[Growth rules for these 12 posts](#)

[Before you hit post \(every time\)](#)

How to use this file

1. Go post by post. Every grey box is one prompt. Copy it, paste it, generate.
2. **Image prompts** go into ChatGPT, Gemini or Ideogram. **Video prompts** go into Kling, Veo, Runway or Hailuo, using “image to video”, 9:16, 10 seconds.
3. Every video shot has two prompts. Make the **First frame** image first, pick the most real-looking one, upload it to your video tool, then paste the **Motion** prompt.
4. Make 3 takes of everything. Keep the one where the hands have five fingers and nothing melts.
5. If the AI misspells text or changes an app screenshot, generate it again without the text and type the text yourself in Canva or CapCut. App screens are always your real screenshots and recordings.
6. Build each reel in CapCut from its **Timeline**. It tells you which seconds of which clip to use, what text goes on screen, and which sound to add.
7. **Attach** means: upload that file together with the prompt.

Make these once

1. Reference photos. Take 3 photos of your own hands in a mustard kurta, a thin gold bangle on the right wrist and a red-and-yellow kalava thread on the left. Take 1 photo of your red khata. Attach them to every prompt that shows hands or the khata, so the character looks the same in all 12 posts.

2. The 1T logo (image prompt)

Flat logo, square 1080x1080. A solid deep indigo (#1E3A8A) square with slightly rounded corners. In the centre, the characters "1T" in a bold monospace font (like JetBrains Mono Bold), colour off-white #F7F5EF, about 46% of the square's width. A short, thin marigold (#F5A623) bar sits just under the "1T". Nothing else: no outline, no gradient, no shadow, no other text.

3. The reel end card (image prompt). You will type each reel's comment line on it in CapCut.

Flat graphic, 9:16 vertical, 1080x1920. Solid warm off-white paper background #F7F5EF with very faint horizontal ruled lines, like a shop ledger page.
At about 35% from the top, centred: a rounded deep indigo (#1E3A8A) square logo about 200 px wide, with "1T" in off-white bold monospace letters, surrounded by one thin marigold (#F5A623) ring like a ripple from a finger tap.
Directly under the logo, leave a clear empty band about 200 px tall (a line of text will be added there later).
At about 58% from the top, centred, heavy bold sans-serif (like Inter ExtraBold), dark navy #101828: "One dukaan problem. Fixed every week."
Under it, smaller, grey monospace: "@onetapmanager"
Keep the bottom 22% empty.
Avoid: emoji, purple, gradients, shadows, any other text. Spell exactly.

4. The phone frame for app recordings (image prompt)

Flat graphic, 9:16 vertical, 1080x1920. Solid dark navy background #111827. In the centre, a plain black modern smartphone seen straight from the front, thin bezels, rounded corners, about 78% of the image width. Its whole screen is filled with solid bright chroma green #00B140. Nothing else: no reflections, no buttons, no logos, no text, no shadow.

In CapCut: put the screen recording on the bottom layer, the phone frame on top, and use **Chroma key** on the green so the recording shows through.

5. CapCut styles (set once, reuse in every reel)

- **Hook text:** Inter ExtraBold (or the closest heavy sans in CapCut), off-white #F7F5EF on a navy #111827 box with rounded corners. Maximum 7 words per line, 2 lines on screen. Keep it in the middle of the screen, away from the top 12% and the bottom 22%, where Instagram's buttons sit.
- **Navy card:** a solid #111827 background with off-white text. The key words in marigold #F5A623.
- **Numbers:** a bold monospace font (JetBrains Mono or similar). Money you keep is in mint green #34D399.
- **Chat bubbles:** light beige #EFECE3 rounded boxes, a thin dark border, dark text. Never copy WhatsApp's or Instagram's design.
- **Tags:** tiny grey monospace capitals in the bottom-left corner. "AI GENERATED" on every AI shot. "SAMPLE SHOP DATA" on every app recording.
- **Zooms on app screens:** a fast "snap zoom" (100% to 130% in about 0.15 s) onto the exact number or button named in the timeline, held for at least 0.8 s.

6. Sound kit. Phone buzz, bass hit, cash "ting", soft "bonk", record scratch, heartbeat, whoosh, pop, click, ding. The **sonic logo** closes every reel: a soft tap on glass, then a two-note rising chime. **Music** comes from Instagram's own audio library on the day you post, kept low under the sound effects.

Post 6 is about festive posting. Make sure it goes live before Navratri starts.

Post 1: “Tu 6 logon ka kaam karta hai”

Carousel · 6 slides · 4:5 (1080x1350) · Week 1, Monday · Pin this post

The idea: A stranger who opens the profile understands the whole page in one swipe. Slide 1 is the joke every one-person seller recognises (six jobs, one empty chair, paid in chai). The rest of the swipe answers “so what do you do for me?” and ends on the line that earns trust: we never take a cut of your sales.

Slide 1 (image prompt · Attach: your khata photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: the corner of a small Indian home shop at 9:30 am. A warm teak wooden desk against a cream lime-plaster wall. On the desk, six small cream card name plates stand in one straight row facing the camera, evenly spaced across the middle of the frame. Behind them, one empty blue moulded plastic chair, pushed in slightly, centred between the 3rd and 4th plates. On the left edge of the desk, a long red cloth-bound bahi-khata ledger tied with white-and-yellow string, worn corners, partly cut off by the frame. On the right edge, a small ribbed cutting-chai glass two-thirds full of milky tea, partly cut off by the frame.

NAME PLATES: one word on each, in small dark monospace capital letters, left to right: CEO, CA, PHOTOGRAPHER, PACKING, CUSTOMER CARE, INSTAGRAM.

CAMERA: straight-on at desk height, 10 degrees above, 50 mm lens look. Focus on the name plates, the wall softly out of focus.

LIGHT: soft morning window light from the left through an iron window grill, the grill's shadow falling on the wall behind the chair. No ceiling light.

COLOUR: cream and warm wood. The red khata and the blue chair are the only strong colours.

TEXT: the bottom 45% of the image fades smoothly into dark navy #111827. In that navy area, left aligned with a wide margin, in a heavy bold sans-serif (like Inter ExtraBold), off-white #F7F5EF:

"Tu CEO bhi hai. CA bhi. Photographer bhi. Packing wala bhi."

On its own line below, in marigold #F5A623:

"Salary? Ek cutting chai."

Bottom-left corner, very small grey text: "AI GENERATED"

STYLE: looks like a real phone photo, fine natural grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ruled lines every 56 px, like a shop ledger page, and one thin marigold (#F5A623) vertical margin line about 120 px from the left edge.

TEXT, left aligned just right of the margin line, dark navy #101828:

Headline, heavy bold sans-serif (like Inter ExtraBold), large, in the top third: "Big brands ke kurte better nahi hote."

Body, medium sans-serif, about half the headline size: "Unke paas bas log hote hain. Jo numbers padhte hain, aur phir kaam karte hain."

Behind the words "log hote hain" only: a hand-drawn marigold highlighter stroke at 70% opacity, slightly tilted, covering the lower half of the letters.

Top-right corner, small grey monospace: "2/6"

STYLE: calm, lots of empty space in the bottom half.

AVOID: emoji, purple, gradients, shadows, icons, any other text. Spell every word exactly.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

LAYOUT, top to bottom, left aligned with a wide margin:

1. A small label in grey monospace capitals: "A BIG BRAND'S BACK OFFICE"

2. Six rows, each with a simple thin-line off-white icon on the left and off-white #F7F5EF monospace text:

bar chart icon: "Data analyst"

box icon: "Stock manager"

person with a heart icon: "Customer manager"

phone icon: "Social media manager"

camera icon: "Photographer"

rupee sign in a square icon: "Accountant"

3. A thin off-white divider line at 40% opacity.

4. Heavy bold sans-serif, off-white: "Tera back office:"

5. Very large bold monospace in marigold #F5A623, the biggest thing on the slide: "1 insaan."

Top-right corner, small grey monospace: "3/6"

STYLE: crisp and minimal, generous spacing.

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 4 (image prompt · Attach: `app-today.png`)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

PHONE: in the upper 60% of the slide, centred, a plain black modern phone frame with thin bezels and rounded corners, about half the slide's width, showing the attached screenshot exactly as it is. Do not redraw, crop, translate or change anything inside the screenshot. A small beige tag at the phone's top-left corner, grey monospace capitals: "SAMPLE SHOP DATA"

TEXT below the phone, left aligned:

Bold sans-serif, off-white #F7F5EF: "One Tap Manager is that team. One app."

Then four short lines, medium sans-serif, light blue #A9C1F5:

"Batata hai aaj kya karna hai."

"Customer ka message likh deta hai."

"Supplier ka order bhar deta hai."

"Hafta ke posts plan kar deta hai."

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

CENTRE: a huge bold monospace "₹0" in mint green #34D399, the largest element on the slide.

Below it, bold sans-serif, off-white #F7F5EF: "Tumhari sale mein humara cut."

Below that, smaller medium sans-serif in light blue #A9C1F5, centred, maximum 3 lines: "Free plan: ₹0, forever. Max: ₹999 a month, flat. Never per order, never a percentage."

Top-right corner, small grey monospace: "5/6"

AVOID: emoji, purple, gradients, any other text. Spell every word and number exactly.

Slide 6 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "DUKAAN DOCTOR · EVERY TUESDAY"

UPPER CENTRE: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold (#F5A623) ring like a tap ripple.

