How to read this document

This is the director’s cut of `OTM-12-Posts-Simple.md`. Every post is rewritten the way a professional director hands a script to a crew: what the viewer should feel, where the camera sits, what the hands do, what the audience hears, what text appears, for how many frames, and what to check before it goes live.

The document has four parts.

1. **The review.** What is broken or risky in the current plan, and what this version fixes. Read this first.
2. **The production bible.** Rules that apply to every post: look, camera, light, sound, type, motion, safety, file naming. Read once, then refer back.
3. **The 12 scripts.** Seven reels and five carousels or statics, in posting order within each week.
4. **The appendices.** Shoot-day plan, prop list, AI prompt pack, the tracking sheet and the pre-publish checklist.

Conventions used in every script

- Timecodes are in seconds from the first frame, for example `0.0` to `0.5 s`.
- **OST** means on-screen text (burned into the video). **SFX** means a sound effect. **VO** means voice-over. **MX** means music.
- Shot codes read `P2-S03`: Post 2, Shot 3. Use them as file names on the shoot day.
- “Hands” always means the brand’s faceless seller: medium-brown hands, a thin gold bangle on the right wrist, a red-and-yellow kalava thread on the left, a mustard kurta sleeve with cream piping.
- Nothing in this document shows a human face. People are seen from behind, from above, or from the shoulders down.
- Colour names refer to the brand tokens: **Night** `#111827`, **Ink** `#101828`, **Paper** `#F7F5EF`, **Paper 2** `#EFECE3`, **Indigo** `#1E3A8A`, **Marigold** `#F5A623`, **Money Green** `#34D399`, **Sky** `#A9C1F5`, **Leak** `#C4320A`.

Part 1: The review (office hours)

I read the plan the way a partner at office hours would: what will actually happen when a real seller scrolls past this, and what will break on the shoot day. The creative is strong. The hooks are specific, the proof section uses real app footage, and the honesty tags are better than most funded brands manage. The problems are in consistency, a few claims, and one strategic question you should answer before you shoot anything.

1.1 The strategic question first

You have zero customers and a goal of 20 sellers in 7 days (Post 12). Twelve posts on a new account will not get you there on their own. A brand-new Instagram account typically gets a few hundred views per reel in its first weeks, and most of those viewers are not Indian small sellers. The 0 to 20 challenge will be won in the DMs, not the feed.

What that means for this plan:

- Treat the 12 posts as **proof you can send**, not as the engine. When you DM a boutique owner, you link Post 3 or Post 5 so she sees you are real and useful.
- Before each post goes live, have a list of 20 real sellers you will personally send it to. Instagram rewards early engagement, and your first 50 views should come from the people you are trying to win.
- The single number that matters for the next 3 weeks is **sellers who published a website**, not views. Put it on the 0/20 counter and nowhere else.

This does not change a single script. It changes what you do in the hour after each post goes live.

1.2 Bugs that must be fixed before posting (all fixed in this version)

#	Where	Problem	Fix in this version
1	Post 4 caption	The caption talks about a red notebook “working since 2019” and says “the flying notebook is AI generated”. The reel is about Dadaji on a drop tower. There is no notebook in it. A viewer who reads the caption after the reel feels something is off.	New caption written for the drop-tower reel.
2	Post 6 caption	The caption says “get hit in the face by your own phone” and “the phone drop is dramatised”. The reel is a stool, Diwali lights and a car. Same problem.	New caption written for the stool-and-lights reel.
3	Post 2 schedule	Post 2 is marked “not ready” (needs recordings R2 and R3) but is scheduled for Week 1, Thursday.	Record R2 and R3 on Shoot Day 0 (the website builder already ships, per <code>Product.md</code>). If they are not recorded by Tuesday of Week 1, swap Post 2 with Post 8.
4	Post 8 music	The script calls for the <i>Jaws</i> “dun-dun”. That is a copyrighted film score, and your own Brand Language (rule 11.7) bans copyrighted film clips.	Replaced with a two-note low cello pulse from the Instagram library, or a heartbeat SFX.
5	Post 5 numbers	The reel says “60 customers have gone quiet” and code <code>BACK10-D720</code> . The carousel says “38 customers” and code <code>WAPAS10</code> . Posted on the same day, they contradict each other.	Reel uses the app’s sample data (60, with the <code>SAMPLE SHOP DATA</code> tag). Carousel keeps 38 but with the <code>ILLUSTRATIVE EXAMPLE</code> tag and a different framing. The free template uses <code>WAPAS10</code> and is clearly labelled as a template code the seller changes.
6	Post 3 vs Post 8	Post 3 teaches “reorder when fewer than 7 days of stock are left”. Post 8 teaches “reorder when days left are fewer than supplier delivery days plus spare days”. Two different rules in the same series.	Both now use one rule: days of stock left < supplier days + 3 spare days . Post 3 shows the worked example with a 4-day supplier ($4 + 3 = 7$), so the “7 days” number still appears.
7	Post 9 hook text	“Har sale pe 10 se 20% cut” is stated as a fact with no source. Some marketplaces charge a	Changed to “App ki fees. Platform ka cut.” with no number attached. The ₹7,600 app stack stays

		commission, some do not, and the rates vary by category. This is an unsupported claim under your own rules.	because your pricing page shows that arithmetic, and it keeps the TYPICAL APP COSTS tag.
8	Posts 2 and 12	Both promise “UPI seedha tere UPI ID pe”. Product .md says the “Open UPI app” link is not yet tested on real phones and some UPI apps may refuse it.	Keep the claim (copying the UPI ID works), but test the checkout on GPay, PhonePe and Paytm before Post 2 goes live . Added to the pre-publish checklist.
9	Every reel	The end card in the Simple file only says “Comment WORD”. Your Brand Language (9.7) says every reel ends on “One dukaan problem. Fixed every week.”	Every end card now carries both: the comment line and the series promise.

1.3 Creative logic: where the hook and the product do not connect

A hook earns the first 3 seconds. The **slip line** (the one sentence that connects the stunt to the seller’s problem) earns the next 15. Three reels have a slip line that fights its own hook.

- **Post 4 (Dadaji).** Dadaji is calm on the drop. The slip line then says the seller’s sales dropped and she did not know. Calm plus drop reads as “drops are fine”, which is the opposite of the message. **Fix:** Dadaji is calm *because he knew the drop was coming*. New slip line: “Dadaji ko pata tha drop aane wala hai. Tumhe pata hai tumhari sales kab giri?”
- **Post 8 (sarees on the stairs).** The hook shows too much stock falling. The product is about stock running *out*. **Fix:** the joke is about the step she cannot see. New slip line: “Aakhri step dikhta nahi. Stock ka aakhri piece bhi nahi.” Now the hook and the reorder alert say the same thing: you cannot see the end coming, the app can.
- **Post 11 (mixie with no lid).** The link from chutney to reviews is a stretch. **Fix:** the lid is the size chart. New slip line: “Size chart hi lid hai. Nahi lagaya, toh returns ke chhinte.” The proof section then shows the app finding “size” as the top complaint and recommending a size chart.

