: his hands on the yellow safety bar	Grandpa.	ride machinery clanking
0.4 to 0.8	Shot 2, its 2 to 2.4 s: his loafers dangling high above the fair	(none)	wind
0.8 to 1.2	Shot 3, its 2 to 2.4 s: wide, the seats climbing to the top	Going up.	click, click, click
1.2 to 1.6	Shot 1, its 4 to 4.4 s: at the top, he calmly takes one piece of popcorn	(none)	silence, one crunch
1.6 to 2.4	Shot 3, its 5 to 5.8 s: the drop	(none)	the music drops, a huge whoosh, screams
2.4 to 3.2	Shot 4, its 0 to 0.8 s: hands perfectly calm, one more piece	Fear: 0%. (mint green)	screams fade, a clean “pop”
3.2 to 5.0	Shot 4, its 2 to 3.8 s: he offers the popcorn to the camera	Because he knew the drop was coming.	a warm, calm chuckle
5.0 to 6.5	Navy card + “SAMPLE SHOP DATA” tag	Your sales dropped 10.6%. Did you know? (“Did you know?” in marigold)	bass hit, falling whistle
6.5 to 8.5	R1b, snap zoom on last month’s drop	Drop: caught.	ding
8.5 to 10.5	R1b, snap zoom on the items that sold less	Why: explained.	whoosh
10.5 to 12.5	R1b, snap zoom on the suggested fix	What to do: written.	click
12.5 to 14.5	R1b, snap zoom on next month’s forecast	Next month: up. and small below: “Forecast, not a promise.”	rising whoosh
14.5 to 16.0	Navy card	1 sales file. 2 minutes.	tick
16.0 to 18.0	End card	Be like Grandpa. Comment DEMO.	sonic logo

Music: a high-energy EDM riser from Instagram’s library, placed so its drop lands exactly on the plunge at 1.6 s. After 6.5 s, a light lo-fi beat (search “EDM drop”, then “lofi”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up of an elderly man's hands on the yellow padded safety bar of a drop-tower ride seat, high in the air. Wrinkled hands, a steel wristwatch with a metal strap on the left wrist, the cuffs of a red-and-black plaid flannel shirt. His right hand holds a small red-and-white striped paper bag of popcorn. Behind: bright blue afternoon sky and, far below, the blurred colors of a big American state fair.
CAMERA: close, slightly below the hands looking up, 35 mm lens look.
LIGHT: bright afternoon sun from the side, natural.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text, logos, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: fixed to the ride seat, moving up with it, a slight mechanical vibration.
ACTION: 0 to 4 s: the seat climbs steadily; the sky slides down behind the hands and the fair drops away below. The hands grip the bar calmly. At 4 s the seat stops at the very top with a clunk. 4 to 5 s: his right hand calmly takes one piece of popcorn from the bag and lifts it out of frame toward his mouth. 5 to 10 s: stillness at the top, the wind moving the flannel cuff, the hands relaxed on the bar.
SOUND: ride machinery clanking and slow mechanical clicks while climbing, wind at the top, one soft crunch.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text or logos, purple or neon, background music, cross-fades.

Shot 2 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Looking down past an elderly man's feet dangling from a drop-tower ride seat high above an American state fair: khaki trouser hems, white socks, well-worn brown leather loafers, one slipping half off the heel. Far below: tiny food stands, a Ferris wheel and crowds, colorful and blurred.
CAMERA: from seat height pointing down past the feet, 24 mm lens look, a strong sense of height.
LIGHT: bright afternoon sun.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: any face, readable text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: fixed to the seat, looking down, slight vibration.
ACTION: the feet swing gently in the wind while the seat keeps rising and the fair shrinks below. The loose loafer slips a little further off the heel; his toes curl to hold it.
SOUND: wind, slow mechanical clicks of the ride climbing.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: any face, the shoe falling, readable text or logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A tall drop-tower ride at a big American state fair on a sunny afternoon, seen from the ground about 40 m away. A ring of seats with riders is two-thirds of the way up the tower, against a clear blue sky. At the bottom: food stands, balloons and a crowd, all seen from behind.
CAMERA: low angle from inside the crowd, 28 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: visible faces, readable text, logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: handheld from the crowd, slight natural shake, tilting to follow the seats.
ACTION: 0 to 4 s: the seats climb the last few meters to the top. 4 to 5 s: they pause at the top. At 5 s the whole ring of seats drops at full speed, the riders' legs flying up. They brake hard near the bottom at about 6.5 s. 6.5 to 10 s: the seats settle at the bottom and the crowd cheers.
SOUND: slow mechanical clicks, a huge whoosh on the drop, riders screaming, crowd noise.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: close-up faces, readable text or logos, purple or neon, background music, cross-fades, anyone getting hurt.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up of an elderly man's wrinkled hands resting on the yellow padded safety bar of a ride seat at the bottom of a drop tower. A steel wristwatch on the left wrist, the cuffs of a red-and-black plaid flannel shirt. His right hand calmly holds a small red-and-white striped paper bag of popcorn, perfectly steady, not a single piece spilled. Behind, out of focus: the base of the ride, other riders' legs, the bright fair.
CAMERA: close, at hand height, 50 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: steady, a slight handheld feel.
ACTION: 0 to 1 s: his right hand calmly takes one more piece of popcorn from the bag and lifts it out of frame. 2 to 4 s: he holds the bag out toward the camera, offering it, steady and relaxed. 4 to 10 s: the bag stays offered.
SOUND: the other riders' screams fading, a soft crunch, a warm, calm old man's chuckle.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text or logos, purple or neon, background music.

Caption

Grandpa wasn't scared of the drop. He watched the ride climb, so he knew exactly when it was coming.

Most sellers find out their sales fell weeks later, when the bills are due.

Upload one sales file (or try the sample data) and One Tap Manager shows you how much you're down, which items caused it, and what to do this week. Not 47 charts. Three things.

Grandpa and the ride are AI generated. The app is real, with sample shop data.

Comment DEMO and I'll send you the link to try it.

Pinned comment: "When did you find out your sales dipped? Same week, next month, or when your accountant told you?"

Post 5: “The car that drove out of the feed” (Free Template Friday)

Reel · 18 seconds · 9:16 · Week 2, Friday · Comment word: WINBACK

Needs: recording R5 (win-back), made from the US sample shop.