BELOW, centred, heavy bold sans-serif, dark navy #101828: "Har hafte ek dukaan problem."

Next line, same style, with a marigold highlighter stroke behind it: "Roast bhi. Fix bhi. Free."

Below, small grey text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

The difference between you and a big brand isn't the product.

They have a team that reads the numbers every morning and acts on them.
You have a red notebook and one chai.

One Tap Manager is that team, for a one-person shop.

It tells you what to do today, writes the customer messages, fills in the supplier order and plans your week of posts.

Free to start. We never take a cut of your sales.

Follow for Dukaan Doctor: one shop problem, roasted and fixed, every Tuesday.

#smallbusinessindia #instagramseller #onlinebusinessindia #boutiqueowner

Pinned comment: "Inme se kaunsa kaam sabse zyada time khaata hai? Number likho, 1 se 6."

Post 2: “₹1.5 lakh ka phone, garam tel”

Reel · 18 seconds · 9:16 · Week 1, Thursday · Comment word: STORE

Needs: your screen recordings R2 (website builder) and R3 (shop checkout). Record them first. Before posting, test the checkout’s UPI on GPay, PhonePe and Paytm.

The idea: The seller’s own DMs are the drum roll. Every “price?” buzz pushes a ₹1.5 lakh phone closer to a kadhai of boiling oil, until a hand grabs it at the last moment. That phone is her whole shop, living inside one Instagram account. The fix: her own free website.

Director’s note: Cut the first 3 seconds to the buzzes, not the music. Every cut must show the phone closer than the one before. The grab is at real speed; slow motion looks fake.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 0.5	Shot 1A, its first 0.5 s	₹1.5 lakh. (big, marigold)	oil crackling
0.5 to 3.0	8 cuts of 0.3 s, alternating Shot 1B and Shot 1A. Take each piece from later in its clip, so the phone is closer on every cut	One chat bubble pops in per cut: “price?” “M hai?” “PP” “COD?” “link?” “price??” “last price?” “hello??” and a counter in the corner: 12 to 19	a buzz on every cut, speeding up like a drum roll
3.0 to 3.4	Shot 2, its 0 to 0.4 s: the phone tips, the hand grabs it	(none)	buzzing stops dead, one deep “whoomp”
3.4 to 5.0	Shot 3, any 1.6 s: the phone safe in her hand	Tumhari पूरी दुकान is account mein hai.	silence, faint oil
5.0 to 6.5	Navy card	Account gaya, toh दुकान गया. (“दुकान गया” in marigold)	bass hit
6.5 to 8.0	R2 at 4x speed in the phone frame, snap zoom on the shop name box	Apni website. Step 1: naam.	keyboard clicks
8.0 to 10.0	R2 at 4x, three product photos appear	Step 2: 3 products.	pop, pop, pop
10.0 to 12.0	R2, snap zoom on Publish, tap	Step 3: publish. Bas.	click, then ding
12.0 to 14.0	R3: cart, then checkout with COD and UPI	Cart. COD. UPI seedha tumhare UPI ID pe.	whoosh
14.0 to 16.0	Navy card, “₹0” rolling down from ₹999	Humara cut: ₹0. (₹0 in mint green)	cash “ting”
16.0 to 18.0	End card	Comment STORE.	sonic logo

Music: none for the first 5 seconds, the buzzes are the beat. From 6.5 s, a hard-hitting desi hip-hop beat from Instagram’s library (search “desi hip hop beat”).

Shot 1A · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Night at a busy Indian street pakoda stall. In the left half of the frame, a large black iron kadhai full of boiling oil, golden pakodas bubbling, steam rising into the light of one warm bare bulb above. On the right, on a scratched, slightly oily steel counter, a top-end smartphone in a premium matte black case lies flat, screen up and lit with a notification banner (no readable text), about 15 cm from the kadhai's rim.
CAMERA: side view at counter height, 28 mm lens look, the phone and the kadhai rim both sharp, the street behind dark and blurred with a few soft bokeh lights.
LIGHT: warm 2700 K bulb from above-left, bright highlights on the oil, deep shadows around.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 1A · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked on a tripod, no movement at all.
ACTION: the phone vibrates with incoming messages. Every vibration makes it jump and slide about 1.5 cm toward the kadhai, turning a few degrees, the way a vibrating phone does. The buzzes come faster and faster: slow from 0 to 3 s, quicker from 3 to 7 s, rapid from 7 to 10 s. At 10 s the phone's edge touches the kadhai's rim but does not fall in. The oil keeps bubbling and steam drifts across the bulb light.
SOUND: loud oil crackling throughout, a sharp phone buzz on every jump.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no cinematic grading, no CGI sheen.
AVOID: hands, faces, the phone falling in, readable text or logos, purple or neon, background music, cross-fades.

Shot 1B · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Night at an Indian street pakoda stall, seen from directly above. On the left, a large black iron kadhai of boiling oil with golden pakodas bubbling and steam rising. On the right, on a scratched, slightly oily steel counter, a top-end smartphone in a premium matte black case lies screen up, lit with a notification banner (no readable text), about 15 cm from the kadhai's rim.
CAMERA: straight down from about 60 cm above, 24 mm lens look, everything sharp.
LIGHT: one warm bare bulb from the top-left, glowing highlights on the oil, dark edges.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 1B • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, straight down, no movement.
ACTION: the phone vibrates with incoming messages. Every vibration makes it jump and slide about 1.5 cm toward the kadhai, turning slightly. The buzzes get faster: slow at first, rapid by the end. At 10 s its corner reaches the kadhai's rim but it does not fall in. The oil bubbles and steam drifts the whole time.
SOUND: loud oil crackling, a sharp buzz on every jump.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: hands, faces, the phone falling in, readable text or logos, purple or neon, background music, cross-fades.

Shot 2 • First frame (image prompt • Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Night at an Indian street pakoda stall, close side view at counter height: a smartphone in a premium matte black case balanced on the rim of a large black kadhai of boiling oil, one third of it hanging over the oil, starting to tip. Golden pakodas bubbling below, steam rising, one warm bare bulb above.
CAMERA: 35 mm lens look, focus on the phone and the rim, background dark and blurred.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, hands, readable text, logos, purple, neon.

Shot 2 • Motion (video prompt • Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed, no slow motion.
CAMERA: locked at counter height.
ACTION: 0 to 0.4 s: the phone tips off the rim toward the oil. At 0.4 s a woman's hand shoots in from the right and snatches it in mid-air, a few centimetres above the oil. The hand: adult Indian woman, medium-brown skin, short nude-beige nails, a slightly frayed red-and-yellow kalava thread on the wrist, the sleeve of a mustard-yellow cotton kurta with cream piping. The kalava faces the camera as her fingers close. 0.8 to 10 s: she pulls the phone away and holds it safely, the oil still bubbling behind.
SOUND: oil crackling. The buzzing stops the instant the phone tips. One deep, low "whoomp" on the grab.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: slow motion, any face, extra or fused fingers, the hand touching the oil, the phone falling in, readable text or logos, purple or neon, background music.

Shot 3 • First frame (image prompt • Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. First-person view looking down at a woman's hand holding a smartphone in a matte black case, safe, at a night pakoda stall. The phone fills 60% of the frame. Its screen shows a blurred grid of colourful kurti product photos, like a shop's profile page, nothing readable. The hand: adult Indian woman, medium-brown skin, short nude-beige nails, a red-and-yellow kalava thread on the wrist, a mustard-yellow kurta sleeve with cream piping. Behind, out of focus: the kadhai, steam and one warm bulb.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: faces, readable text, logos, app names, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: handheld first-person view with a very slight natural sway, a slow 5% push-in toward the phone over the full 10 seconds.
ACTION: the hand holds the phone still. Steam drifts slowly past in the background.
SOUND: near silence, a faint oil crackle far away.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: faces, readable text or logos, extra fingers, purple or neon, background music.

Post 3: “Followers zyada, orders kam. Kyun?” (Dukaan Doctor, Ep 01)

Carousel · 7 slides · 4:5 (1080x1350) · Week 1, Tuesday · Pin this post

The idea: The most saveable post on the page. The cover says the whole problem without explaining it: a heap of likes weighs less than three parcels. Slides 3 to 5 each give a free check she can do with a notebook. The app only shows up on slide 6, and even there we say a notebook works too. Being useful first is what earns the save.

Slide 1 (image prompt)

Photorealistic still life, 4:5 portrait, 1080x1350.

SCENE: a traditional Indian brass hand-weighing scale (taraazu) standing on a warm wooden desk. The left pan is piled high with a big heap of small red paper hearts and is lifted high. The right pan holds only three small brown kraft-paper parcels tied with jute string and hangs low, because the parcels are heavier. Four or five paper hearts are falling through the air, sharp.

CAMERA: straight-on at desk height, slightly above, 85 mm lens look, the scale sharp, the background soft.

LIGHT: soft morning window light from the left, warm, gentle shadows on a cream plaster wall about 1 m behind.

TEXT: the top third of the image is plain cream wall. Write there, centred, in a heavy bold sans-serif (like Inter ExtraBold), dark navy #101828:

"Followers zyada. Orders kam."

Next line, same size, marigold #F5A623:

"Kyun?"

Below, smaller, grey: "Swipe. Answer slide 3 pe hai."

Bottom-left corner, very small grey text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ruled lines like a ledger page, and one thin marigold (#F5A623) vertical margin line about 120 px from the left edge.