1.4 Brand consistency

- **The recurring cast is missing from the reels.** Your Brand Language makes “the seller from behind” (messy bun, yellow pencil, mustard kurta) the star of every reel hook. The Simple version uses a pakoda stall, Dadaji, a man on a stool and a stranger on the stairs. Recurring characters are how small accounts get recognised in the feed. **This version keeps the stunts but puts the seller’s hands, bangle and kalava in every hook where it is safe to do so**, and puts her (from behind) in Posts 8 and 11. Dadaji and the man on the stool are kept as guest characters.
- **Stock footage with faces.** The Pexels drop-tower clips show real riders’ faces. Legally fine under the Pexels licence, but it breaks the “no faces” look. Pick clips shot from behind or far away, or crop and blur.

1.5 The test-and-track table will not tell you what you think

The plan compares 7 reels to find the winning “hook style”. Each reel differs in hook concept, pace, topic, CTA and posting day at the same time, and a new account’s views swing a lot from random factors. With 7 data points you cannot say “slow motion beats machine-gun cuts”.

What you *can* read: **3-second hold rate** (did the first frame stop the thumb) and **comments with the keyword** (did it produce leads). Use those two, treat them as directional, and do not kill a style on one reel. This version adds a “what changed” column to the tracking sheet so you can see confounds.

1.6 Feasibility for a one-person team

Seven practical stunts, props, a spotter, 240 fps slow motion, a balcony and a stall, in three weeks, while also doing 20 seller onboarding. That is a lot. Appendix A batches all filming into **3 shoot days** by location, so you set up each location once.

1.7 What is already strong (keep it)

- Price or danger on screen in frame one. This is the right instinct.
- Real screen recordings with SAMPLE SHOP DATA tags. This is your trust advantage.
- Post 3 and Post 5 give away something useful even to people who never sign up. These will be your most saved posts.
- Post 12’s honesty (“we have zero customers”) is the most followable post in the set. Keep it pinned.
- Comment-keyword CTAs. Make sure a comment-to-DM tool is live before Post 1, or block out 30 minutes after each post to reply by hand. An unanswered keyword comment is worse than no CTA.

Part 2: The production bible

These rules apply to every post. When a script is silent on something, do what this section says.

2.1 The look in one sentence

A real Indian home shop, filmed on a phone, in morning window light, where something expensive is about to go wrong, then a calm ledger-paper world where the app fixes it.

Two visual worlds, never mixed in one frame:

- **The Hook World** (0 to about 5 s): real places, real textures, handheld phone camera, natural sound. It must look like a clip a friend sent you, not an ad.
- **The Ledger World** (5 s to the end): flat cards in Night, Paper and Indigo, the app's real screen recordings inside a plain black phone frame, the marigold highlighter, hard cuts on the beat.

The move from one world to the other is always the same transition: a **hard cut to a Night card** with a single bass hit. Viewers learn the pattern by the third reel.

2.2 Camera package (phone only)

Item	Setting or choice	Why
Phone	The best rear camera you have access to. Use the main (1x) lens for everything except macros.	The 1x lens has the best sensor and the least distortion.
Resolution and frame rate	4K at 30 fps for normal shots. 1080p at 240 fps for the one slow-motion shot (Post 8).	4K gives room to crop and punch in during the edit.
Shutter	Double the frame rate where your app allows it (1/60 at 30 fps).	Natural motion blur. Fast shutters look like a video game.
Exposure and focus	Lock both (long-press on most phones) before every take.	Stops the image pumping when a hand enters frame.
White balance	Lock to daylight (about 5,500 K) indoors by the window.	Stops colour shifting between shots of the same scene.
Stabilisation	On for handheld. Off on a tripod.	Stabilisation on a tripod causes a slow drift.
Support	A cheap phone tripod with a clamp, plus a 1 to 2 m overhead arm or a broom handle taped across two chairs for top-down shots.	Top-down is used in 6 of the 7 reels.
Macro	Clip-on macro lens, or the phone's macro mode, for the oil, the necklace chain and the chutney.	Texture sells the danger.
Frame	Shoot vertical 9:16 for reels. Shoot 4:5 stills as vertical photos and crop.	No reframing losses.

Camera language (from the Brand Language, restated): POV at 24 mm equivalent looking down at 60°; top-down at 90°; hero prop close-ups at desk height, 10° above; wide set at standing height, 30° down. Moves are slow: 5% push-ins, gentle handheld sway on POV. No drone moves, no spins. The only Dutch angle is on a comic “fail” beat.

2.3 Light

- **Day interiors:** the key is a window on camera left, 9 to 10 am. Switch off ceiling tubelights; they add green. Bounce with a white bedsheet on the right if shadows are too hard.
- **Night exteriors (Post 2 stall, Post 6 balcony):** use the location's own warm bulbs. Add one small LED panel at 3,200 K, bounced off a wall, if faces of objects go muddy. Never light it like a studio.
- **Grade:** highlights toward cream Paper, shadows toward Night navy, saturation at 90%, fine grain. Only the kalava red, the kurta mustard, marigold, and the hero object (the gold, the silk, the green chutney) are allowed to pop.

2.4 Sound

- **Record real sound on every hook take.** Phone mic is fine at 30 to 50 cm. The oil crackle, the chain on steel and the stool creak do half the work.
- **SFX kit** (keep them the same across all reels so the page has a sound): phone buzz, bass hit, cash-drawer “ting”, soft “bonk”, record scratch, low heartbeat, page flip, steel glass clink, keyboard click, “pop” for items appearing, “whoosh” for zooms.

- **Sonic logo** at the end of every reel: one soft finger tap on glass, then a warm two-note marimba chime rising a fifth, about 700 ms.
- **Music** only from Instagram’s own audio library on the day of posting. Keep it at -18 to -22 dB under any voice, and drop it to silence at every key beat named in the scripts. Silence is the most powerful sound in these hooks.
- **Loudness:** final mix at about -14 LUFS.

2.5 On-screen text (reels)

Element	Font	Size	Colour and box	Animation
Hook line (0 to 5 s)	Inter ExtraBold 800	92 to 110 px	Paper text on a Night box at 85% opacity, 18 x 28 px padding, 14 px corner radius	Scale 92% to 100% with a small overshoot, 280 ms; out: fade 160 ms
Price or number	JetBrains Mono Bold	140 to 200 px	Marigold on dark, Ink on light	Rolling digits over 600 to 900 ms
Proof lines	Inter Bold 700	64 to 72 px	Ink on Paper box, or Paper on Night	Same as hook line
Tags (SAMPLE SHOP DATA, AI GENERATED, ILLUSTRATIVE EXAMPLE)	JetBrains Mono Medium, capitals	24 to 26 px	Ink Soft on a Paper 2 chip	Static, on screen the whole time the relevant footage is
End card lines	Inter ExtraBold 800	64 to 80 px	Ink on Paper	Line by line, 120 ms apart

Rules: maximum 7 words per line, 2 lines on screen at once. Sentence case. No em dashes, no emoji. Hinglish in Roman letters with the standard spellings (dukaan, kya, nahi, hai, khatam, wapas, hisaab).

Safe zones on 1080 x 1920: keep text out of the top 220 px, the bottom 420 px, and the right 150 px between y = 900 and y = 1700. Place hook text between y = 300 and y = 800 so the object of danger sits in the lower-middle of the frame.

Reading time rule: a line must stay on screen for at least 0.25 s per word plus 0.3 s. A 5-word line needs 1.55 s. Where a script beat is shorter than that, the line is split or shortened. All the scripts below already respect this.