The idea: A car drifting inside a post slides right out of the post, across the feed and off the screen, leaving an empty parking lot. That is how customers leave: quietly, and nobody tells you. Then the app shows who went quiet, with the message and the coupon already written.

Director’s note: The trick only works if the car’s edge is clean and it casts a soft shadow as it crosses the feed. Spend your time on the cut-out, not on effects. The camera never moves; only the car breaks the rules.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	The feed frame, with Shot 1 playing inside the post: the car drifting in circles	Watch this car. (above the post)	tire screech, engine
1.0 to 2.5	The cut-out car slides past the post’s border and over the caption lines, smoke spilling out	Wait...	screech gets louder
2.5 to 4.0	The car crosses the next post and leaves off the right edge. The post now shows an empty lot	Gone. (big)	engine fades away, then silence
4.0 to 5.0	Snap zoom into the empty lot inside the post	Customers leave just like that.	one low piano note
5.0 to 6.5	Navy card	Quietly. You never even notice. (“never even notice” in marigold)	bass hit
6.5 to 8.5	R5, snap zoom on the number of customers who went quiet + “SAMPLE SHOP DATA” tag	Who left: list ready.	ding
8.5 to 10.5	R5, snap zoom on one sample customer row (item, last order date)	What they bought. When they left.	whoosh
10.5 to 12.5	R5, tap “Review & send”: the message and coupon code are visible	Message written. Coupon ready.	click
12.5 to 14.5	R5, snap zoom on the send button	Check it. Send it.	tick
14.5 to 16.0	Paper card (off-white background, dark text)	Win them back. Ad spend: \$0. (\$0 in mint green)	cash register “ding”
16.0 to 18.0	End card	Comment WINBACK: free win-back emails.	sonic logo

Music: the engine and tire screech carry the hook. Cut to silence when the car leaves. From 6.5 s, a smooth phonk or bass beat from Instagram’s library (search “drift phonk”).

The feed frame (image prompt)

Flat user-interface mockup, 9:16 vertical, 1080x1920. Our own simple design: not Instagram's interface and no Instagram logo.
BACKGROUND: warm off-white #F7F5EF.
ABOUT 15% FROM THE TOP: a small gray circle avatar and, next to it, the handle "@yourshop" in a clean medium sans-serif, dark navy #101828.
BELOW IT: one large post card with rounded corners (about 24 px radius) and a thin light-beige border, full width minus small side margins, almost square. Its whole image area is filled with solid bright chroma green #00B140.
UNDER THE CARD: three simple outline icons in dark navy, thin 2 px lines: a heart, a speech bubble, a paper plane. Then two short gray placeholder bars where a caption would be.
AT THE BOTTOM: the top edge of a second identical post card peeking in, its image area plain light gray.
AVOID: real app logos, Instagram's exact icons or layout, emoji, purple, any other text.

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Top-down drone view of a black sports car drifting in a wide circle on an empty gray asphalt parking lot, thick white tire smoke curling behind it, painted white parking lines, late-afternoon light with long shadows.
CAMERA: straight down from about 25 m, the car in the center, sharp.
STYLE: looks like real drone footage, natural exposure, true-to-life colors, no CGI sheen.
AVOID: people, faces, readable license plates, logos, text, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.

CAMERA: locked straight down, like a drone hovering perfectly still.

ACTION: 0 to 5 s: the car drifts in two tight, fast circles in the center of the lot, tires smoking. 5 to 6 s: it straightens and drifts sideways out of the frame to the right. 6 to 10 s: the empty lot, the smoke slowly clearing.

SOUND: engine roar and tire screech, fading to silence after the car leaves.

STYLE: looks like real drone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.

AVOID: people, faces, license plates, logos, text, purple or neon, background music, cross-fades.

Build the illusion in CapCut

1. Bottom layer: the feed frame image, for the full 5 seconds.
2. Add Shot 1 on top, and mask it with a rounded rectangle to fit exactly over the green area of the post. From 0 to 1.0 s it plays normally (car circling). From 1.0 s, jump this layer to Shot 1's 6.5 s onward, so the post shows the empty lot, and freeze it.
3. Add Shot 1 again on a new layer, starting at 1.0 s, and use **Remove background** (Cutout) so only the car and its smoke remain. No mask on this layer.
4. Keyframe the cut-out car's position: at 1.0 s exactly over its place in the post; at 1.8 s crossing the post's right border; at 3.2 s over the second post; at 4.0 s off the right edge of the screen.
5. Add a soft dark shadow under the cut-out car (about 25% opacity, blurred) so it looks like it is driving on top of the feed.

Caption

Customers don't leave with a goodbye. They just stop showing up in your orders.

The cheapest sale in your shop is someone who bought once and drifted. They trust you. They know your sizes.

One Tap Manager finds who went quiet, writes the message, and sends it by email (or gives you a tap-to-send WhatsApp link). Then it counts who came back.

The drifting car is AI generated. The app is real, with sample shop data.

Comment WINBACK and I'll DM you 3 ready-to-send win-back emails. Free.

Pinned comment: "Guess: how many past customers haven't ordered in 45 days? 0 to 10, 10 to 50, or 50+?"

Post 6: “The step stool, the lights and the \$50,000 SUV”

Reel · 18 seconds · 9:16 · Week 2, Thursday · Comment word: WEEK

Needs: recording R6 (plan a week of Instagram), made from the US sample shop after the Christmas campaign is rewritten for the US.

The idea: A man on a wobbly plastic step stool hangs Christmas lights on his balcony. Right below: a brand-new \$50,000 SUV with a giant red bow on the roof. The stool gives way, the frame freezes, a red circle goes around the car, and everyone expects the worst. Then the lights swing down and stop an inch above the bow. The house is ready for Christmas. Is your Instagram?