TEXT, left aligned just right of the margin, dark navy #101828:

Headline, heavy bold sans-serif (like Inter ExtraBold): "Likes se kiraya nahi bharta."

A hand-drawn marigold highlighter stroke at 70% opacity behind "kiraya nahi bharta" only.

Body, medium sans-serif, smaller: "Landlord UPI pe heart accept nahi karta. Maine try kiya hai."

Near the bottom, small grey: "(Joke. Please don't pay rent in hearts.)"

Top-right corner, small grey monospace: "2/7"

AVOID: emoji, purple, gradients, icons, any other text. Spell every word exactly.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small grey monospace capitals: "NUMBER 1 OF 3"

2. A simple thin-line icon of a cardboard box in deep indigo #1E3A8A.

3. Headline, heavy bold sans-serif: "Kaunsa maal khatam hone wala hai."

4. One line, medium sans-serif, grey-navy: "Bestseller khatam hone ke baad pata chalta hai ki bestseller tha."

5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font, three lines:

"Stock left ÷ roz kitna bikta hai = kitne din chalega."

"Supplier ke din + 3 se kam? Aaj order karo."

"Example: $12 \div 2 = 6$ din. Supplier $4 + 3 = 7$. $6 < 7$: aaj order."

Top-right corner, small grey monospace: "3/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word and number exactly.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small grey monospace capitals: "NUMBER 2 OF 3"
 2. A simple thin-line icon of a person with a curved return arrow, in deep indigo #1E3A8A.
 3. Headline, heavy bold sans-serif: "Kaun wapas nahi aaya."
 4. One line, medium sans-serif, grey-navy: "Purana customer naya follower dhoondhne se sasta hai. Usse tum pe bharosa pehle se hai."
 5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font: "Last 60 din mein 1 baar kharida, phir 45 din se kuch nahi? Ye list banao."
- Top-right corner, small grey monospace: "4/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

LAYOUT, left aligned, dark navy #101828:

1. Small grey monospace capitals: "NUMBER 3 OF 3"
 2. Three simple thin-line icons in a row in deep indigo #1E3A8A: a rupee sign, a not-equal sign, a heart.
 3. Headline, heavy bold sans-serif: "Kya bikta hai vs kya bas like hota hai."
 4. One line, medium sans-serif, grey-navy: "Viral reel wala product? Ho sakta hai 2 hi bike."
 5. A light beige (#EFECE3) box with rounded corners. Inside, a bold title "Check it free:" and below it, in a monospace font: "Har product: is mahine kitne bike x margin. Likes ignore karo."
- Top-right corner, small grey monospace: "5/7"

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 6 (image prompt · Attach: `app-sales-top.png`)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

TOP HALF, left aligned:

Big bold monospace text in marigold #F5A623: "10 minute. Har Monday."
Below, bold sans-serif, off-white #F7F5EF: "Teen numbers. Ek notebook bhi chalega."
Below, medium sans-serif, light blue #A9C1F5: "Ya One Tap Manager teeno ek screen pe dikha deta hai, free."

BOTTOM HALF, centred: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at the phone's top-left corner, grey monospace capitals: "SAMPLE SHOP DATA"

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 7 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "DUKAAN DOCTOR · EP 01"

UPPER CENTRE: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold (#F5A623) ring.

BELOW, centred, heavy bold sans-serif, dark navy #101828: "Save karo. Monday ko kaam aayega." with a marigold highlighter stroke behind the word "Monday" only.

Next line, medium sans-serif: "Next Tuesday: agla dukaan problem."

Below, small grey text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

10k followers and 3 orders is not a reach problem. It's a numbers problem.

Every Monday, check three numbers:

1. What's about to run out.
2. Which customers stopped coming back.
3. What actually sells, not what gets likes.

Ten minutes and a notebook is enough. Slides 3 to 5 show you how.

Save this for Monday. Send it to the friend who's "going viral" but still asking where the orders are.

Pinned comment: “Monday ko pehle kaunsa number check karoge? 1, 2 ya 3?”

Post 4: “Dadaji ko drop se darr nahi lagta”

Reel · 18 seconds · 9:16 · Week 2, Monday · Comment word: DEMO

Needs: your screen recording R1b (sales analytics).

The idea: On the scariest ride at the mela, everyone screams except Dadaji, who eats peanuts all the way down. He isn't scared because he watched the ride climb and knew exactly when the drop was coming. Then the question to the seller: do you know when your sales dropped? The app catches the drop, explains it and says what to do.

Director’s note: Dadaji is the hero, never the joke. Everything around him is chaos; he is perfectly still. The cuts in the first 3 seconds are fast (0.4 s each), so his calm stands out.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 0.4	Shot 1, its 0 to 0.4 s: his hands on the yellow bar	Dadaji.	ride machinery clanking
0.4 to 0.8	Shot 2, its 2 to 2.4 s: chappals dangling high above the mela	(none)	wind
0.8 to 1.2	Shot 3, its 2 to 2.4 s: wide, seats climbing to the top	Top pe ja rahe hain.	click, click, click
1.2 to 1.6	Shot 1, its 4 to 4.4 s: at the top, he calmly takes a peanut	(none)	silence, one peanut crunch
1.6 to 2.4	Shot 3, its 5 to 5.8 s: the drop	(none)	the music drops, huge whoosh, screams
2.4 to 3.2	Shot 4, its 0 to 0.8 s: hands perfectly calm, one more peanut	Darr: 0%. (mint green)	screams fade, a clean “pop”
3.2 to 5.0	Shot 4, its 2 to 3.8 s: he offers the peanut cone to the camera	Kyunki unhe pata tha drop aane wala hai.	a warm, calm chuckle
5.0 to 6.5	Navy card + “SAMPLE SHOP DATA” tag	Tumhari sales 10.6% giri. Tumhe pata tha? (“Tumhe pata tha?” in marigold)	bass hit, falling whistle
6.5 to 8.5	R1b, snap zoom on “you made 10.6% less money last month”	Drop: pakda gaya.	ding
8.5 to 10.5	R1b, snap zoom on “Check which items sold less last month”	Kyun gira: bata diya.	whoosh
10.5 to 12.5	R1b, snap zoom on “Lock supplier orders for Handloom Saree”	Kya karna hai: likh diya.	click
12.5 to 14.5	R1b, snap zoom on “Next 30 days: +8.2%”	Agla mahina: upar. and small below: “Forecast, not a promise.”	rising whoosh
14.5 to 16.0	Navy card	1 sales file. 2 minute.	tick
16.0 to 18.0	End card	Dadaji jaisa dil rakho. Comment DEMO.	sonic logo

Music: a high-energy EDM riser from Instagram’s library, placed so its drop lands exactly on the plunge at 1.6 s. After 6.5 s, a light desi lo-fi beat (search “EDM drop”, then “desi lofi”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up of an elderly Indian man's hands on the yellow padded safety bar of a drop-tower ride seat, high in the air. Wrinkled brown hands, a steel wristwatch with a metal strap on the left wrist, the sleeves of a white cotton kurta. His right hand holds a small paper cone of roasted peanuts. Behind: bright blue afternoon sky and, far below, the blurred colours of a big Indian fair (mela).
CAMERA: close, slightly below the hands looking up, 35 mm lens look.
LIGHT: bright afternoon sun from the side, natural.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text, logos, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: fixed to the ride seat, moving up with it, a slight mechanical vibration.
ACTION: 0 to 4 s: the seat climbs steadily; the sky slides down behind the hands and the fair drops away below. The hands grip the bar calmly. At 4 s the seat stops at the very top with a clunk. 4 to 5 s: his right hand calmly takes one peanut from the paper cone and lifts it out of frame toward his mouth. 5 to 10 s: stillness at the top, the wind moving the kurta sleeve, the hands relaxed on the bar.
SOUND: ride machinery clanking and slow mechanical clicks while climbing, wind at the top, one peanut crunch.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text or logos, purple or neon, background music, cross-fades.

Shot 2 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Looking down past an elderly man's feet dangling from a drop-tower ride seat high above an Indian fair: bare ankles, the hem of a white kurta, well-worn brown leather chappals, one slipping half off the heel. Far below: tiny stalls, a giant wheel and crowds, colourful and blurred.
CAMERA: from seat height pointing down past the feet, 24 mm lens look, a strong sense of height.
LIGHT: bright afternoon sun.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: any face, readable text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: fixed to the seat, looking down, slight vibration.
ACTION: the feet swing gently in the wind while the seat keeps rising and the fair shrinks below. The loose chappal slips a little further off the heel; his toes curl to hold it.
SOUND: wind, slow mechanical clicks of the ride climbing.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: any face, the chappal falling, readable text or logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A tall drop-tower ride at a big Indian fair on a sunny afternoon, seen from the ground about 40 m away. A ring of seats with riders is two-thirds of the way up the tower, against a clear blue sky. At the bottom: stalls, balloons and a crowd, all seen from behind.
CAMERA: low angle from inside the crowd, 28 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: visible faces, readable text, logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: handheld from the crowd, slight natural shake, tilting to follow the seats.
ACTION: 0 to 4 s: the seats climb the last metres to the top. 4 to 5 s: they pause at the top. At 5 s the whole ring of seats drops at full speed, the riders' legs flying up. They brake hard near the bottom at about 6.5 s. 6.5 to 10 s: the seats settle at the bottom and the crowd cheers.
SOUND: slow mechanical clicks, a huge whoosh on the drop, riders screaming, crowd noise.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: close-up faces, readable text or logos, purple or neon, background music, cross-fades, anyone getting hurt.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up of an elderly Indian man's wrinkled brown hands resting on the yellow padded safety bar of a ride seat at the bottom of a drop tower. A steel wristwatch on the left wrist, white cotton kurta sleeves. His right hand calmly holds a small paper cone of roasted peanuts, perfectly steady. Behind, out of focus: the base of the ride, other riders' legs, the bright fair.
CAMERA: close, at hand height, 50 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: steady, a slight handheld feel.
ACTION: 0 to 1 s: his right hand calmly takes one more peanut from the cone and lifts it out of frame. 2 to 4 s: he holds the paper cone out toward the camera, offering it, steady and relaxed. 4 to 10 s: the cone stays offered; a peanut rolls slightly inside it.
SOUND: the other riders' screams fading, a soft peanut crunch, a warm, calm old man's chuckle.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: any face or head, extra or fused fingers, readable text or logos, purple or neon, background music.