2.6 Transitions (only three)

1. **Hard cut** on the beat. Default.
2. **Page flip:** a ledger page turns right to left in 450 ms. Used once per reel at most, from the “problem” to the “fix”.
3. **Tap ripple wipe:** a marigold ring expands from the tap point to fill the screen with Paper in 500 ms. Used to enter the app recordings.

No spins, glitches, zoom-blurs, star wipes or 3D cubes. A “snap zoom” (a fast 100% to 130% scale on one element over 150 ms) is a move, not a transition, and is allowed on screen recordings.

2.7 The app recordings

Code	What it shows	Used in
R1b	Sales analytics: last month’s change, what sold less, next 30 days	Post 4
R2	Website builder: shop name, 3 products, publish (to be recorded)	Post 2
R3	Storefront: cart, checkout with COD and UPI (to be recorded)	Post 2
R5	Win-back: customers who went quiet, review and send	Post 5
R6	Plan a week of Instagram, festival campaigns	Post 6
R7	Reorder alert and purchase order	Post 8
R8b	Pricing: Free and Max	Post 9
R9	Review and complaint analysis	Post 11

Recording settings: phone screen recorder at the highest quality, notifications off (Do Not Disturb), battery above 50%, clock set to 10:10, sample shop data loaded, a slow deliberate pace (you will speed it up 2x to 4x in the edit). Record each flow three times.

Inside the edit: place the recording in the plain black phone frame at 78% of frame width, centred, on a Night background. Every snap zoom lands on the exact number or button named in the script and holds for at least 0.8 s. The SAMPLE SHOP DATA chip sits top-left of the phone frame for the whole proof section.

2.8 The end card (last 2 s of every reel)

- Paper background.
- The 1T mark, 200 x 200 px, centred at y = 700, tap ripple animates once on the first frame.
- Line 1, Inter 800, 72 px, Ink, y = 960: the comment line (for example “Comment STORE.”).
- Line 2, Inter 800, 52 px, Ink, y = 1060: “One dukaan problem. Fixed every week.”
- Line 3, JetBrains Mono 500, 34 px, Ink Soft, y = 1140: “@onetapmanager”
- SFX: sonic logo. The last frame cuts cleanly back to frame 1 so the loop feels seamless.

2.9 Safety protocol (non-negotiable, every shoot)

1. **Stand-ins only.** Dummy or dead phones, imitation jewellery, cheap cloth, empty boxes. Nothing on set costs more than you can afford to lose.
2. **No heat near people or props.** Hot oil is filmed alone, from a distance, with nothing moving near it. Every “near the oil” shot uses a cold, empty kadhai.
3. **Every fall is under 30 cm, onto a mattress or mat, with a spotter out of frame.**
4. **No real edges.** Nobody stands near a balcony railing on a stool. The stool shot is filmed on the ground floor against a plain wall and composited, or the stool is under 30 cm tall and placed well back from the railing.
5. **Animals** (the cat in Post 6) are filmed separately, calm, and never near the action.
6. **Water and electricity:** the mixie in Post 11 is unplugged for every take except the one switch-press shot, and that shot uses plain coloured water.
7. **Consent.** Anyone who appears, even as hands, agrees to it. Dadaji says yes on camera off-record, not by assumption.

2.10 AI backup rules

Film for real wherever possible. Use AI only for a shot you cannot film safely or cheaply, and then:

- Generate the **first frame** as an image first (with your hand, kalava and khata reference photos attached), pick the most real-looking result, then animate it with image-to-video at exactly 10 s.
- Generate 3 or 4 takes and keep the one where the hands have five fingers and nothing melts.
- Every AI shot carries the **AI GENERATED** chip bottom-left and Instagram’s AI label is switched on.
- If the AI changes an app screenshot or misspells a word, put the real screenshot or text on top in Canva or CapCut.

2.11 File naming and delivery

- Raw clips: P{post}-S{shot}-T{take}.mp4, for example P2-S03-T2.mp4.
- Edit project: 0TM-P{post}-v{version}.
- Export: 1080 x 1920, H.264, 30 fps, high bitrate, AAC 48 kHz. Carousels: 1080 x 1350 PNG, sRGB.
- Cover frame for every reel: a separate 1080 x 1920 image with the hook line, designed so the centre 1080 x 1350 area reads on the profile grid.

Part 3: The scripts

Post 1: “Tu 6 logon ka kaam karta hai”

Format	Carousel, 6 slides, 1080 x 1350
Series	Start here (pinned post 1 of 3)
Slot	Week 1, Monday
Job of this post	Explain the whole page to a new visitor in one swipe: you do six jobs alone, big brands have a team, this app is that team, and it costs you nothing from your sales.
Viewer should feel	Seen (slide 1), a little proud (slide 2), then relieved (slide 4 to 5).
Shoot needed	One real photo for slide 1 (recommended) or one AI image. The rest are flat designs plus one app screenshot.
Assets	app - today .png

Director’s intent

This is the post a stranger lands on when they tap the profile. It must work with no context. The first slide does all the emotional work: an empty chair behind six name plates is a picture of loneliness that a one-person seller recognises in half a second, and the “Salary? Ek cutting chai.” line turns it into a joke before it gets sad. Every slide after that is one step of an argument, and the argument ends on money, because “we never take a cut” is the line that makes a seller trust the rest.

The swipe logic

Slide	Beat	What the viewer thinks
1	Recognition	“That’s me.”
2	Reframe	“Wait, brands aren’t better, they just have people?”
3	Contrast	“Six people versus one. Me.”
4	Solution	“So this app is the team.”
5	Trust	“And they don’t take a cut of my sales.”
6	Reason to follow	“One free fix every Tuesday. Follow.”

Slide 1: the cover

Purpose: Stop the scroll on the profile grid and in the feed.

Composition: A straight-on shot at desk height, 10° above. The six name plates stand in one row across the middle third of the frame, the empty blue plastic chair centred behind them. The khata sits on the left edge, the chai glass on the right, both slightly cut off by the frame so the desk feels real and wider than the picture. The bottom 45% of the frame falls into a Night fade for the text.

How to shoot it for real (recommended, 30 minutes):

- 1. Make six name plates from folded cream card (A5 folded into a tent), with the job names printed in JetBrains Mono capitals at 28 pt, dark ink.
- 2. Put them on a wooden table against a cream or off-white wall. A blue plastic chair (the common Nilkamal kind) goes behind, pushed in slightly, empty.
- 3. Red cloth khata on the left, tied with string. Cutting chai glass on the right, two-thirds full, with a thin skin.
- 4. Light: a window on camera left at 9 to 10 am, no ceiling light. If the window has a grill, let its shadow fall on the wall behind the chair.
- 5. Phone on a tripod at desk height, 1x lens, focus on the name plates, exposure locked slightly under (so the fade to Night is easy).
- 6. Take 10 frames, moving the chai glass 2 cm between each. Pick the one where the chair sits exactly in the gap between plates 3 and 4.

Name plates, left to right: CEO · CA · PHOTOGRAPHER · PACKING · CUSTOMER CARE · INSTAGRAM

Copy (exact):

Tu CEO bhi hai. CA bhi. Photographer bhi. Packing wala bhi.