Director’s note: The freeze is the joke, and it only works if the viewer has already guessed the disaster. By second 2 they must have seen three things clearly: the flimsy step stool, the cat watching, the new car below. Then freeze, red circle, record scratch, total silence.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: wide from the driveway, balcony above, new SUV below	Brand-new \$50,000 SUV below. (“\$50,000” in marigold)	distant carolers, plastic creaking
1.0 to 1.35	Shot 2, its 1.0 to 1.35 s: the stool legs bowing	Look at that step stool. (stays until 2.0 s)	creak, a sleigh-bell build starts
1.35 to 1.7	Shot 1, its 1.35 to 1.7 s, zoomed 200% onto the cat on the railing		creak
1.7 to 2.0	Shot 2, its 2.6 to 2.9 s: the legs bending further		creak, the build speeding up
2.0 to 2.5	Freeze on Shot 1’s frame at 2.0 s (the stool tilting). A red hand-drawn circle draws itself around the SUV	Yep. Exactly what you think.	record scratch, then total silence
2.5 to 3.5	Shot 3, its 0 to 1 s: the lights slip over the railing and swing down, stopping just above the bow	(none)	soft rustle, a magical shimmer
3.5 to 5.0	Shot 3, its 3 to 4.5 s: the lights glowing just above the bow, the cat calm	House: ready for Christmas.	the festive beat drops in
5.0 to 6.5	Navy card	Is your Instagram? (marigold)	bass hit
6.5 to 8.5	R6, tap “Plan this week”, snap zoom + “SAMPLE SHOP DATA” tag	One tap.	click, whoosh
8.5 to 10.5	R6, the calendar fills day by day	Whole week: planned.	pop, pop, pop
10.5 to 12.5	R6, snap zoom on one holiday caption and its hashtags	Captions and hashtags too.	ding
12.5 to 14.5	R6, the holiday campaigns, tap “Plan it: one tap”	Christmas, New Year: ready.	click
14.5 to 16.0	Navy card	You just approve.	tick
16.0 to 18.0	End card	Comment WEEK: free holiday posting plan.	sonic logo

Music: a sleigh-bell build from Instagram’s library, a record scratch into silence on the freeze, then a festive beat (search “christmas build up”, then “christmas”).

Shot 1 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A December evening in an American suburb, seen from the driveway looking up at a two-story house. On a second-floor balcony, a man seen only from behind (gray hoodie, jeans) stands on a small, flimsy plastic step stool with his back to the camera, stretching up to hang a string of warm-white Christmas lights along the edge of the balcony roof. The string drapes loosely over the balcony railing. A ginger cat sits on the railing a little to the side, watching him. Directly below the balcony, in the driveway, a brand-new shiny white SUV with a giant red gift bow on its roof. A light dusting of snow on the lawn, the neighbors' houses lit up, a dusky blue sky. CAMERA: from the driveway, low, 28 mm lens look. The balcony in the top half, the SUV filling the bottom third. LIGHT: blue-hour sky, warm light from the house's windows, the Christmas lights glowing. STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen. AVOID: any face or profile, a readable license plate, logos, text, purple, neon.

Shot 1 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed. CAMERA: locked on a tripod in the driveway, no movement. ACTION: 0 to 2 s: he stretches higher; the step stool wobbles and its legs bow outward; the cat turns its head to watch. At 2 s the step stool tilts sharply to one side under him. 2 to 4 s: he steps down safely and disappears behind the balcony wall. 4 to 10 s: the balcony is still, the lights glowing, the cat calm. SOUND: distant carolers, plastic creaking louder and louder, one sharp plastic crack at 2 s. STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen. AVOID: any face or profile, anyone falling off the balcony or getting hurt, a readable license plate, logos, text, purple or neon, background music.

Shot 2 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up at floor level on a house balcony on a December evening: the four legs of a cheap plastic step stool bowing outward under a man's weight. Only his sneakers and the hems of his jeans are visible on the step. White stress marks are forming in the plastic where the legs bend. Warm light from the balcony door; a string of Christmas lights glowing, blurred, in the background.
CAMERA: at floor level, 35 mm lens look, the stool legs sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: any face, text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked at floor level.
ACTION: 0 to 3 s: with each small shift of his weight the legs bow further outward, the plastic whitening at the bends. At 3 s one leg buckles sideways and the stool tilts. 3 to 10 s: the empty stool lies on its side; he has stepped off, out of frame.
SOUND: creaking plastic, rising, then a sharp crack.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: any face, anyone falling or getting hurt, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A December evening in the driveway of an American suburban house. The roof of a brand-new shiny white SUV, with a giant red gift bow on it, fills the lower half of the frame. Above it, a second-floor balcony railing with a string of warm-white Christmas lights hanging over it. A ginger cat sits calmly on the railing. The neighbors' houses lit up behind, a dusky blue sky.
CAMERA: at car-roof height, looking slightly up, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, a readable license plate, logos, text, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, no movement.
ACTION: 0 to 1 s: the string of lights slips off the railing and swings down toward the car. At 1 s it stops with the last glowing bulbs about an inch above the red bow, never touching it. 1 to 10 s: the lights sway gently just above the bow, still glowing; the cat on the railing stays perfectly calm.
SOUND: a soft rustle, a light magical shimmer, faint carolers in the distance.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: the lights touching or damaging the car or the bow, people, faces, a readable license plate, logos, text, purple or neon, background music.

Caption

The house is lit. The car survived. The step stool did not.

Now the real holiday question: is your Instagram ready for Christmas, or will you be writing captions at 11:58 pm again?

One Tap Manager plans your whole week of Instagram in one tap: posts, captions, hashtags and times, plus holiday campaigns. You approve, and it posts.

The step stool scene is AI generated. The app is real, with sample shop data.

Comment WEEK and I'll DM you a free 7-day holiday posting plan.

Pinned comment: "Holiday posts ready? Yes, no, or 'starting tomorrow, for real?'"

Post 7: “Warning”

Carousel · 4 slides · 4:5 (1080x1350) · Week 3, Friday

Needs: `app-today.png`, retaken from the US sample shop.

The idea: A fake content warning stops the scroll, because nobody can resist “See anyway”. The joke is that the “sensitive content” is a comforting truth: you don’t need a team, you need a team’s work. Slide 2 should feel like breathing out.

Make Slide 2 first. Slide 1 uses it as its blurred background.