Caption

Dadaji wasn't scared of the drop. He watched the ride climb, so he knew exactly when it was coming.

Most sellers find out their sales fell weeks later, when the rent is due.

Upload one sales file (or try the sample data) and One Tap Manager shows you how much you're down, which items caused it, and what to do this week. Not 47 charts. Three things.

Dadaji and the ride are AI generated. The app is real, with sample shop data.

Comment DEMO and I'll send you the link to try it.

Pinned comment: “Sales gira, ye aapko kab pata chala tha? Usi hafte, agle mahine, ya CA ne bataya?”

Post 5: “Car feed se nikal gayi” (Free Template Friday)

Reel · 18 seconds · 9:16 · Week 2, Friday · Comment word: WINBACK

Needs: your screen recording R5 (win-back).

The idea: A car drifting inside a post slides right out of the post, across the feed and off the screen, leaving an empty parking lot. That is how customers leave: quietly, and nobody tells you. Then the app shows who went quiet, with the message and coupon already written.

Director’s note: The trick only works if the car’s edge is clean and it casts a soft shadow as it crosses the feed. Spend your time on the cut-out, not on effects. The camera never moves; only the car breaks the rules.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	The feed frame, with Shot 1 playing inside the post: the car drifting in circles	Ye car dhyan se dekho. (above the post)	tyre screech, engine
1.0 to 2.5	The cut-out car slides past the post’s border and over the caption lines, smoke spilling out	Ruko...	screech gets louder
2.5 to 4.0	The car crosses the next post and leaves off the right edge. The post now shows an empty lot	Gayi. (big)	engine fades away, then silence
4.0 to 5.0	Snap zoom into the empty lot inside the post	Customers bhi aise hi chale jaate hain.	one low piano note
5.0 to 6.5	Navy card	Chup chaap. Tumhe pata bhi nahi chalta. (“pata bhi nahi chalta” in marigold)	bass hit
6.5 to 8.5	R5, snap zoom on “60 customers have gone quiet” + “SAMPLE SHOP DATA” tag	Kaun gaya: list ready.	ding
8.5 to 10.5	R5, snap zoom on one sample customer row (item, last order date)	Kya liya tha, kab gaya: pata hai.	whoosh
10.5 to 12.5	R5, tap “Review & send”: the message and coupon code are visible	Message likha hua. Coupon ready.	click
12.5 to 14.5	R5, snap zoom on the tap-to-send button	Tum check karo, tap karke bhejo.	tick
14.5 to 16.0	Paper card (off-white background, dark text)	Wapas laao. Ad ka kharcha: ₹0. (₹0 in mint green)	cash “ting”
16.0 to 18.0	End card	Comment WINBACK: free message templates.	sonic logo

Music: the engine and tyre screech carry the hook. Cut to silence when the car leaves. From 6.5 s, a smooth phonk or bass beat from Instagram’s library (search “drift phonk”).

The feed frame (image prompt)

Flat user-interface mockup, 9:16 vertical, 1080x1920. Our own simple design: not Instagram's interface and no Instagram logo. BACKGROUND: warm off-white #F7F5EF. ABOUT 15% FROM THE TOP: a small grey circle avatar and, next to it, the handle "@yourshop" in a clean medium sans-serif, dark navy #101828. BELOW IT: one large post card with rounded corners (about 24 px radius) and a thin light-beige border, full width minus small side margins, almost square. Its whole image area is filled with solid bright chroma green #00B140. UNDER THE CARD: three simple outline icons in dark navy, thin 2 px lines: a heart, a speech bubble, a paper plane. Then two short grey placeholder bars where a caption would be. AT THE BOTTOM: the top edge of a second identical post card peeking in, its image area plain light grey. AVOID: real app logos, Instagram's exact icons or layout, emoji, purple, any other text.

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Top-down drone view of a black sports car drifting in a wide circle on an empty grey asphalt parking lot, thick white tyre smoke curling behind it, painted white parking lines, late-afternoon light with long shadows. CAMERA: straight down from about 25 m, the car in the centre, sharp. STYLE: looks like real drone footage, natural exposure, true-to-life colours, no CGI sheen. AVOID: people, faces, readable number plates, logos, text, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.

CAMERA: locked straight down, like a drone hovering perfectly still.

ACTION: 0 to 5 s: the car drifts in two tight, fast circles in the centre of the lot, tyres smoking. 5 to 6 s: it straightens and drifts sideways out of the frame to the right. 6 to 10 s: the empty lot, the smoke slowly clearing.

SOUND: engine roar and tyre screech, fading to silence after the car leaves.

STYLE: looks like real drone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.

AVOID: people, faces, number plates, logos, text, purple or neon, background music, cross-fades.

Build the illusion in CapCut

1. Bottom layer: the feed frame image, for the full 5 seconds.
2. Add Shot 1 on top, mask it with a rounded rectangle to fit exactly over the green area of the post. From 0 to 1.0 s it plays normally (car circling). From 1.0 s, jump this layer to Shot 1's 6.5 s onward, so the post shows the empty lot, and freeze it.
3. Add Shot 1 again on a new layer, starting at 1.0 s, and use **Remove background** (Cutout) so only the car and its smoke remain. No mask on this layer.
4. Keyframe the cut-out car's position: at 1.0 s exactly over its place in the post; at 1.8 s crossing the post's right border; at 3.2 s over the second post; at 4.0 s off the right edge of the screen.
5. Add a soft dark shadow under the cut-out car (about 25% opacity, blurred) so it looks like it is driving on top of the feed.

Caption

Customers don't leave with a goodbye. They just stop showing up in your orders.

The cheapest sale in your shop is someone who bought once and drifted. They trust you. They know your sizes.

One Tap Manager finds who went quiet, writes the message, and gives you a tap-to-send WhatsApp link. Then it counts who came back.

The drifting car is AI generated. The app is real, with sample shop data.
Comment WINBACK and I'll DM you 3 ready messages in Hindi and English. Free.

Pinned comment: "Guess karo: tumhare kitne purane customers 45 din se gayab hain? 0 to 10, 10 to 50, ya 50+?"

Post 6: “Stool, lights aur ₹25 lakh ki gaadi”

Reel · 18 seconds · 9:16 · Week 2, Thursday · Comment word: WEEK

Needs: your screen recording R6 (plan a week of Instagram).

The idea: A man on a wobbly plastic stool hangs Diwali lights on his balcony. Right below: a brand-new ₹25 lakh SUV with a garland on the bonnet. The stool gives way, the frame freezes, a red circle goes around the car, and everyone expects the worst. Then the lights swing down and stop a finger’s width above the roof. The house is ready for Diwali. Is your Instagram?

Director’s note: The freeze is the joke, and it only works if the viewer has already guessed the disaster. By second 2 they must have seen three things clearly: the flimsy stool, the cat watching, the new car below. Then freeze, red circle, record scratch, total silence.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: wide from the parking, balcony above, new SUV below	Neeche ₹25 lakh ki nayi gaadi. (“₹25 lakh” in marigold)	distant crackers, plastic creaking
1.0 to 1.35	Shot 2, its 1.0 to 1.35 s: the stool legs bowing	Stool ki condition dekho. (stays until 2.0 s)	creak, a dhol build starts
1.35 to 1.7	Shot 1, its 1.35 to 1.7 s, zoomed 200% onto the cat on the railing		creak
1.7 to 2.0	Shot 2, its 2.6 to 2.9 s: the legs bending further		creak, dhol speeding up
2.0 to 2.5	Freeze on Shot 1’s frame at 2.0 s (the stool tilting). A red hand-drawn circle draws itself around the SUV	Haan. Wahi hone wala hai.	record scratch, then total silence
2.5 to 3.5	Shot 3, its 0 to 1 s: the lights slip over the railing and swing down, stopping just above the roof	(none)	soft rustle, a magical shimmer
3.5 to 5.0	Shot 3, its 3 to 4.5 s: the lights glowing just above the roof, the cat calm	Ghar ki Diwali: ready.	the dhol drops back in
5.0 to 6.5	Navy card	Instagram ki Diwali? (marigold)	bass hit
6.5 to 8.5	R6, tap “Plan this week”, snap zoom + “SAMPLE SHOP DATA” tag	Ek tap.	click, whoosh
8.5 to 10.5	R6, the calendar fills day by day	Poora hafta: planned.	pop, pop, pop
10.5 to 12.5	R6, snap zoom on the caption “Which one are you wearing for Navratri?” and its hashtags	Caption aur hashtags bhi.	ding
12.5 to 14.5	R6, the festival campaigns, tap “Plan it: one tap”	Navratri, Diwali: ready.	click
14.5 to 16.0	Navy card	Tum bas approve karo.	tick
16.0 to 18.0	End card	Comment WEEK: free Diwali posting plan.	sonic logo