Salary? Ek cutting chai. (Marigold)

Type spec: Inter ExtraBold 800, 104 px, Paper, left aligned at x = 88, line height 1.02. The last line is on its own, in Marigold, with an extra 24 px of space above it. Break lines after “hai.”, “bhi.”, “bhi.” so each job lands on its own beat.

Tags: AI GENERATED bottom-left only if you use the AI version. A real photo needs no tag.

AI version (only if you cannot shoot it):

Instagram carousel cover, 1080x1350, photorealistic. A small Indian home shop corner: a warm wooden desk, six small blank cream name plates standing in one straight row facing the camera, one empty blue plastic chair behind them, a cutting chai glass on the right, a red cloth-bound ledger (bahi-khata) tied with string on the left. Cream lime-plaster wall, soft morning light from a window with an iron grill on the left. No people. On the name plates write, in small dark mono letters: CEO, CA, PHOTOGRAPHER, PACKING, CUSTOMER CARE, INSTAGRAM. Bottom 45% of the image has a dark navy (#111827) fade for text. Looks like a real phone photo: natural exposure, fine grain, true colours, no CGI sheen. Small grey tag bottom-left: "AI GENERATED". No emoji, no purple, no other text.

Add the headline text yourself in Canva, not in the AI tool. AI misspells Hinglish.

Slide 2: the reframe

Purpose: Flip the seller's belief that big brands win on product.

Layout: Paper background with faint horizontal ledger lines every 56 px in Paper 2, and one thin Marigold vertical margin line at x = 120. Content column starts at x = 160.

Copy (exact):

Big brands ke kurte better nahi hote. (headline)

Unke paas bas **log hote hain**. Jo numbers padhte hain, aur phir kaam karte hain. (body)

Type spec: Headline Inter 800, 84 px, Ink, top at y = 260. Body Inter 500, 46 px, Ink Soft, 64 px below the headline. Marigold highlighter behind "log hote hain", drawn at -1.5°, 70% opacity. Small 2/6 in JetBrains Mono 24 px, Ink Soft, top-right at the margin.

Detail to get right: only one highlighted phrase. The headline carries the claim, the body carries the reason.

Slide 3: the contrast

Purpose: Make the gap physical. Six job titles, then one.

Layout: Night background. Label at top in JetBrains Mono capitals 26 px, Sky: A BIG BRAND'S BACK OFFICE. Below, six rows, each 96 px tall, each with a 2 px stroke line icon (48 px) in Paper at the left and the role in JetBrains Mono 500, 40 px, Paper:

1. Data analyst (a small bar chart icon)
2. Stock manager (a box icon)
3. Customer manager (a person with a heart)
4. Social media manager (a phone with a ripple)
5. Photographer (a camera)
6. Accountant (a ₹ in a square)

Then a 1 px Paper divider at 40% opacity. Then "Tera back office:" in Inter 800, 64 px, Paper. Then **"1 insaan."** in JetBrains Mono 700, 200 px, Marigold, left aligned.

Detail to get right: the "1 insaan." must be the largest thing on the slide by far. It is the punchline. 3/6 top-right.

Slide 4: the solution

Purpose: Show the real app, and translate its features into the jobs from slide 3.

Layout: Indigo background. The black phone frame (12 px bezel, 64 px corner radius) sits centred in the upper 60% of the slide, 560 px wide, showing app-today.png exactly as it is. SAMPLE SHOP DATA chip at the top-left corner of the phone.

Copy (exact):

One Tap Manager is that team. One app. (Inter 700, 56 px, Paper)

Batata hai aaj kya karna hai. Customer ka message likh deta hai. Supplier ka order bhar deta hai. Hafte ke posts plan kar deta hai. (Inter 500, 38 px, Sky, 1.35 line height)

Detail to get right: do not let any tool redraw the screenshot. Place it yourself. If you want to be exact about plans, add a small Sky line under the list: "Supplier orders: free during launch." (per Product.md, supplier orders are a Max feature).

Slide 5: the trust slide

Purpose: Remove the biggest fear: "they'll take a cut".

Layout: Night background. Centre: ₹0 in JetBrains Mono 700, 240 px, Money Green. Below: "Tumhari sale mein humara cut." Inter 700, 56 px, Paper. Below: "Free plan: ₹0, forever. Max: ₹999 a month, flat. Never per order, never a percentage." Inter 500, 36 px, Sky, max width 760 px, centred.

Slide 6: the reason to follow

Layout: Paper background. Centre-top: the 1T mark (Indigo rounded square, 220 px, “1T” in Paper, JetBrains Mono Bold) with one thin Marigold ring around it. Series sticker top-left: Indigo chip, Paper text, JetBrains Mono capitals 24 px: **DUKAAN DOCTOR · EVERY TUESDAY**.

Copy (exact):

Har hafte ek dukaan problem. Roast bhi. Fix bhi. Free. (Marigold highlighter behind this line) Follow @onetapmanager (JetBrains Mono 30 px, Ink Soft)

Caption

The difference between you and a big brand isn't the product.

They have a team that reads the numbers every morning and acts on them.
You have a red notebook and one chai.

One Tap Manager is that team, for a one-person shop.
It tells you what to do today, writes the customer messages, fills in the supplier order and plans your week of posts.

Free to start. We never take a cut of your sales.

Follow for Dukaan Doctor: one shop problem, roasted and fixed, every Tuesday.

#smallbusinessindia #instagramseller #onlinebusinessindia #boutiqueowner

Alt text: “An empty blue chair behind six name plates reading CEO, CA, Photographer, Packing, Customer Care and Instagram on a wooden desk with a red ledger and a glass of chai. Text: you do every job in your shop, and your salary is one cutting chai.”

Before posting: pin it. Check every slide at phone size for the 3:4 grid crop (nothing within 60 px of the side edges).

Post 2: “₹1.5 lakh ka phone, garam tel”

Format	Reel, 18.0 s, 1080 x 1920
Comment word	STORE
Slot	Week 1, Thursday (swap with Post 8 if R2 and R3 are not recorded by Tuesday)
Hook type	Danger to an expensive object
Pace	Machine-gun: 8 hard cuts in 2.5 s, one cut per buzz
Job of this post	Turn “my whole shop lives in one Instagram account” into fear, then offer a free website as the safety net.
Viewer should feel	Tension that rises with every buzz, a gasp at the tip, relief at the grab, then “oh, that’s actually my situation”.
Needs	R2 (website builder) and R3 (storefront checkout). Both still to record.

Logline

A premium phone, buzzing with customer DMs, creeps closer to a kadhai of boiling oil with every notification, until a hand snatches it at the last instant. That phone is your shop. One app gives it a second home.

Director’s intent

The drum roll is made of the seller’s own notifications. That is the whole idea: the thing that is endangering the phone is the business itself. The buzz rhythm must accelerate, so the edit is cut to sound first and picture second. The grab must be at real speed, not slow motion, because slow motion reads as staged. After the grab, the silence has to be total for a full beat. The viewer should hear their own breath.

Emotional curve

Curiosity (0 s) → rising dread (0.5 to 3.0 s) → peak (3.0 s) → relief (3.4 s) → realisation (3.4 to 6.5 s) → confidence (6.5 to 16 s) → action (16 to 18 s)

Cast and wardrobe

- **The hands:** the brand’s seller hands. Kalava thread on the left wrist is the hero detail in the grab, so it must be clearly visible. Mustard kurta sleeve.
- **No faces.** A stall owner, if present, is a soft blur deep in the background, from behind.