Slide 2 (image prompt · Attach: your notebook photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: a small, tidy home boutique desk in morning light. A neat stack of folded knit sweaters and linen tops in dusty rose, sage green and navy; a bottle-green velvet tray of gold hoop earrings and dainty necklaces; two small glass perfume bottles with gold caps; a few kraft-paper mailer bags; a red cloth-covered notebook; a white ceramic coffee mug. A white plaster wall behind with the soft shadow of a window grid.

CAMERA: from standing height, 30 degrees down, 28 mm lens look.

LIGHT: soft window light from the left, calm and warm.

TEXT: the top 30% of the image is clean wall. Write there, left aligned, in a heavy bold sans-serif (like Inter ExtraBold), dark navy #101828:

"You don't need a team."

Next line, same style, with a marigold (#F5A623) highlighter stroke behind it:

"You need a team's work."

Bottom-left corner, very small gray text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 1 (image prompt · Attach: your finished Slide 2)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: use the attached photo, remove all its text, and blur it very heavily so nothing is recognizable. Cover it with a dark navy #111827 layer at 60% opacity.

CENTER, stacked with generous spacing:

1. A simple thin off-white line icon of an eye with a slash through it.

2. Bold sans-serif, off-white #F7F5EF: "Warning."

3. Medium sans-serif, light blue #A9C1F5, centered, maximum 4 lines: "This post may upset people who think you need a 10-person team to grow."

4. A rectangular button with softly rounded corners (not pill-shaped), a thin off-white border, and inside it: "See anyway →"

This is our own design, not a copy of Instagram's sensitive-content screen.

AVOID: Instagram's logo or its exact warning layout, emoji, purple, any other text.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

TOP: a small label in gray monospace capitals: "WHAT A TEAM ACTUALLY DOES"

BELOW: a checklist of four rows, left aligned. Each row has a mint green (#34D399) check mark, then bold off-white #F7F5EF sans-serif text:

"1. Reading the numbers."

"2. Bringing back past customers."

"3. Posting every day."

"4. Reordering on time."

STYLE: calm, lots of space between rows.

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 4 (image prompt · Attach: `app-today.png` from the US sample shop)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

UPPER 60%, centered: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at its top-left corner, gray monospace capitals: "SAMPLE SHOP DATA"

BELOW, left aligned:

Heavy bold sans-serif, off-white #F7F5EF: "That's it. That's the whole app."

Medium sans-serif, light blue #A9C1F5: "One person. Done before lunch."

Small gray monospace: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Caption

"We'll grow once we have a team." We hear this every day.

Big brands aren't winning on product. Yours is probably better.

They win because someone does four boring jobs every single day.

You don't need to hire that team. You need those four jobs done. That's the whole app.

Tag the friend who says "once I hire someone, just watch."

#smallbusiness #smallbusinessowner #shopsmall

Pinned comment: "Which of the 4 jobs slips through the cracks for you every day?"

Post 8: “Sold out” (Shop Doctor, Ep 02)

Reel · 18 seconds · 9:16 · Week 2, Tuesday · Comment word: STOCK

Needs: recording R7 (reorder alert and purchase order), made from the US sample shop.

The idea: The seller carries a tower of gift boxes full of silk scarves down the stairs and can’t see the last step. She misses it. In slow motion, the silk unfolds through the window light like ribbons, and the last empty box bonks her on the head. You can’t see the last step coming. You can’t see the last piece of your bestseller coming either. The app can.

Director’s note: This is the one slow-motion reel on the page, so let the silk breathe. The bonk at real speed right after it gives people permission to laugh. She is always seen from behind or from the shoulders down: the yellow pencil in her bun, the mustard shirt.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 3 to 4 s: from behind, the box tower in her arms, the last steps below	\$3,000 of silk scarves. (“\$3,000” in marigold)	footsteps on wood, cardboard creaking
1.0 to 2.0	Shot 2, its 2 to 3 s: her bare foot feeling for the step	See the last step? She can’t.	two low cello notes, or a slow heartbeat
2.0 to 3.5	Shot 3, its 0 to 1.5 s, slow motion: the foot misses, the tower tilts, silk floats	(none)	everything slowed, a deep boom, a dramatic violin swell
3.5 to 4.0	Shot 4, its 0 to 0.5 s: she lands safely; the last box bonks her head	(none)	a comic “bonk”
4.0 to 5.0	Shot 5, any 1 s: top-down, silk spread across the floor	You can’t see the last step.	one drum hit
5.0 to 6.5	Navy card	Or your last piece of stock. (marigold)	bass hit
6.5 to 8.5	R7, snap zoom on the “Time to buy more” alert + “SAMPLE SHOP DATA” tag	The app sees it first.	ding
8.5 to 10.5	R7, snap zoom on the days of stock left	3.2 days of stock left.	bass hit
10.5 to 12.5	R7, snap zoom on the supplier’s delivery time	Your supplier takes 5 days.	whoosh
12.5 to 14.5	R7, tap “Draft the purchase order”, snap zoom on the order total	Purchase order: already filled in.	click, then ding
14.5 to 16.0	Navy card	Sold out? Not anymore.	cash register “ding”
16.0 to 18.0	End card	Comment STOCK: free reorder cheat sheet.	sonic logo

Music: a two-note suspense cello or a heartbeat for the build (search “suspense cello”), a slowed dramatic violin during the float (search “dramatic violin”), then a drum hit into an upbeat track. Use Instagram’s library only, never a movie theme.

Shot 1 · First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. A narrow wooden staircase in an old American townhouse, late morning. The camera is a few steps above and behind a woman who is walking down, looking down past her back. She is seen only from behind: black hair in a loose messy bun with a yellow pencil stuck through it, a mustard-yellow cotton shirt with the sleeves rolled, a thin gold bangle on her right wrist, a red-and-yellow woven string bracelet on her left wrist, bare feet. She holds a tall, wobbling tower of about 20 flat gift boxes (black with a thin gold stripe) in front of her, stacked higher than her head, so she cannot see her feet or the steps. Below her: the last three steps, with a bright shaft of sunlight from a small window falling across the bottom step.
CAMERA: behind and above her, 24 mm lens look.
LIGHT: the window shaft bright, everything else warm and dim, dust floating in the light.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: her face or profile, readable text or logos on the boxes, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: handheld, following slowly behind and above her, a slight natural sway.
ACTION: 0 to 4 s: she comes down one step at a time, carefully; the box tower sways a little with every step. 4 to 10 s: she stops on the second-to-last step, the tower wobbling, one foot starting to reach forward.
SOUND: bare footsteps on old wooden stairs, cardboard creaking.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: her face or profile, extra or fused fingers, the boxes falling yet, text or logos, purple or neon, background music.