Music: a dhol build from Instagram’s library, a record scratch into silence on the freeze, then a festive beat (search “dhol build up”, then “Diwali”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Evening at Diwali time in an Indian housing society, seen from the parking lot looking up. On a first-floor balcony, a man seen only from behind (white vest, checked lungi) stands on a small, flimsy plastic stool with his back to the camera, stretching up to hang a string of warm-white fairy lights along the top of the balcony wall. The string drapes loosely over the balcony railing. A ginger cat sits on the railing a little to the side, watching him. Directly below the balcony, in the parking, a brand-new shiny white SUV with a fresh marigold garland on its bonnet. Distant fireworks in a dusky blue sky; warm light from the flat's open door. CAMERA: from the parking, low, 28 mm lens look. The balcony in the top half, the SUV filling the bottom third. LIGHT: blue-hour sky, warm tungsten light from the flat, the fairy lights glowing. STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen. AVOID: any face or profile, a readable number plate, logos, text, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed. CAMERA: locked on a tripod in the parking, no movement. ACTION: 0 to 2 s: he stretches higher; the stool wobbles and its legs bow outward; the cat turns its head to watch. At 2 s the stool tilts sharply to one side under him. 2 to 4 s: he steps down safely and disappears behind the balcony wall. 4 to 10 s: the balcony is still, the lights glowing, the cat calm, fireworks in the distance. SOUND: distant crackers, plastic creaking louder and louder, one sharp plastic crack at 2 s. STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen. AVOID: any face or profile, anyone falling off the balcony or getting hurt, a readable number plate, logos, text, purple or neon, background music.

Shot 2 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up at floor level on an Indian flat's balcony in the evening: the four legs of a cheap plastic stool bowing outward under a man's weight. Only his bare feet and the hem of a checked lungi are visible on the seat. White stress marks are forming in the plastic where the legs bend. Warm light from the flat's doorway; a string of fairy lights glowing, blurred, in the background.
CAMERA: at floor level, 35 mm lens look, the stool legs sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: any face, text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked at floor level.
ACTION: 0 to 3 s: with each small shift of his weight the legs bow further outward, the plastic whitening at the bends. At 3 s one leg buckles sideways and the stool tilts. 3 to 10 s: the empty stool lies on its side; he has stepped off, out of frame.
SOUND: creaking plastic, rising, then a sharp crack.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: any face, anyone falling or getting hurt, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Evening at Diwali time, the parking of an Indian housing society. The roof and bonnet of a brand-new shiny white SUV with a marigold garland fill the lower half of the frame. Above it, a first-floor balcony railing with a string of warm-white fairy lights hanging over it. A ginger cat sits calmly on the railing. Distant fireworks in a dusky blue sky.
CAMERA: at car-roof height, looking slightly up, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, a readable number plate, logos, text, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, no movement.
ACTION: 0 to 1 s: the string of lights slips off the railing and swings down toward the car. At 1 s it stops with the last glowing bulbs a few centimetres above the SUV's roof, never touching it. 1 to 10 s: the lights sway gently just above the roof, still glowing; the cat on the railing stays perfectly calm; a firework bursts far behind.
SOUND: a soft rustle, a light magical shimmer, distant crackers.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: the lights touching or damaging the car, people, faces, a readable number plate, logos, text, purple or neon, background music.

Caption

The house is lit. The car survived. The stool did not.

Now the real festive question: is your Instagram ready for Navratri and Diwali, or will you be writing captions at 11:58 pm again?

One Tap Manager plans your whole week of Instagram in one tap: posts, captions, hashtags and times, plus festival campaigns. You approve, and it posts.

The stool scene is AI generated. The app is real, with sample shop data.

Comment WEEK and I'll DM you a free 7-day festive posting plan.

Pinned comment: “Diwali ke posts ready hain? Haan, nahi, ya ‘kal pakka’?”

Post 7: “Warning”

Carousel · 4 slides · 4:5 (1080x1350) · Week 3, Friday

The idea: A fake content warning stops the scroll because nobody can resist “See anyway”. The joke is that the “sensitive content” is a comforting truth: you don’t need a team, you need a team’s work. Slide 2 should feel like breathing out.

Make Slide 2 first. Slide 1 uses it as its blurred background.

Slide 2 (image prompt · Attach: your khata photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: a small, tidy Indian home boutique desk in morning light. A neat stack of folded cotton kurtis in dusty rose, sage green and indigo block print; a bottle-green velvet tray with oxidised-silver jhumkas; two small cut-glass attar bottles with gold caps; a few kraft-paper mailer bags; a red cloth-bound khata ledger; a cutting-chai glass. A cream plaster wall behind with the soft shadow of an iron window grill.

CAMERA: from standing height, 30 degrees down, 28 mm lens look.

LIGHT: soft window light from the left, calm and warm.

TEXT: the top 30% of the image is clean wall. Write there, left aligned, in a heavy bold sans-serif (like Inter ExtraBold), dark navy #101828:

"Team nahi chahiye."

Next line, same style, with a marigold (#F5A623) highlighter stroke behind it:

"Team ka kaam chahiye."

Bottom-left corner, very small grey text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, logos, extra text, misspellings.

Slide 1 (image prompt · Attach: your finished Slide 2)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: use the attached photo, remove all its text, and blur it very heavily so nothing is recognisable. Cover it with a dark navy #111827 layer at 60% opacity.

CENTRE, stacked with generous spacing:

1. A simple thin off-white line icon of an eye with a slash through it.

2. Bold sans-serif, off-white #F7F5EF: "Warning."

3. Medium sans-serif, light blue #A9C1F5, centred, maximum 4 lines: "Ye post un logon ko hurt kar sakti hai jo sochte hain grow karne ke liye 10 logon ki team chahiye."

4. A rectangular button with softly rounded corners (not pill-shaped), a thin off-white border, and inside it: "See anyway →"

This is our own design, not a copy of Instagram's sensitive-content screen.

AVOID: Instagram's logo or its exact warning layout, emoji, purple, any other text.

Slide 3 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

TOP: a small label in grey monospace capitals: "WHAT A TEAM ACTUALLY DOES"

BELOW: a checklist of four rows, left aligned. Each row has a mint green (#34D399) tick, then bold off-white #F7F5EF sans-serif text:

"1. Numbers padhna."

"2. Purane customers ko bulana."

"3. Roz post karna."

"4. Time pe maal mangwana."

STYLE: calm, lots of space between rows.

AVOID: emoji, purple, gradients, photos, any other text. Spell every word exactly.

Slide 4 (image prompt · Attach: app-today.png)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

UPPER 60%, centred: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at its top-left corner, grey monospace capitals: "SAMPLE SHOP DATA"

BELOW, left aligned:

Heavy bold sans-serif, off-white #F7F5EF: "Bas yahi. Poori app yahi hai."

Medium sans-serif, light blue #A9C1F5: "Ek insaan. Lunch se pehle."

Small grey monospace: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Caption

"Jab team hogi tab grow karenge." We hear this every day.

Big brands aren't winning on product. Your kurta is probably better.
They win because someone does four boring jobs every single day.

You don't need to hire that team. You need those four jobs done. That's the whole app.

Tag the friend who says "bas ek team mil jaaye, phir dekhna."

Pinned comment: "In 4 mein se kaunsa kaam tumse roz chhoot jaata hai?"

Post 8: “Bestseller khatam” (Dukaan Doctor, Ep 02)

Reel · 18 seconds · 9:16 · Week 2, Tuesday · Comment word: STOCK

Needs: your screen recording R7 (reorder alert and purchase order).

The idea: The seller carries a tower of Banarasi saree boxes down the stairs and can’t see the last step. She misses it. In slow motion, silk sarees unfold through the window light like ribbons, and the last empty box bonks her on the head. You can’t see the last step coming. You can’t see the last piece of your bestseller coming either. The app can.

Director’s note: This is the one slow-motion reel on the page, so let the silk breathe. The bonk at real speed right after it gives people permission to laugh. She is always seen from behind or from the shoulders down: pencil in the bun, mustard kurta.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 3 to 4 s: from behind, the box tower above her head, the last steps below	₹3 lakh ki Banarasi sarees. (“₹3 lakh” in marigold)	bare footsteps, cardboard creaking
1.0 to 2.0	Shot 2, its 2 to 3 s: her bare foot feeling for the step	Aakhri step dikh raha hai? Usko nahi.	two low cello notes, or a slow heartbeat
2.0 to 3.5	Shot 3, its 0 to 1.5 s, slow motion: the foot misses, the tower tilts, silk floats	(none)	everything slowed, a deep boom, a dramatic violin swell
3.5 to 4.0	Shot 4, its 0 to 0.5 s: she lands safely; the last box bonks her head	(none)	a comic “bonk”
4.0 to 5.0	Shot 5, any 1 s: top-down, silk spread across the floor	Aakhri step dikhta nahi.	one dhol hit
5.0 to 6.5	Navy card	Stock ka aakhri piece bhi nahi. (marigold)	bass hit
6.5 to 8.5	R7, snap zoom on the “Time to buy more” alert + “SAMPLE SHOP DATA” tag	App pehle hi bata deta hai.	ding
8.5 to 10.5	R7, snap zoom on “3.2 days”	3.2 din ka stock bacha.	bass hit
10.5 to 12.5	R7, snap zoom on “Your supplier takes 5 days”	Supplier ko 5 din lagte hain.	whoosh
12.5 to 14.5	R7, tap “Draft the purchase order”, snap zoom on ₹2,700	Order form: pehle se bhara. and small below: “Free during launch”	click, then ding
14.5 to 16.0	Navy card	Bestseller khatam? Ab nahi.	cash “ting”
16.0 to 18.0	End card	Comment STOCK: free reorder cheat sheet.	sonic logo

Music: a two-note suspense cello or a heartbeat for the build (search “suspense cello”), a slowed dramatic violin during the float (search “dramatic violin”), then a dhol hit into a festive beat. Use Instagram’s library only, never a film theme.