Location

- **Plate A (real stall, night):** a street pakoda stall with a big black kadhai, steel counter, warm bulb light, steam. You film only the atmosphere and the counter from a distance. Ask the owner, buy pakodas, film for 10 minutes.
- **Plate B (home kitchen, cold kadhai):** the same style of kadhai on your own stove, **cold and empty**, on a steel counter or a steel sheet. A warm bulb and a little steam from a kettle out of frame for continuity. This is where every phone movement and the grab are filmed.

Props

Prop	Hero or stand-in	Notes
Phone	Stand-in: a dead or dummy phone in a premium dark case	Screen shows a lit notification (use a real phone with a screenshot for the close-ups only, well away from any heat)
Kadhai	Real, cold for Plate B	A little oil sheen wiped on the rim for the macro
Pakodas	Real, from the stall	For Plate A only
Steel counter	Real	Scratches and oil marks help realism

Camera plan

- Lock exposure for the bulb light. Let the background fall into darkness.
- Eight angles for the machine-gun sequence, each on a tripod, each a separate take: top-down, side at counter height, macro on the phone edge, low angle from behind the kadhai rim, 45° over the kadhai, a tight close-up of the notification banner, a wide of the whole counter, and a close-up of the phone’s corner sliding.
- For each angle, film the phone at 6 positions, 2 cm apart, moving it by hand between takes (stop-motion style). You will choose one position per cut so the phone creeps closer on every cut.

Sound design and music

- **0 to 3.0 s:** no music. Oil crackle bed (record at the real stall, 30 seconds). A phone buzz on every cut, each one 5% shorter and 1 dB louder than the one before. Under the last three buzzes, a low heartbeat.
- **3.0 s:** the buzzing stops dead on the frame the phone tips.
- **3.4 s:** one deep “whoomp” (a low sub-bass hit with a fast decay) on the grab.
- **3.4 to 5.0 s:** total silence except faint oil crackle at -30 dB.
- **5.0 s:** bass hit into the Night card.
- **6.5 to 18 s:** a hard-hitting desi hip-hop beat from the Instagram library, entering on the downbeat at 6.5 s, at -20 dB. Fallback search: “desi hip hop beat”.
- **Sonic logo** at 16 s.

Beat sheet

Time	Beat	OST
0.0 to 0.5	The price	₹1.5 lakh.
0.5 to 3.0	The creep	DM bubbles and a counter 12 to 19
3.0 to 3.4	The tip and grab	(none)
3.4 to 5.0	Realisation	Poori dukaan is account mein hai.
5.0 to 6.5	Slip line	Account gaya, toh dukaan gaya.
6.5 to 8.0	Proof 1	Apni website. Step 1: naam.
8.0 to 10.0	Proof 2	Step 2: 3 products.
10.0 to 12.0	Proof 3	Step 3: publish. Bas.
12.0 to 14.0	Proof 4	Cart. COD. UPI.
14.0 to 16.0	Money	Humara cut: ₹0.
16.0 to 18.0	End card	Comment STORE. + series promise

Shooting script

SCENE 1: THE PRICE (0.0 to 0.5 s)

P2-S01 · 0.0 to 0.5 s · Wide, Plate A blended with Plate B

- **Frame:** 28 mm equivalent, counter height, 30° down. The kadhai fills the left half of the frame, oil bubbling around pakodas, steam rising into warm bulb light. The phone lies on the steel counter on the right, 15 cm from the kadhai’s rim, screen lit.
- **How to get it:** film the real stall’s kadhai (Plate A). Film the phone on your own counter (Plate B) from the same angle and height. In CapCut, mask the phone layer into the stall shot. Or, simpler: film the phone at the stall on the counter far from the kadhai and use a longer lens to compress the distance. The phone is never actually near the oil.
- **OST:** **₹1.5 lakh.** JetBrains Mono Bold, 180 px, Marigold, centred at y = 520, on screen from frame 1.
- **SFX:** oil crackle, full level.
- **Edit:** no fade in. The first frame is the hook.

SCENE 2: THE CREEP (0.5 to 3.0 s)

Eight hard cuts. Each cut starts on a buzz. Each cut the phone is visibly 2 cm closer to the rim. Durations shrink so the rhythm accelerates.

Shot	Time	Angle	Phone position	Notification bubble (our own chat style, not Instagram’s UI)	Counter
P2-S02	0.50 to 0.90	Top-down	13 cm	“price?”	12
P2-S03	0.90 to 1.25	Side, counter height	11 cm	“M hai?”	13
P2-S04	1.25 to 1.55	Macro on phone edge	9 cm	“PP”	14
P2-S05	1.55 to 1.85	Low, from behind the rim	7 cm	“COD?”	15
P2-S06	1.85 to 2.15	45° over the kadhai	5 cm	“link?”	16
P2-S07	2.15 to 2.45	Tight on the banner	4 cm	“price??”	17
P2-S08	2.45 to 2.75	Wide of the counter	2 cm	“last price?”	18
P2-S09	2.75 to 3.00	Macro on the phone’s corner over the rim	0 cm, overhanging	“hello??”	19

- **Bubble style:** Paper 2 rounded rectangles, 1 px Ink border, Inter 600, 44 px, Ink. They pop in from the right edge with a 120 ms scale-up and stack upward, each new one pushing the others up. Never use WhatsApp or Instagram’s real design.
- **Counter:** JetBrains Mono Bold, 96 px, Paper on a Night chip, top-right inside the safe zone (x = 780, y = 300). Rolls one digit per buzz.
- **Performance:** the phone moves only by vibration. No hands in frame during the creep.
- **Physics note:** a vibrating phone rotates as it slides. Rotate it 3° to 5° between positions so it looks like real vibration.

SCENE 3: THE TIP AND THE GRAB (3.0 to 3.4 s)

P2-S10 · 3.00 to 3.20 s · Side, counter height, Plate B (cold kadhai)

- **Action:** the phone's centre of gravity passes the rim. It tips, screen-first, toward the kadhai.
- **Sound:** buzzing stops dead on the first frame. Nothing but the oil bed.

P2-S11 · 3.20 to 3.40 s · Same angle, continuous

- **Action:** the seller's hand enters from frame right at real speed and snatches the phone mid-tip, 2 to 3 cm above the (cold) kadhai. The kalava thread must be readable in the frame the hand closes.
- **How to film:** place the phone on the rim, let it tip, catch it. Do 15 takes. Keep the one where the catch is cleanest and the kalava faces the lens.
- **Sound:** "whoomp" exactly on the frame the fingers close.
- **Edit:** no slow motion. Real speed only.

SCENE 4: REALISATION (3.4 to 5.0 s)

P2-S12 · 3.40 to 5.00 s · POV, 24 mm, looking down at the phone in the hand

- **Frame:** the phone fills 70% of the frame, held safely in the palm, steam drifting past in the background. The screen shows a generic shop profile grid (your own sample shop's profile, not a real seller's).
- **Move:** a slow 5% push-in over the whole 1.6 s.
- **OST (two lines):** **Tumhari poori dukaan / is account mein hai.** Inter 800, 96 px, Paper on Night box, y = 360.
- **Sound:** silence. Oil at -30 dB.