Shot 2 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up at step level on an old wooden staircase: a woman's bare foot (medium-brown skin) hovering in the air, toes stretched, feeling for the next step. Above it, the hem of her jeans. A bright shaft of sunlight falls across the step below, dust floating in it.
CAMERA: low, at the height of the step, 50 mm lens look, the foot sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: any face, text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, very slow push-in.
ACTION: the foot slowly feels forward for the step, toes stretching, hovering over the edge, unsure. It never quite finds the step.
SOUND: a slow heartbeat, very quiet room tone.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: any face, extra toes, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Side view at the height of the last stair in an old American townhouse. A woman seen only from the shoulders down (mustard-yellow cotton shirt with rolled sleeves, jeans, a thin gold bangle, a red-and-yellow woven string bracelet) is stepping off the second-to-last step, her foot reaching into empty air past the last step. The tall tower of black-and-gold gift boxes in her arms is starting to tilt forward, away from her. A bright shaft of sunlight from a window crosses the frame, dust floating in it. A soft woven rug on the floor below.
CAMERA: side on, at step height, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: her face or head, text, logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
SLOW MOTION, as if filmed at 240 fps, for the whole clip.
CAMERA: locked, side on.
ACTION: 0 to 6 s: her foot misses the last step and she steps safely down onto the rug; the box tower tilts forward away from her; the lids come off and shimmering silk scarves in red, gold, magenta and emerald green unfold out of the boxes and float through the shaft of sunlight like long ribbons, their edges glinting. 6 to 10 s: the silk drifts slowly down to the floor.
SOUND: everything slowed down: a deep, stretched boom, one long dramatic violin note.
STYLE: looks like real slow-motion phone footage, not an ad. Natural exposure, true-to-life colors, no CGI sheen.
AVOID: her face or head, her falling or getting hurt, extra or fused fingers, text or logos, purple or neon, background music.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. At the bottom of an old wooden staircase, seen from behind at hip height: a woman standing safely on both feet on a woven rug. Black hair in a loose messy bun with a yellow pencil stuck through it, a mustard-yellow cotton shirt. Silk scarves and open black-and-gold gift boxes lie around her feet. One empty gift box is in the air just above her head, about to land on it.
CAMERA: behind her, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: her face or profile, text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, behind her.
ACTION: 0 to 0.5 s: the light, empty box drops onto the top of her head and bounces off onto the rug. 0.5 to 2 s: she gives one tiny, resigned shrug. 2 to 10 s: she stands still among the scarves.
SOUND: a soft comic "bonk", then quiet.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: her face or profile, anyone getting hurt, text or logos, purple or neon, background music.

Shot 5 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Straight down on an old hardwood floor: silk scarves in red, gold, magenta and emerald green spread in beautiful, accidental folds, catching a shaft of sunlight. Two open black-and-gold gift boxes and a loose lid at the edges of the frame.
CAMERA: directly overhead, 24 mm lens look, everything sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, feet, faces, text, logos, purple, neon.

Shot 5 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: overhead, a slow 5% push-in over 10 seconds.
ACTION: one scarf's edge settles gently; dust drifts through the sunlight.
SOUND: quiet room tone.
STYLE: looks like real phone footage, not an ad. Natural exposure, true-to-life colors, no CGI sheen.
AVOID: people, text, logos, purple or neon, background music.

Caption

You can't see the last step when your arms are full. You can't see the last piece of your bestseller either, until a customer asks for it.

Rule of thumb: reorder when the days of stock you have left are fewer than your supplier's delivery days plus 3 spare days.

One Tap Manager does that math for every product and fills in the purchase order for you.

The staircase scene is AI generated. The app is real, with sample shop data.
Comment STOCK for the free reorder cheat sheet, before the holiday rush.

#smallbusiness #boutiqueowner #shopsmall

Pinned comment: "How many days will your bestseller last? $\text{Stock} \div \text{daily sales}$. Drop your answer."

Post 9: “Money down the drain”

Reel · 18 seconds · 9:16 · Week 3, Monday · Comment word: PRICE

Needs: recording R8b (the pricing page), made after the new pricing is in the app.

The idea: A heavy gold necklace lies in a kitchen sink, its chain slowly slipping down the drain link by link. Two fingers pinch it out at the last moment. Your money leaves the same quiet way: one app subscription at a time. Then the plain math, and our price: \$12.99 flat, never a percentage.

Director’s note: The calmest hook on the page and the tensest. One locked shot, no cuts for 5 seconds, no music. Just water, a faint tinkle of metal, and a ticking clock. The viewer’s own nerves do the editing.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: the necklace in the sink	\$8,000 necklace. (big, marigold)	running water
1.0 to 3.0	Shot 1 continues: the chain slithers into the drain	Don’t... then you... then dare... (added word by word)	water, a metal tinkle, a ticking clock
3.0 to 3.8	Shot 1 continues: the pendant catches, two fingers lift the necklace out	(none)	the ticking stops, one bright “ting”
3.8 to 5.0	Shot 1 continues: the dripping necklace in her palm	Money leaves the same way. Slowly.	bass hit
5.0 to 6.5	Navy card	One app. Then another. Then another. (“Then another.” in marigold)	bass hit
6.5 to 8.5	The receipt card, revealed top to bottom with a wipe	(the receipt is the text)	a pen tick on each line
8.5 to 10.0	Navy card	\$136.75 a month. Before fees. (“\$136.75” in red-orange #C4320A)	bass hit
10.0 to 12.5	R8b, snap zoom on Pro Max \$12.99	All of it: \$12.99 a month.	ding
12.5 to 14.5	R8b, snap zoom on the 7-day free trial	Try it free for 7 days.	whoosh
14.5 to 16.0	Navy card	Our cut of your sales: \$0. Ever. (\$0 in mint green)	cash register “ding”
16.0 to 18.0	End card	Comment PRICE.	sonic logo

Music: nothing but the ticking clock under the water in the hook. From 5.0 s, a clean bass hit into a smooth R&B-style beat from Instagram’s library (search “smooth beat”).