Shot 1 · First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. A narrow staircase in an old Indian house, late morning. The camera is a few steps above and behind a woman who is walking down, looking down past her back. She is seen only from behind: black hair in a loose messy bun with a yellow HB pencil stuck through it, a mustard-yellow cotton kurta with cream piping, a thin gold bangle on her right wrist, a red-and-yellow kalava thread on her left wrist, bare feet. She holds a tall, wobbling tower of about 20 flat saree boxes (maroon with gold borders) in front of her, stacked higher than her head, so she cannot see her feet or the steps. Below her: the last three steps, with a bright shaft of sunlight from a small window falling across the bottom step.
CAMERA: behind and above her, 24 mm lens look.
LIGHT: the window shaft bright, everything else warm and dim, dust floating in the light.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: her face or profile, readable text or logos on the boxes, purple, neon.

Shot 1 · Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: handheld, following slowly behind and above her, a slight natural sway.
ACTION: 0 to 4 s: she comes down one step at a time, carefully; the box tower sways a little with every step. 4 to 10 s: she stops on the second-to-last step, the tower wobbling, one foot starting to reach forward.
SOUND: bare footsteps on stone, cardboard creaking.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: her face or profile, extra or fused fingers, the boxes falling yet, text or logos, purple or neon, background music.

Shot 2 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Close-up at step level on an old stone staircase: a woman's bare foot (medium-brown skin) hovering in the air, toes stretched, feeling for the next step. Above it, the hem of a mustard-yellow kurta. A bright shaft of sunlight falls across the step below, dust floating in it.
CAMERA: low, at the height of the step, 50 mm lens look, the foot sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: any face, text, logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, very slow push-in.
ACTION: the foot slowly feels forward for the step, toes stretching, hovering over the edge, unsure. It never quite finds the step.
SOUND: a slow heartbeat, very quiet room tone.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: any face, extra toes, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Side view at the height of the last stair in an old Indian house. A woman seen only from the shoulders down (mustard-yellow kurta with cream piping, a thin gold bangle, a red-and-yellow kalava thread) is stepping off the second-to-last step, her foot reaching into empty air past the last step. The tall tower of maroon-and-gold saree boxes in her arms is starting to tilt forward, away from her. A bright shaft of sunlight from a window crosses the frame, dust floating in it. A soft woven rug on the floor below.
CAMERA: side on, at step height, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: her face or head, text, logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
SLOW MOTION, as if filmed at 240 fps, for the whole clip.
CAMERA: locked, side on.
ACTION: 0 to 6 s: her foot misses the last step and she steps safely down onto the rug; the box tower tilts forward away from her; the lids come off and shimmering silk Banarasi sarees in red, gold, magenta and emerald green unfold out of the boxes and float through the shaft of sunlight like long ribbons, gold borders glinting. 6 to 10 s: the silks drift slowly down to the floor.
SOUND: everything slowed down: a deep, stretched boom, one long dramatic violin note.
STYLE: looks like real slow-motion phone footage, not an advert. Natural exposure, true-to-life colours, no CGI sheen.
AVOID: her face or head, her falling or getting hurt, extra or fused fingers, text or logos, purple or neon, background music.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. At the bottom of an old Indian staircase, seen from behind at hip height: a woman standing safely on both feet on a woven rug. Black hair in a loose messy bun with a yellow HB pencil stuck through it, a mustard-yellow cotton kurta with cream piping. Silk sarees and open maroon-and-gold boxes lie around her feet. One empty saree box is in the air just above her head, about to land on it.
CAMERA: behind her, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: her face or profile, text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, behind her.
ACTION: 0 to 0.5 s: the light, empty box drops onto the top of her head and bounces off onto the rug. 0.5 to 2 s: she gives one tiny, resigned shrug. 2 to 10 s: she stands still among the sarees.
SOUND: a soft comic "bonk", then quiet.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: her face or profile, anyone getting hurt, text or logos, purple or neon, background music.

Shot 5 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Straight down on a floor of old red-oxide tiles: silk Banarasi sarees in red, gold, magenta and emerald green spread in beautiful, accidental folds, their gold zari borders catching a shaft of sunlight. Two open maroon-and-gold saree boxes and a loose lid at the edges of the frame.
CAMERA: directly overhead, 24 mm lens look, everything sharp.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, feet, faces, text, logos, purple, neon.

Shot 5 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: overhead, a slow 5% push-in over 10 seconds.
ACTION: one saree edge settles gently; dust drifts through the sunlight.
SOUND: quiet room tone.
STYLE: looks like real phone footage, not an advert. Natural exposure, true-to-life colours, no CGI sheen.
AVOID: people, text, logos, purple or neon, background music.

Caption

You can't see the last step when your arms are full. You can't see the last piece of your bestseller either, until a customer asks for it.

Rule of thumb: buy again when the days of stock you have left are fewer than your supplier's delivery days plus 3 spare days.

One Tap Manager does that maths for every product and fills in the purchase order. Free during launch.

The staircase scene is AI generated. The app is real, with sample shop data.
Comment STOCK for the free reorder cheat sheet, before the festive rush.

Pinned comment: "Tumhara bestseller abhi kitne din chalega? Stock ÷ roz ki sale. Answer comment karo."

Post 9: “Tumhara sona naali mein”

Reel · 18 seconds · 9:16 · Week 3, Monday · Comment word: PRICE

Needs: your screen recording R8b (pricing).

The idea: A heavy gold bridal set lies in a steel sink, its chain slowly slipping down the drain link by link. Two fingers pinch it out at the last moment. Your money leaves the same quiet way: one app subscription and one fee at a time. Then the plain maths, and our price: ₹0 or ₹999 flat, never a percentage.

Director’s note: The calmest hook on the page and the tensest. One locked shot, no cuts for 5 seconds, no music. Just water, a faint tinkle of metal, and a ticking clock. The viewer’s own nerves do the editing.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: the set in the sink	₹8 lakh ka set. (big, marigold)	running water
1.0 to 3.0	Shot 1 continues: the chain slithers into the drain	Bas... then thoda... then sa... (added word by word)	water, a metal tinkle, a ticking clock
3.0 to 3.8	Shot 1 continues: the pendant wedges, two fingers lift the set out	(none)	the ticking stops, one bright “ting”
3.8 to 5.0	Shot 1 continues: the dripping set in her palm	Paisa aise hi dheere dheere jaata hai.	bass hit
5.0 to 6.5	Navy card	App ki fees. Platform ka cut. (“Platform ka cut” in marigold)	bass hit
6.5 to 8.5	The receipt card, revealed top to bottom with a wipe	(the receipt is the text)	a pen tick on each line
8.5 to 10.0	Navy card	₹7,600 a month. Plus fees. (“₹7,600” in red-orange #C4320A)	bass hit
10.0 to 12.5	R8b, snap zoom on Max ₹999	Ek app. ₹999 flat.	ding
12.5 to 14.5	R8b, snap zoom on Free ₹0	Free plan: ₹0, forever.	whoosh
14.5 to 16.0	Navy card	Sale ka %: ₹0. Kabhi nahi. (₹0 in mint green)	cash “ting”
16.0 to 18.0	End card	Comment PRICE.	sonic logo

Music: nothing but the ticking clock under the water in the hook. From 5.0 s, a clean bass hit into a smooth R&B-style beat from Instagram’s library (search “smooth beat”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. Looking down into a clean steel kitchen sink: a heavy gold bridal necklace set with a large pendant lies near the round drain, the end of its chain draped over the drain grate. Water from the tap runs and swirls around it.
CAMERA: a locked macro shot from above at about 70 degrees, 60 mm macro lens look, focus on the chain at the drain.
LIGHT: soft window light from the side, bright highlights on the gold and the wet steel.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, hands, text, logos, purple, neon.

Shot 1 · Motion (video prompt · Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
ONE UNBROKEN TAKE: no cuts, no zoom, the camera completely still.
ACTION: 0 to 3 s: pulled by the water, the chain slithers into the drain link by link, dragging the pendant slowly across the steel toward the hole. At 3 s the pendant wedges at the hole. At 3.2 s two fingers of a woman's hand (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist) come in from the top of the frame, pinch the chain and lift the whole set out, dripping. 3.8 to 10 s: the dripping necklace rests in her open palm above the sink, the water still running.
SOUND: running water echoing in the sink, a faint metallic tinkle of the chain, a ticking clock that stops at 3 s, then one bright "ting" as the set lifts out.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: cuts, zooms, any face, extra or fused fingers, the necklace going down the drain, text, logos, purple or neon, background music.