SCENE 5: THE SLIP LINE (5.0 to 6.5 s)

P2-S13 · 5.00 to 6.50 s · Night card

- **OST: Account gaya, / toh dukaan gaya.** Inter 800, 104 px, Paper, centred. "dukaan gaya" in Marigold.
- **Sound:** bass hit on the cut.
- **Edit:** hard cut in. Tap ripple wipe out at 6.5 s into the app.

SCENE 6: THE PROOF (6.5 to 14.0 s)

All recordings sit in the black phone frame on Night. SAMPLE SHOP DATA chip top-left of the frame throughout.

P2-S14 · 6.5 to 8.0 s · R2 at 4x

- **Shows:** the shop name field; typing a sample name.
- **Snap zoom:** onto the name field at 6.9 s, 100% to 130%.
- **OST: Apni website. / Step 1: naam.**
- **SFX:** keyboard clicks synced to the letters.

P2-S15 · 8.0 to 10.0 s · R2 at 4x

- **Shows:** three product photos being added.
- **OST: Step 2: 3 products.**
- **SFX:** "pop" as each product appears (three pops, 0.35 s apart).

P2-S16 · 10.0 to 12.0 s · R2 at 2x

- **Shows:** the Publish button. Snap zoom onto it, a Marigold tap ripple on the tap.
- **OST: Step 3: publish. Bas.**
- **SFX:** click, then a "ding" as the live link appears.

P2-S17 · 12.0 to 14.0 s · R3 at 2x

- **Shows:** the storefront, add to cart, checkout with COD and UPI options.
- **OST: Cart. COD. UPI. / Seedha tumhare UPI ID pe.**
- **SFX:** whoosh on the page change.

SCENE 7: MONEY (14.0 to 16.0 s)

P2-S18 · 14.0 to 16.0 s · Night card

- **OST: Humara cut:** (Inter 800, 72 px, Paper) then **₹0.** (JetBrains Mono 700, 220 px, Money Green) rolling from ₹999 down to ₹0 over 700 ms.
- **SFX:** cash-drawer "ting" when the digits land.

SCENE 8: END CARD (16.0 to 18.0 s)

P2-S19 · Standard end card (section 2.8). Line 1: **Comment STORE.** Sonic logo.

Edit notes

- Cut Scene 2 to the buzz track first, then lay pictures onto it.
- Do not colour-grade the stall shots bright. The darkness around the bulb is what makes it feel dangerous.

- If the viewer can tell the phone never moves toward the oil, the reel fails. Watch it on a phone, at full speed, three times, before you export.

Safety

The phone never goes near hot oil. The tip and grab are filmed over a cold, empty kadhai at home. No hand is ever near heat.

AI backup (only if you cannot film)

First frame:

Photorealistic vertical photo, 9:16, 1080x1920, a street pakoda stall at night: a large black kadhai of boiling oil with pakodas bubbling, steel counter, warm bulb light. A top-end phone in a premium dark case lies on the counter about 15 cm from the kadhai, its screen lit with a notification banner (no readable text).
Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no filters, no cinematic grading, no CGI sheen.

Motion (10 s):

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.
Machine-gun editing: 8 hard cuts in the first 3 seconds, each from a new angle (top-down, side, macro on the phone, low at counter level). Every cut starts with the phone buzzing and sliding 2 cm closer to the oil. At 3.0 s the phone tips over the kadhai's rim and a hand with a red-and-yellow kalava thread snatches it mid-air at real speed. 3.4 to 10 s: the phone held safely, its screen filling the frame, oil still crackling behind.
Sound: oil crackling, a phone buzz on every cut getting faster, total silence at the grab, a deep "whoomp".
Avoid: any human face; extra or fused fingers; readable text or logos; purple or neon; background music; cross-fades; anyone or any animal being hurt.

Caption

Your whole shop lives inside one Instagram account. One lost login, one wrong report, and it's gone.

"Website hai?" Every customer asks. Most sellers send a WhatsApp number.

You already have the products and the photos. You were only missing the website.

Shop name, 3 products, pick a look, publish. Cart, COD, and UPI straight to your own UPI ID.

Free on every plan. We never take a cut of your sales.

Real app, sample shop data. No phone went near hot oil.

Comment STORE and I'll send you the link.

Alt text: "A phone buzzing with customer messages slides toward a kadhai of hot oil at a pakoda stall until a hand grabs it. Then the One Tap Manager website builder: shop name, three products, publish, and a checkout with COD and UPI."

Before posting

- ☐ R2 and R3 recorded with sample data.
- ☐ Checkout tested on GPay, PhonePe and Paytm with a personal UPI ID.
- ☐ Comment-to-DM reply for STORE is live and the link opens the signup.
- ☐ Watched on a phone at full speed: the creep feels real.

Post 3: “Followers zyada, orders kam. Kyun?” (Dukaan Doctor, Ep 01)

Format	Carousel, 7 slides, 1080 x 1350
Series	Dukaan Doctor, Episode 01 (pinned post 3 of 3)
Slot	Week 1, Tuesday
Job of this post	The most saveable post on the page. Give away a 10-minute Monday routine that works with a notebook, then show the app does it on one screen.
Viewer should feel	Called out (slide 1), amused (slide 2), smarter (slides 3 to 5), “I’ll save this” (slide 7).
Assets	app-sales-top.png

Director’s intent

This is a teaching post dressed as a joke. The cover is a still life that states the whole problem without a single word: a scale where a heap of hearts weighs less than three parcels. Slides 3 to 5 must be usable on their own, which is why each one ends in a grey “Check it free” box with a formula she can do on paper. The app appears only on slide 6, and even there the copy says “a notebook works too”. Generosity first is what earns the save.

Slide 1: the cover

Composition: A brass taraazu (traditional hand scale) on a wooden desk, shot straight-on at desk height, 10° above, 85 mm equivalent. The left pan is piled high with small red paper hearts, lifted high. The right pan holds three small kraft parcels tied with jute string, hanging low. Four or five hearts are mid-air, falling. The top third of the frame is plain cream wall for text.

How to shoot it for real (1 hour):

1. Borrow or buy a small decorative brass taraazu (common in puja shops and gift shops).
2. Cut 80 to 100 small hearts (2 cm) from red paper. Pile them loosely on the left pan.
3. Wrap three matchboxes in kraft paper and tie with jute. Put a coin inside each so the right pan sinks. If the scale will not tip, tape a hidden coin under the right pan.
4. Falling hearts: shoot a burst while someone off-frame drops hearts from above. Pick a frame with 4 to 5 hearts in the air, sharp.
5. Window light from the left. Background wall 1 m behind the scale so it goes soft.

Copy (exact):

Followers zyada. Orders kam. (Inter 800, 104 px, Ink) **Kyun?** (Inter 800, 104 px, Marigold) Swipe. Answer slide 3 pe hai. (Inter 500, 40 px, Ink Soft)

Tags: AI GENERATED only if you use the AI version below.

AI version:

Instagram carousel cover, 1080x1350, photorealistic still life. A traditional Indian brass weighing scale (taraazu) on a wooden desk. The left pan is piled high with a big heap of small red paper hearts, and the right pan holds only three small brown kraft parcels tied with string. The parcels are heavier: the right pan hangs low and the heart pan is lifted high. A few hearts are falling in the air. Cream plaster wall behind, soft morning window light from the left. The top third of the image is empty wall for text. Looks like a real phone photo, fine grain, no CGI sheen. Small grey tag bottom-left “AI GENERATED”. No people, no emoji, no purple, no text.