Shot 1 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Looking down into a clean stainless steel kitchen sink: a heavy gold necklace with a large pendant lies near the round drain, the end of its chain draped over the drain strainer. Water from the faucet runs and swirls around it.
CAMERA: a locked macro shot from above at about 70 degrees, 60 mm macro lens look, focus on the chain at the drain.
LIGHT: soft window light from the side, bright highlights on the gold and the wet steel.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, hands, text, logos, purple, neon.

Shot 1 • Motion (video prompt · Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
ONE UNBROKEN TAKE: no cuts, no zoom, the camera completely still.
ACTION: 0 to 3 s: pulled by the water, the chain slithers into the drain link by link, dragging the pendant slowly across the steel toward the hole. At 3 s the pendant catches at the hole. At 3.2 s two fingers of a woman's hand (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist) come in from the top of the frame, pinch the chain and lift the whole necklace out, dripping. 3.8 to 10 s: the dripping necklace rests in her open palm above the sink, the water still running.
SOUND: running water echoing in the sink, a faint metallic tinkle of the chain, a ticking clock that stops at 3 s, then one bright "ting" as the necklace lifts out.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: cuts, zooms, any face, extra or fused fingers, the necklace going down the drain, text, logos, purple or neon, background music.

The receipt card (image prompt)

Flat graphic, 9:16 vertical, 1080x1920. Warm off-white background #F7F5EF.
In the center, a long paper receipt (light beige #EFECE3, slight paper texture, a zig-zag torn bottom edge), tilted by 2 degrees. Printed on it in a dark gray monospace font, item names on the left and prices on the right:
Analytics app \$49.00
Inventory app \$49.00
Win-back email app \$20.00
Instagram planner \$18.75
then a dashed line, then in red-orange #C4320A:
Total per month \$136.75
Above the receipt, a small gray monospace tag: "STARTING PRICES · SEPT 2026"
Keep the top 12% and bottom 22% of the image empty.
AVOID: emoji, purple, logos, any other text. Every word and number exactly as written.

Where the receipt numbers come from (starting prices checked September 2026; check them again before you post, because app prices change):

- Analytics: \$49 a month, Lifetimely's first paid plan ([Shopify App Store](#))
- Inventory: \$49 a month, Prediko for stores under \$100K a year ([prediko.io/pricing](#))
- Win-back email: \$20 a month, Klaviyo's email plan for 251 to 500 active profiles ([Email Tool Tester, updated August 2026](#))
- Instagram planner: \$18.75 a month, Later's Starter plan billed yearly ([later.com/pricing](#))

The receipt shows categories, not app names, so the post compares jobs, not brands.

Caption

Most tools grow their fee as you grow. You sell more, they take more. That's backwards.

What a small seller's app stack can cost at starting prices: analytics \$49, inventory planning \$49, win-back email \$20, an Instagram planner \$18.75. That's \$136.75 a month, before any fees your selling platform takes.

One Tap Manager does all four jobs in one app. Pro is \$10 a month. Pro Max is \$12.99 a month, flat. Try it free for 7 days. We never take a percentage of your sales.

App prices are the starting plans of popular apps in each category, checked September 2026. Yours may cost more or less. The necklace scene is AI generated.

Comment PRICE and I'll send you the full comparison.

#smallbusiness #smallbusinessowner #instagramshop

Pinned comment: "How much do your apps cost you each month? Guess, and we'll do the math with you."

Post 10: “Wrong answers only”

Carousel · 4 slides · 4:5 (1080x1350) · Week 3, Thursday

Needs: `app-today.png`, retaken from the US sample shop.

The idea: The page’s comment magnet. A seller’s chaotic desk, styled like a detective’s evidence board, with one ask: wrong answers only. Every seller recognizes this desk, and the joke invites them to be funnier than us.

Make Slide 1 first. Slides 2 and 3 are built from it, so the desk matches exactly.

Slide 1 (image prompt · Attach: your notebook photo)

Photorealistic top-down photo, 4:5 portrait, 1080x1350.

SCENE: a wooden desk set up like a detective's evidence board, funny but realistic. Three phones with blank dark screens; an open red cloth-covered notebook full of blue handwritten notes (not readable); about twenty yellow sticky notes with scribbles (not readable); crumpled paper receipts; a calculator; a folded dusty-rose sweater; a small tray of gold earrings; a white coffee mug. Everything is connected by tight red strings pinned into the wood between the objects.

CAMERA: directly overhead, 35 mm lens look, everything sharp.
LIGHT: soft daylight from the top of the frame.

TEXT: the bottom 25% of the image fades into dark navy #111827. In that area, left aligned, heavy bold sans-serif, off-white #F7F5EF:
"What is this?"
Next line, in marigold #F5A623:
"Wrong answers only."
Bottom-left corner, very small gray text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, hands, readable text on notes or screens, logos, emoji, purple.

Slide 2 (image prompt · Attach: your finished Slide 1)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: the attached desk photo with its text removed, faded under an off-white #F7F5EF layer at 80%, so it looks soft and light.

TOP: heavy bold sans-serif, dark navy #101828: "This is a normal seller's 'system'."

Four handwritten-style notes in deep indigo #1E3A8A, like a marker pen, each with a hand-drawn arrow pointing at the right object in the photo:

"Orders: 3 DM threads" pointing at the three phones
"Stock: memory" pointing at the sticky notes
"Money: the red notebook" pointing at the notebook
"Customers: Mom knows" pointing at the coffee mug

AVOID: emoji, purple, app logos, any other text. Spell every word exactly.

Slide 3 (image prompt · Attach: your finished Slide 1 and `app-today.png` from the US sample shop)

Photorealistic top-down photo, 4:5 portrait, 1080x1350.

SCENE: the same wooden desk, from exactly the same camera position as the attached desk photo, now calm and almost empty. In the center, one phone lying screen up, showing the attached app screenshot exactly as it is (do not redraw or change it). A white coffee mug, a small potted plant, and the red notebook, closed, in a corner. Everything else is gone.