The receipt card (image prompt)

Flat graphic, 9:16 vertical, 1080x1920. Warm off-white background #F7F5EF.
In the centre, a long paper receipt (light beige #EFECE3, slight paper texture, a zig-zag torn bottom edge), tilted by 2 degrees. Printed on it in a dark grey monospace font, item names on the left and prices on the right:
Analytics app ₹1,600
Inventory app ₹2,500
Win-back app ₹1,500
Reviews app ₹1,200
Orders app ₹800
then a dashed line, then in red-orange #C4320A:
Typical total ₹7,600
Above the receipt, a small grey monospace tag: "TYPICAL APP COSTS"
Keep the top 12% and bottom 22% of the image empty.
AVOID: emoji, purple, logos, any other text. Every word and number exactly as written.

Caption

Most tools grow their fee as you grow. You sell more, they take more. That's backwards.

A typical small-seller app stack: analytics ₹1,600, inventory ₹2,500, win-back ₹1,500, reviews ₹1,200, orders ₹800. That's ₹7,600 a month, before any fees your selling platform charges.

One Tap Manager: Free plan ₹0, forever. Max ₹999 a month, flat. Never a percentage of your sales.

Typical costs, not a quote for your shop. The necklace scene is AI generated.
Screenshot this and show your CA.

Comment PRICE and I'll send you the full comparison.

Pinned comment: "Apps aur fees pe har mahine kitna jaata hai? Andaaza likho, hum maths check karenge."

Post 10: “Wrong answers only”

Carousel · 4 slides · 4:5 (1080x1350) · Week 3, Thursday

The idea: The page’s comment magnet. A seller’s chaotic desk, styled like a detective’s crime board, with one ask: wrong answers only. Every seller recognises this desk, and the joke invites them to be funnier than us.

Make Slide 1 first. Slides 2 and 3 are built from it, so the desk matches exactly.

Slide 1 (image prompt · Attach: your khata photo)

Photorealistic top-down photo, 4:5 portrait, 1080x1350.

SCENE: a wooden desk set up like a detective's crime board, funny but realistic. Three phones with blank dark screens; an open red cloth-bound khata ledger with blue handwritten entries (not readable); about twenty yellow sticky notes with scribbles (not readable); crumpled paper receipts; a calculator; a folded dusty-rose kurta; a small tray of oxidised-silver jhumkas; a cutting-chai glass. Everything is connected by tight red strings pinned into the wood between the objects.

CAMERA: directly overhead, 35 mm lens look, everything sharp.

LIGHT: soft daylight from the top of the frame.

TEXT: the bottom 25% of the image fades into dark navy #111827. In that area, left aligned, heavy bold sans-serif, off-white #F7F5EF:

"Ye kya hai?"

Next line, in marigold #F5A623:

"Wrong answers only."

Bottom-left corner, very small grey text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, readable text on notes or screens, logos, emoji, purple.

Slide 2 (image prompt · Attach: your finished Slide 1)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: the attached desk photo with its text removed, faded under an off-white #F7F5EF layer at 80%, so it looks soft and light.

TOP: heavy bold sans-serif, dark navy #101828: "Ye hai ek normal seller ka 'system'."

Four handwritten-style notes in deep indigo #1E3A8A, like a marker pen, each with a hand-drawn arrow pointing at the right object in the photo:

"Orders: 3 WhatsApp chats" pointing at the three phones

"Stock: yaadasht" pointing at the sticky notes

"Hisaab: khata" pointing at the red ledger

"Customers: Mummy ko pata hai" pointing at the chai glass

AVOID: emoji, purple, WhatsApp logo, any other text. Spell every word exactly.

Slide 3 (image prompt · Attach: your finished Slide 1 and `app-today.png`)

Photorealistic top-down photo, 4:5 portrait, 1080x1350.

SCENE: the same wooden desk, from exactly the same camera position as the attached desk photo, now calm and almost empty. In the centre, one phone lying screen up, showing the attached app screenshot exactly as it is (do not redraw or change it). A cutting-chai glass, a small money plant in a pot, and the red khata, closed, in a corner. Everything else is gone.

TEXT at the top, on a soft, light area of the desk, heavy bold sans-serif, dark navy #101828:

"After: ek screen. Aaj ke kaam."

Below it, smaller, medium sans-serif:

"Chaos tumhari galti nahi thi. System ki kami thi."

Small tags in grey monospace capitals: "SAMPLE SHOP DATA" next to the phone, "AI GENERATED" in the bottom-left corner.

STYLE: looks like a real phone photo, fine grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, emoji, purple, any change to the screenshot.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

UPPER CENTRE: a rounded deep indigo (#1E3A8A) square logo with "IT" in off-white bold monospace, circled by one thin marigold (#F5A623) ring.

BELOW, centred, heavy bold sans-serif, dark navy #101828: "Best wrong answer ko pin karenge."

Below, small grey text: "Follow @onetapmanager"

AVOID: emoji, purple, gradients, any other text.

Caption

Slide 1 has a simple explanation. We want to hear yours first.

Wrong answers only. Best one gets pinned.

(The real answer: orders in three chats, stock in memory, money in a red notebook, customers in Mummy's head.)

The chaos was never your fault. There was just no system.

#smallbusinessindia #instagrame seller #onlinebusinessindia

Pinned comment: “Humara wrong answer: Sherlock Holmes ka work-from-home setup. Ab tumhari baari.” Replace it with the best reader answer within 24 hours, as promised.

Post 11: “‘Nice product’ ka matlab kya hai?” (Dukaan Doctor, Ep 03)

Reel · 18 seconds · 9:16 · Week 3, Tuesday · Comment prompt: the weirdest review you’ve ever got

Needs: your screen recording R9 (review and complaint analysis).

The idea: A mixie full of bright green chutney with its lid off, and a ₹2 lakh white bridal lehenga hanging right behind it. A finger reaches for the switch. The lid slams on at the last split second. The lid is the size chart: small, boring, and it saves the lehenga. Without it, “size chhota hai” reviews splash all over your brand.

Director’s note: Everything in the hook exists to make the lid feel important. Keep the lehenga visible in the background of every hook shot, so the viewer’s eyes keep flicking between the jar and the white fabric.

Timeline

Time (s)	Picture	Text on screen	Sound
0.0 to 1.0	Shot 1, its 0 to 1 s: kitchen, lid off, lehenga behind	₹2 lakh ka safed lehenga. (“₹2 lakh” in marigold)	quiet kitchen sounds
1.0 to 2.0	Shot 1, its 1.5 to 2.5 s: her finger moves toward the switch	Lid?	a tension riser
2.0 to 2.8	Shot 2, its 0 to 0.8 s: the switch turns, the chutney whirls up	LID?? (red-orange #C4320A)	mixer motor roar
2.8 to 3.5	Shot 3, its 0 to 0.7 s: the hand slams the lid on; one tiny green drop on the counter	(none)	a hard slam, music cuts to silence
3.5 to 5.0	Shot 4, any 1.5 s: slow push-in on the spotless lehenga	Bach gaya. Is baar.	the motor winding down
5.0 to 6.5	Navy card	Size chart hi lid hai. then, smaller, in marigold: Nahi lagaya, toh returns ke chhinte.	bass hit
6.5 to 8.5	R9, the reviews file uploads + “SAMPLE SHOP DATA” tag	Reviews daalo.	click
8.5 to 10.5	R9, snap zoom on “Sizing Issue is your loudest complaint”	Sabse badi shikayat: size.	bass hit
10.5 to 12.5	R9, snap zoom on “42.5% rate”	40 mein se 17 shikayat.	whoosh
12.5 to 14.5	R9, snap zoom on “Publish a real size chart”	Fix: size chart daalo.	ding
14.5 to 16.0	Navy card	Returns kam. Brand saaf.	tick
16.0 to 18.0	End card	Comment the weirdest review you’ve ever got.	sonic logo

Music: a quick tension riser into the motor roar, a hard cut to silence on the lid slam, then an upbeat beat from Instagram’s library (search “tension riser”, then “funny”).

Shot 1 · First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. An ordinary Indian home kitchen in late-morning daylight. On a black granite counter in the lower half of the frame, a mixer-grinder with its steel jar filled with bright green chutney. The jar's lid lies on the counter beside it, NOT on the jar. About 1.5 m behind, a white-and-gold bridal lehenga hangs on a hanger on the open kitchen door, spotless, softly out of focus but clearly white and gold.
CAMERA: at counter height, 28 mm lens look, the jar sharp.
LIGHT: soft daylight from a window on the left.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, hands, readable text, brand logos on the mixer, purple, neon.

Shot 1 · Motion (video prompt · Attach: your hands photos)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked, a very slow push-in toward the jar.
ACTION: 0 to 1 s: stillness, the lid lying next to the jar. 1 to 3 s: a woman's hand (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist, a mustard-yellow kurta sleeve with cream piping) slowly enters from the right, index finger reaching toward the mixer's switch, and stops just above it. 3 to 10 s: the finger hovers there; the lid stays on the counter.
SOUND: quiet kitchen sounds, a distant pressure-cooker whistle, a spoon tapping steel.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: the finger pressing the switch, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 2 · First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Macro close-up of the base of a mixer-grinder on a black granite counter: a woman's index finger (medium-brown skin, short nude-beige nails, a thin gold bangle on the wrist) resting on the switch knob. Above it, the lower part of an open steel jar full of bright green chutney, no lid. A white-and-gold lehenga blurred far in the background.
CAMERA: macro, at counter height, 50 mm macro lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: faces, readable text, brand logos, purple, neon.