Slide 2: the joke

Layout: Ledger Paper template (Paper, ruled lines, Marigold margin at x = 120).

Copy (exact):

Likes se kiraya nahi bharta. (headline, highlighter behind “kiraya nahi bharta”) Landlord UPI pe heart accept nahi karta. Maine try kiya hai. (body) (Joke. Please don’t pay rent in hearts.) (Inter 500, 30 px, Ink Soft)

2/7 top-right.

Director’s note: the tiny disclaimer line is the second laugh. Keep it small and at the bottom, so it lands after the reader has already smiled.

Slides 3, 4, 5: the three numbers

All three share one template so the reader feels a system:

- Label at top: JetBrains Mono capitals, 26 px, Ink Soft (NUMBER 1 OF 3).
- A 2 px stroke icon, 72 px, Indigo.
- Headline: Inter 800, 80 px, Ink.
- One-line truth: Inter 500, 44 px, Ink Soft.
- A Paper 2 box, 20 px radius, 40 px padding, titled "Check it free:" in Inter 700, 36 px, with the formula in JetBrains Mono 500, 38 px.
- An ILLUSTRATIVE EXAMPLE chip beside any worked numbers.

Slide 3

- Label: NUMBER 1 OF 3 · Icon: a box
- Headline: **Kaunsa maal khatam hone wala hai.**
- Truth: Bestseller khatam hone ke baad pata chalta hai ki bestseller tha.
- Check it free:

Stock left ÷ roz kitna bikta hai = kitne din chalega.
Supplier ke din + 3 se kam? Aaj order karo.

Example: 12 piece ÷ 2 roz = 6 din.
Supplier 4 din + 3 = 7. 6 < 7, toh aaj order.

- Chip: ILLUSTRATIVE EXAMPLE · 3/7

This rule matches Post 8 exactly. Do not change one without the other.

Slide 4

- Label: NUMBER 2 OF 3 · Icon: a person with a curved return arrow
- Headline: **Kaun wapas nahi aaya.**
- Truth: Purana customer naya follower dhoondhne se sasta hai. Usse tum pe bharosa pehle se hai.
- Check it free: Last 60 din mein 1 baar kharida, phir 45 din se kuch nahi? Ye list banao.
- 4/7

Slide 5

- Label: NUMBER 3 OF 3 · Icon: a ₹ sign, a not-equal sign, a heart
- Headline: **Kya bikta hai vs kya bas like hota hai.**
- Truth: Viral reel wala product? Ho sakta hai 2 hi bike.
- Check it free: Har product: is mahine kitne bike × margin. Likes ignore karo.
- 5/7

Slide 6: the app

Layout: Night background. Top: **10 minute. Har Monday.** JetBrains Mono 700, 96 px, Marigold. Then "Teen numbers. Ek notebook bhi chalega." Inter 700, 48 px, Paper. Then "Ya One Tap Manager teeno ek screen pe dikha deta hai, free." Inter 500, 38 px, Sky. Bottom half: the black phone frame, 520 px wide, with app-sales-top.png unchanged. SAMPLE SHOP DATA chip.

Director's note: "Ek notebook bhi chalega" is the most important line on this slide. It is why people trust the next line.

Slide 7: save prompt

Layout: Paper. 1T mark with Marigold ring. Sticker top-left: DUKAAN DOCTOR · EP 01.

Copy (exact):

Save karo. Monday ko kaam aayega. (highlighter behind "Monday") Next Tuesday: agla dukaan problem. Follow @onetapmanager

Caption

10k followers and 3 orders is not a reach problem. It's a numbers problem.

Every Monday, check three numbers:

1. What's about to run out.
2. Which customers stopped coming back.
3. What actually sells, not what gets likes.

Ten minutes and a notebook is enough. Slides 3 to 5 show you how.

Save this for Monday. Send it to the friend who's "going viral" but still asking where the orders are.

#smallbusinessindia #instagramseller #clothingbusiness #kurtibusiness

Alt text: "A brass scale where a big pile of red paper hearts weighs less than three small parcels. Text: more followers, fewer orders, why? Then three numbers every seller should check on Monday."

Post 4: “Dadaji ko drop se darr nahi lagta”

Format	Reel, 18.0 s
Comment word	DEMO
Slot	Week 2, Monday
Hook type	Rapid highlight sequence with a calm character in chaos
Pace	A hard cut every 0.3 to 0.5 s in the hook
Job of this post	Make “your sales dropped and you didn’t notice” land with a laugh, then show the app catching the drop, explaining it and giving a fix.
Viewer should feel	Delight at Dadaji, then a small sting: “would I know if my sales fell 10%?”

Logline

On the scariest ride at the mela, everyone screams except Dadaji, who eats peanuts all the way down. He isn’t scared because he knew the drop was coming. Do you know when your sales dropped?

Director’s intent (revised slip line)

The original slip line made Dadaji’s calm read as “drops are fine”. This version makes the calm the result of **knowing**. Dadaji watched the seats climb; he knew exactly when the drop would come. That is what the app gives a seller: the drop, named, explained, with a next step. Keep Dadaji charming, never a joke at his expense. He is the hero.

Emotional curve

Charm (0 to 1.2 s) → suspense at the top (1.2 to 1.6 s) → chaos (1.6 to 2.4 s) → laugh (2.4 to 5.0 s) → sting (5.0 to 6.5 s) → reassurance (6.5 to 16 s) → action

Cast and wardrobe

- **Dadaji (guest character):** a grandparent who is happy to be in it. Seen only as hands, wrists, feet and back. White cotton kurta, steel wristwatch with a metal strap, brown leather chappals. A paper cone of roasted peanuts (moongphali).
- **Riders in stock footage:** only from behind or far away. No faces.

Locations

- **Plate A (stock):** a drop-tower ride from a free stock library. Choose clips shot from a distance or from behind.
 - [People on Amusement Park Drop Tower Ride \(Pexels\)](#)
 - [A Free Fall Amusement Ride \(Pexels\)](#)
 - [Search: drop tower ride](#)
- **Plate B (home):** Dadaji on an ordinary chair on a terrace or balcony (well back from any edge) against open sky, with a table fan blowing on him from the side for “wind”. A yellow padded bar is faked with a yellow pool noodle held across his lap by someone out of frame.

Props

Yellow pool noodle (the safety bar), paper cone of peanuts, table fan, a stool under the chair to lift his feet 30 cm so the chappals dangle, a sky-blue background (the real sky, shot upward).

Camera plan

- Plate B close-ups are all shot **upward against the sky** so no ground or house is visible. That is what sells “high up”.
- Handheld with slight shake for the ride shots. Tripod for the calm peanut shots (the stillness is the joke).

Sound design and music

- 0 to 1.2 s: ride machinery clank (from the stock clip), wind.
- 0.8 to 1.6 s: slow mechanical clicks as the seats rise, “click, click, click”, spaced 0.25 s.
- 1.2 to 1.6 s: silence, then one peanut crunch.
- 1.6 s: an EDM riser from the Instagram library, timed so the drop in the music lands exactly on the ride’s plunge. Massive whoosh, crowd screams.
- 2.4 s: screams fade; a clean “pop” as the peanut goes in.
- 3.2 to 5.0 s: a warm, calm chuckle (record Dadaji laughing, off camera).
- 5.0 s: bass hit and a falling whistle.
- 6.5 s onward: a light desi-lofi beat. Fallback search: “EDM drop”, “desi lofi”.