TEXT at the top, on a soft, light area of the desk, heavy bold sans-serif, dark navy #101828:
"After: one screen. Today's to-dos."
Below it, smaller, medium sans-serif:
"The chaos was never your fault. There was just no system."
Small tags in gray monospace capitals: "SAMPLE SHOP DATA" next to the phone, "AI GENERATED" in the bottom-left corner.

STYLE: looks like a real phone photo, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, hands, emoji, purple, any change to the screenshot.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

UPPER CENTER: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold (#F5A623) ring.

BELOW, centered, heavy bold sans-serif, dark navy #101828: "Best wrong answer gets pinned."

Below, small gray text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, any other text.

Caption

Slide 1 has a simple explanation. We want to hear yours first.

Wrong answers only. Best one gets pinned.

(The real answer: orders in three DM threads, stock in memory, money in a red notebook, customers in Mom's head.)

The chaos was never your fault. There was just no system.

#smallbusiness #shopsmall #instagramshop

Pinned comment: "Our wrong answer: Sherlock Holmes's work-from-home setup. Your turn." Replace it with the best reader answer within 24 hours, as promised.

Post 11: “What does ‘nice product’ even mean?” (Shop Doctor, Ep 03)

Reel · 18 seconds · 9:16 · Week 3, Tuesday · Comment prompt: the weirdest review you’ve ever gotten

Needs: recording R9 (review and complaint analysis), made from the US sample shop.

The idea: A blender full of bright green smoothie with its lid off, and a \$2,000 white wedding dress hanging right behind it. A finger reaches for the button. The lid slams on at the last split second. The lid is the size chart: small, boring, and it saves the dress. Without it, “runs small” reviews splash all over your brand.

Director’s note: Everything in the hook exists to make the lid feel important. Keep the dress visible in the background of every hook shot, so the viewer’s eyes keep flicking between the blender and the white fabric.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: kitchen, lid off, the dress behind	\$2,000 white wedding dress. (“\$2,000” in marigold)	quiet kitchen sounds
1.0 to 2.0	Shot 1, its 1.5 to 2.5 s: her finger moves toward the button	Lid?	a tension riser
2.0 to 2.8	Shot 2, its 0 to 0.8 s: the button is pressed, the smoothie whirls up	LID?? (red-orange #C4320A)	blender motor roar
2.8 to 3.5	Shot 3, its 0 to 0.7 s: the hand slams the lid on; one tiny green drop on the counter	(none)	a hard slam, music cuts to silence
3.5 to 5.0	Shot 4, any 1.5 s: slow push-in on the spotless dress	Saved. This time.	the motor winding down
5.0 to 6.5	Navy card	The size chart is the lid. then, smaller, in marigold: Skip it, and returns splash everywhere.	bass hit
6.5 to 8.5	R9, the reviews file uploads + “SAMPLE SHOP DATA” tag	Upload your reviews.	click
8.5 to 10.5	R9, snap zoom on the loudest complaint (sizing)	Top complaint: sizing.	bass hit
10.5 to 12.5	R9, snap zoom on the complaint rate	17 out of 40 reviews.	whoosh
12.5 to 14.5	R9, snap zoom on the suggested fix	Fix: add a size chart.	ding
14.5 to 16.0	Navy card	Fewer returns. Cleaner brand.	tick
16.0 to 18.0	End card	Comment the weirdest review you’ve ever gotten.	sonic logo

Music: a quick tension riser into the motor roar, a hard cut to silence on the lid slam, then an upbeat track from Instagram’s library (search “tension riser”, then “funny”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A bright, ordinary American home kitchen in late-morning daylight. On a white quartz counter in the lower half of the frame, a countertop blender with its tall jar filled with a bright green spinach smoothie. The blender's lid lies on the counter beside it, NOT on the jar. About 1.5 m behind, a white wedding dress hangs on a hanger on the open pantry door, spotless, softly out of focus but clearly white. CAMERA: at counter height, 28 mm lens look, the blender jar sharp. LIGHT: soft daylight from a window on the left. STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen. AVOID: people, faces, hands, readable text, brand logos on the blender, purple, neon.

Shot 1 · Motion (video prompt · Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed. CAMERA: locked, a very slow push-in toward the blender. ACTION: 0 to 1 s: stillness, the lid lying next to the jar. 1 to 3 s: a woman's hand (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist, the rolled sleeve of a mustard-yellow cotton shirt) slowly enters from the right, index finger reaching toward the blender's power button, and stops just above it. 3 to 10 s: the finger hovers there; the lid stays on the counter. SOUND: quiet kitchen sounds, a fridge humming, a spoon tapping a glass. STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen. AVOID: the finger pressing the button, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 2 · First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Macro close-up of the base of a countertop blender on a white quartz counter: a woman's index finger (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist) resting on the power button. Above it, the lower part of the open blender jar, full of bright green smoothie, no lid. A white dress blurred far in the background.
CAMERA: macro, at counter height, 50 mm macro lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: faces, readable text, brand logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked macro.
ACTION: 0 to 0.3 s: the finger presses the button. From 0.3 s: the motor roars, the jar shakes, and the green smoothie whirls up the jar walls toward the open top, a few tiny specks flying up, but nothing spills over.
SOUND: a click, then a loud blender motor roar.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: smoothie spilling out, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Directly above an open blender jar: bright green smoothie whirling up close to the rim. A woman's hand (medium-brown skin, a thin gold bangle, the rolled sleeve of a mustard-yellow shirt) holds the blender's lid just above the opening, about to slap it on. White quartz counter around the blender.
CAMERA: overhead, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: faces, readable text, brand logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked overhead.
ACTION: 0 to 0.3 s: the hand slaps the lid down firmly onto the jar. One tiny drop of green smoothie lands on the counter beside the blender. 0.3 to 10 s: the lid holds, the motor keeps whirring safely, the hand stays pressed on the lid.
SOUND: a hard lid slam, then the steady whir of the motor.
STYLE: looks like real phone footage, not an ad. Natural exposure, slight noise, true-to-life colors, no CGI sheen.
AVOID: smoothie splashing anywhere else, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A white wedding dress on a padded hanger on an open pantry door, spotless, its fine lace catching soft daylight. Behind it, a glimpse of a bright American kitchen.
CAMERA: 85 mm lens look, the dress sharp, the background soft.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colors, no CGI sheen.
AVOID: people, faces, text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: a slow push-in toward the dress over the full 10 seconds.
ACTION: the dress hangs still; one fold of the skirt moves slightly in a breeze.
SOUND: a blender motor winding down in the background, then quiet.
STYLE: looks like real phone footage, not an ad. Natural exposure, true-to-life colors, no CGI sheen.
AVOID: people, faces, stains on the dress, text, logos, purple or neon, background music.