Shot 2 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked macro.
ACTION: 0 to 0.3 s: the finger turns the switch. From 0.3 s: the motor roars, the jar shakes, and the green chutney whirls up the steel walls toward the open top, a few tiny specks flying up, but nothing spills over.
SOUND: a click, then a loud mixer motor roar.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: chutney spilling out, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 3 • First frame (image prompt · Attach: your hands photos)

Photorealistic vertical photo, 9:16, 1080x1920. Directly above a mixer-grinder's open steel jar: bright green chutney whirling up close to the rim. A woman's hand (medium-brown skin, a thin gold bangle, a mustard-yellow kurta sleeve) holds the jar's lid just above the opening, about to slap it on. Black granite counter around the jar.
CAMERA: overhead, 35 mm lens look.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: faces, readable text, brand logos, purple, neon.

Shot 3 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps. Real speed.
CAMERA: locked overhead.
ACTION: 0 to 0.3 s: the hand slaps the lid down firmly onto the jar. One tiny drop of green chutney lands on the counter beside the jar. 0.3 to 10 s: the lid holds, the motor keeps whirring safely, the hand stays pressed on the lid.
SOUND: a hard lid slam, then the steady whir of the motor.
STYLE: looks like real phone footage, not an advert. Natural exposure, slight noise, true-to-life colours, no CGI sheen.
AVOID: chutney splashing anywhere else, any face, extra or fused fingers, text, logos, purple or neon, background music.

Shot 4 • First frame (image prompt)

Photorealistic vertical photo, 9:16, 1080x1920. A white-and-gold bridal lehenga on a hanger on an open kitchen door, spotless, its fine gold embroidery catching soft daylight. Behind it, a glimpse of an ordinary Indian kitchen.
CAMERA: 85 mm lens look, the lehenga sharp, the background soft.
STYLE: looks like a real phone photo, natural exposure, fine grain, true-to-life colours, no CGI sheen.
AVOID: people, faces, text, logos, purple, neon.

Shot 4 • Motion (video prompt)

Use the attached image as the first frame. 9:16, 10 seconds, 24 fps.
CAMERA: a slow push-in toward the lehenga over the full 10 seconds.
ACTION: the lehenga hangs still; one fold moves slightly in a breeze.
SOUND: a mixer motor winding down in the background, then quiet.
STYLE: looks like real phone footage, not an advert. Natural exposure, true-to-life colours, no CGI sheen.
AVOID: people, faces, stains on the lehenga, text, logos, purple or neon, background music.

Caption

"Nice product" tells you nothing. "Size ek number chhota hai" tells you exactly what to fix.

A size chart is the lid on your mixie. Boring, small, and it saves the lehenga.

One Tap Manager reads your reviews file, groups what customers love and complain about, and shows the complaint costing you most. For clothing, it's usually size.

The kitchen scene is AI generated. Reviews in the app are samples we wrote.

Comment the weirdest review you've ever received.

Post 12: “0 customers. 20 sellers. 7 days.” (0 to 20, Day 1)

Carousel · 5 slides · 4:5 (1080x1350) · Week 1, Friday · Comment word: STORE · Pin this post

Post it only if you will really run the challenge and share a daily update in Stories.

The idea: The most honest post on the page. A founder at night with one lamp and a laptop saying: I built this, nobody uses it yet, help me get 20 sellers live in 7 days, and if it doesn't work I'll say so here. Honesty is the reason people follow a brand page that has nothing to show yet.

Slide 1 (image prompt · Attach: your khata photo)

Photorealistic photo, 4:5 portrait, 1080x1350.

SCENE: night. A small home-shop desk lit by one warm brass table lamp and the glow of an open laptop. The laptop screen shows a dim, plain desktop (nothing readable). On the cream wall above the desk, a plain paper calendar with seven empty hand-drawn boxes in a row. On the desk: a cutting-chai glass, a red cloth-bound khata ledger, a phone lying face down.

CAMERA: straight-on at desk height, 35 mm lens look.

LIGHT: a pool of warm 2700 K lamplight in the centre, deep navy (#111827) shadows all around.

TEXT across the middle, centred:

Heavy bold sans-serif, off-white #F7F5EF: "Maine app banaya."

Below it, very large bold monospace, off-white: "0 / 20"

Below that, heavy bold sans-serif, marigold #F5A623: "Customers: 0."

Bottom-left corner, very small grey text: "AI GENERATED"

STYLE: looks like a real phone photo, fine grain, true-to-life colours, no CGI sheen.

AVOID: people, faces, hands, readable screen content, emoji, purple, logos, extra text.

Slide 2 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white paper #F7F5EF with very faint horizontal ledger lines and a thin marigold (#F5A623) vertical margin line near the left edge.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "0 TO 20 · DAY 1"

UPPER HALF: a row of seven empty hand-drawn calendar boxes in deep indigo #1E3A8A ink. The first box has "Day 1" written in indigo handwriting.

BELOW, left aligned, heavy bold sans-serif, dark navy #101828: "Mission: 7 din mein 20 Instagram sellers ki free website." with a marigold highlighter stroke behind "20 Instagram sellers" only.

AVOID: emoji, purple, gradients, any other text. Spell every word exactly.

Slide 3 (image prompt · Attach: app-site.png)

Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid deep indigo #1E3A8A.

UPPER 60%, centred: a plain black modern phone frame with thin bezels and rounded corners showing the attached screenshot exactly as it is. Do not redraw, crop or change anything inside the screenshot. A small beige tag at its top-left corner, grey monospace capitals: "SAMPLE SHOP DATA"

BELOW, left aligned:

Bold sans-serif, off-white #F7F5EF: "Tumhara Instagram shop. Tumhari website."

Medium sans-serif, light blue #A9C1F5: "Cart, COD, UPI. Humara cut: ₹0."

AVOID: emoji, purple, gradients, extra text, any change to the screenshot.

Slide 4 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: solid dark navy #111827.

CENTRE, left aligned, lots of space between lines:

Heavy bold sans-serif, off-white #F7F5EF: "20 sellers ko bhi kaam ka nahi laga..."

Next, same style: "...toh maine galat cheez banayi hai."

Next, same style, marigold #F5A623: "Fail hua toh bhi yahin dikhaunga."

AVOID: emoji, purple, gradients, icons, any other text. Spell every word exactly.

Slide 5 (image prompt)

Flat graphic design for an Instagram carousel slide, 4:5 portrait, 1080x1350.

BACKGROUND: warm off-white #F7F5EF.

TOP-LEFT: a small deep indigo rectangular sticker with slightly rounded corners, white monospace capitals: "0 TO 20 · DAY 1"

UPPER CENTRE: very large bold monospace, dark navy #101828: "0 / 20"

Below it: a rounded deep indigo (#1E3A8A) square logo with "1T" in off-white bold monospace, circled by one thin marigold ring.

BELOW, centred, heavy bold sans-serif, dark navy: "Comment STORE to be one of the 20."

Below, medium sans-serif, grey: "Follow to see if I make it."

AVOID: emoji, purple, gradients, pill-shaped shapes, any other text.

Caption

Honest post: I built this app and we have zero customers.

The challenge: in the next 7 days, I'll help 20 Instagram sellers get their own website live on One Tap Manager, free. Your products, your name, cart, COD, UPI to your own UPI ID. We never take a cut of your sales.

If 20 sellers don't find it useful, I've built the wrong thing, and I'll say so here.

Comment STORE to be one of the 20. Follow to see if I make it.

Pinned comment: "Day 1 update aaj raat Stories mein. Counter abhi: 0 / 20."

Growth rules for these 12 posts

1. **Set up the auto-DM before Post 1.** Every “Comment WORD” must get its DM within minutes. Use a Meta-approved tool (for example ManyChat’s Instagram automation) and test each keyword from a second account. An unanswered keyword costs you trust.
2. **The first hour after posting decides the reach.** Reply to every comment in that hour, and send the post in DMs to 20 real sellers you would like as customers. Early saves, shares and comments from the right people tell Instagram who to show it to next.
3. **Post the pinned comment** (given under each post) the moment the post goes live, and pin it.
4. **Share every post to your Story** the same day, with a poll or question sticker.
5. **Collab posts are your free reach.** When a seller from the 0 to 20 challenge goes live, make a short reel of her store and publish it as an Instagram Collab with her account. It appears on both profiles and in front of her followers, who are exactly your customers.
6. **Same time, every post day.** Pick one time and keep it for all 3 weeks so your followers learn when you show up. Start with the evening, after shops close, and move it if Insights shows your audience is online at another hour.
7. **Every Friday, look at three numbers per reel:** 3-second hold (did the hook stop the thumb), shares and saves. Make more of whatever gets shared.

Before you hit post (every time)

- “AI GENERATED” tag on every AI shot, and Instagram’s AI label switched on.
- “SAMPLE SHOP DATA” tag on every app screen.
- The caption matches the video, and it says which part is AI generated.
- All text is inside the safe area: nothing in the top 12% or bottom 22% of a reel.
- The comment keyword’s auto-DM works, and the free thing you promised is ready to send.