Caption

"Nice product" tells you nothing. "Runs a size small" tells you exactly what to fix.

A size chart is the lid on your blender. Boring, small, and it saves the dress.

One Tap Manager reads your reviews file, groups what customers love and complain about, and shows you the complaint costing you the most. For clothing, it's usually sizing.

The kitchen scene is AI generated. The reviews in the app are samples we wrote.

Comment the weirdest review you've ever gotten.

Pinned comment: "What's the weirdest review you've ever gotten? No customer names, just the review."

Post 12: “0 customers. 20 sellers. 7 days.” (0 to 20, Day 1)

Carousel · 5 slides · 4:5 (1080x1350) · Week 1, Friday · Comment word: STORE · Pin this post

Needs: `app-site.png`, retaken from a US sample store. **Do not post until card checkout works end to end**, and only if you will really run the challenge and share a daily update in Stories.

The idea: The most honest post on the page. A founder at night with one lamp and a laptop saying: I built this, nobody uses it yet, help me get 20 sellers live in 7 days, and if it doesn't work I'll say so here. Honesty is the reason people follow a brand page that has nothing to show yet.

Slide 1 (image prompt · Attach: your notebook photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: night. A small home-office desk lit by one warm brass desk lamp and the glow of an open laptop. The laptop screen shows a dim, plain desktop (nothing readable). On the white wall above the desk, a plain paper calendar with seven empty hand-drawn boxes in a row. On the desk: a white coffee mug, a red cloth-covered notebook, a phone lying face down.

CAMERA: straight-on at desk height, 35 mm lens look.

LIGHT: a pool of warm 2700 K lamplight in the center, deep navy (#111827) shadows all around.

TEXT across the middle, centered:

Heavy bold sans-serif, off-white #F7F5EF: "I built an app."

Below it, very large bold monospace, off-white: "0 / 20"

Below that, heavy bold sans-serif, marigold #F5A623: "Customers: 0."

Bottom-left corner, very small gray text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colors, no CGI sheen.

AVOID: people, faces, hands, readable screen content, emoji, purple, logos, extra text.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "0 TO 20 · DAY 1"

UPPER HALF: a row of seven empty hand-drawn calendar boxes in deep indigo #1E3A8A ink. The first box has "Day 1" written in indigo handwriting.

BELOW, left aligned, heavy bold sans-serif, dark navy #101828: "Mission: websites for 20 Instagram sellers in 7 days." with a marigold highlighter stroke behind "20 Instagram sellers" only.

AVOID: emoji, purple, gradients, any other text. Spell every word exactly.

Slide 3 (image prompt · Attach: `app-site.png` from a US sample store)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

UPPER 60%, centered: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at its top-left corner, gray monospace capitals: "SAMPLE SHOP DATA"

BELOW, left aligned:

Bold sans-serif, off-white #F7F5EF: "Your Instagram shop. Your own website."

Medium sans-serif, light blue #A9C1F5: "Cart and card checkout. Our cut: \$0."

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

CENTER, left aligned, lots of space between lines:

Heavy bold sans-serif, off-white #F7F5EF: "If 20 sellers don't find it useful..."

Next, same style: "...I built the wrong thing."

Next, same style, marigold #F5A623: "If I fail, I'll show you that too."

AVOID: emoji, purple, gradients, icons, any other text. Spell every word exactly.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "0 TO 20 · DAY 1"

UPPER CENTER: very large bold monospace, dark navy #101828: "0 / 20"

Below it: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold ring.

BELOW, centered, heavy bold sans-serif, dark navy: "Comment STORE to be one of the 20."

Below, medium sans-serif, gray: "Follow to see if I make it."

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

Honest post: I built this app and we have zero customers.

The challenge: in the next 7 days, I'll personally help 20 Instagram sellers get their own website live on One Tap Manager. Your products, your name, cart and card checkout, paid straight to you. Try it free for 7 days. We never take a cut of your sales.

If 20 sellers don't find it useful, I've built the wrong thing, and I'll say so here.

Comment STORE to be one of the 20. Follow to see if I make it.

Pinned comment: "Day 1 update tonight in Stories. Counter: 0 / 20."

Growth rules for these 12 posts

1. **Set up the auto-DM before Post 1.** Every “Comment WORD” must get its DM within minutes. Use a Meta-approved tool (for example ManyChat’s Instagram automation) and test each keyword from a second account. An unanswered keyword costs you trust.
2. **The first hour after posting decides the reach.** Reply to every comment in that hour, and send the post in DMs to 20 real US sellers you would like as customers. Early saves, shares and comments from the right people tell Instagram who to show it to next.
3. **Post the pinned comment** (given under each post) the moment the post goes live, and pin it.
4. **Share every post to your Story** the same day, with a poll or question sticker.
5. **Collab posts are your free reach.** When a seller from the 0 to 20 challenge goes live, make a short reel of her store and publish it as an Instagram Collab with her account. It appears on both profiles and in front of her followers, who are exactly your customers.
6. **Post on US time.** Start with 7 pm Eastern, when shop owners are done for the day. That is about 4:30 to 5:30 am in India, so schedule every post in Meta Business Suite and let it go live while you sleep. Move the time if Insights shows your followers are online at another hour.
7. **Every Friday, look at three numbers per reel:** 3-second hold (did the hook stop the thumb), shares and saves. Make more of whatever gets shared.

Before you hit post (every time)

- “AI GENERATED” tag on every AI shot, and Instagram’s AI label switched on.
- “SAMPLE SHOP DATA” tag on every app screen, and every app screen comes from the US sample shop, in dollars.
- Every word on screen is US English, and every price is in dollars.
- The caption matches the video, and it says which part is AI generated.
- All text is inside the safe area: nothing in the top 12% or bottom 22% of a reel.
- The comment keyword’s auto-DM works, and the free thing you promised is ready to send.