Beat sheet

Time	Beat	OST
------	------	-----

0.0 to 0.4	Hands on the bar	Dadaji.
0.4 to 0.8	Dangling chappals	(none)
0.8 to 1.2	The tower	Top pe ja rahe hain.
1.2 to 1.6	Peanut at the top	(none)
1.6 to 2.4	The drop	(none)
2.4 to 3.2	Still eating	Darr: 0%.
3.2 to 5.0	The reason	Kyunki unhe pata tha drop aane wala hai.
5.0 to 6.5	Slip line	Tumhari sales 10.6% giri. Tumhe pata tha?
6.5 to 8.5	Proof 1	Drop: pakda gaya.
8.5 to 10.5	Proof 2	Kyun gira: bata diya.
10.5 to 12.5	Proof 3	Kya karna hai: likh diya.
12.5 to 14.5	Proof 4	Agla mahina: upar.
14.5 to 16.0	Effort	1 sales file. 2 minute.
16.0 to 18.0	End card	Comment DEMO.

Shooting script

SCENE 1: THE CHARACTER (0.0 to 1.2 s)

P4-S01 · 0.0 to 0.4 s · Close-up, Plate B, shot upward

- **Frame:** wrinkled hands gripping the yellow bar, steel watch on the left wrist, white kurta sleeve. Blue sky behind.
- **Performance:** a firm, relaxed grip. Not afraid.
- **OST: Dadaji.** Inter 800, 110 px, Paper on Night box, y = 420.

P4-S02 · 0.4 to 0.8 s · Low angle looking up at feet

- **Frame:** brown chappals dangling, one slipping a little off the heel. Sky only behind.
- **SFX:** wind.

P4-S03 · 0.8 to 1.2 s · Stock wide

- **Frame:** the drop tower, seats climbing to the top against the sky.
- **OST: Top pe ja rahe hain.**
- **SFX:** click, click, click.

SCENE 2: THE DROP (1.2 to 2.4 s)

P4-S04 · 1.2 to 1.6 s · Close-up, tripod, Plate B

- **Action:** his hand calmly takes one peanut from the paper cone and lifts it out of frame toward his mouth.
- **SFX:** silence, then a peanut crunch.
- **Direction to Dadaji:** “Slowly. Like you’re at home watching the news.”

P4-S05 · 1.6 to 2.4 s · Stock, the plunge at real speed

- **Frame:** the whole row of seats falls, legs fly up. Riders from behind.
- **SFX:** the music drop, a huge whoosh, screams.

SCENE 3: THE LAUGH (2.4 to 5.0 s)

P4-S06 · 2.4 to 3.2 s · Close-up, Plate B

- **Action:** his hand still holds the cone, perfectly steady, and takes one more peanut.
- **OST: Darr: 0%.** JetBrains Mono Bold, 160 px, Money Green.
- **SFX:** screams fade; a clean “pop”.

P4-S07 · 3.2 to 5.0 s · POV from Dadaji’s side, hand offering the cone to the lens

- **Action:** he holds the cone out to the camera, as if offering you some.
- **OST (two lines): Kyunki unhe pata tha / drop aane wala hai.**
- **SFX:** a warm chuckle.

SCENE 4: THE SLIP LINE (5.0 to 6.5 s)

P4-S08 · Night card

- **OST: Tumhari sales 10.6% giri.** (Paper) / **Tumhe pata tha?** (Marigold). SAMPLE SHOP DATA chip, bottom-left, above the safe zone.
- **SFX:** bass hit, falling whistle.
- **Edit:** tap ripple wipe out into R1b.

SCENE 5: THE PROOF (6.5 to 16.0 s)

P4-S09 · 6.5 to 8.5 s · R1b · Snap zoom on “you made 10.6% less money last month” · OST **Drop: pakda gaya.** · SFX ding.

P4-S10 · 8.5 to 10.5 s · R1b · Snap zoom on “Check which items sold less last month” · OST **Kyun gira: bata diya.** · SFX whoosh.

P4-S11 · 10.5 to 12.5 s · R1b · Snap zoom on “Lock supplier orders for Handloom Saree...” · OST **Kya karna hai: likh diya.** · SFX click.

P4-S12 · 12.5 to 14.5 s · R1b · Snap zoom on “Next 30 days: +8.2%” · OST **Agla mahina: upar.** · SFX rising whoosh. Add a small Sky line under it: “Forecast, not a promise.”

P4-S13 · 14.5 to 16.0 s · Night card · OST **1 sales file. / 2 minute.** · SFX tick.

SCENE 6: END CARD (16.0 to 18.0 s)

P4-S14 · End card. Line 1: **Dadaji jaisa dil rakho. Comment DEMO.** Sonic logo.

Edit notes

- Cut the hook to the ride’s click rhythm, not to the music.
- Match colour between stock and Plate B: warm the stock slightly and lift the sky blue in both so they feel like one afternoon.
- The forecast line (+8.2%) must carry “Forecast, not a promise.” Otherwise it reads as a claim.

Safety

Dadaji sits on an ordinary chair, feet 30 cm off the ground, well back from any edge, with someone beside him the whole time. The fan is on low. No ride is involved.

AI backup (first frame, then motion)

Photorealistic vertical photo, 9:16, 1080x1920, close-up of an elderly Indian man's wrinkled hands gripping the yellow padded safety bar of an amusement park drop tower seat, a steel watch on his wrist, the sleeve of a white cotton kurta, a small paper cone of roasted peanuts held in one hand. Bright afternoon, open sky behind. Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no filters, no cinematic grading, no CGI sheen.

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps. Rapid highlight-reel editing, a hard cut every 0.4 seconds, all at real speed: the hands on the bar; brown leather chappals dangling against the sky; a wide shot of a tall drop tower with the seats reaching the top; at the top, his hand calmly lifting a peanut from the cone (face out of frame); the drop, the row of seats plunging, riders seen from behind; at the bottom, his hand still calmly holding the cone and taking one more peanut; his hand offering the cone to the camera. Sound: ride machinery, slow clicks going up, a peanut crunch, a whoosh and screams on the drop, a calm chuckle. Avoid: any human face; extra or fused fingers; readable text or logos; purple or neon; background music; cross-fades; anyone being hurt.

Caption (rewritten to match the reel)

Dadaji wasn't scared of the drop. He watched the ride climb. He knew exactly when it was coming.

Most sellers find out their sales fell weeks later, when the rent is due.

Upload one sales file (or try the sample data) and One Tap Manager shows you: how much you're down, which items caused it, and what to do this week. Not 47 charts. Three things.

Real app, sample shop data. The ride is stock footage. Dadaji's peanuts are real.

Comment DEMO and I'll send you the link to try it.

#smallbusinessindia #instagramseller #onlinebusinessindia

Alt text: “An elderly man calmly eats peanuts on a drop tower ride while everyone else screams. Then the One Tap Manager sales screen showing a 10.6% drop last month, the items that caused it, and a suggested fix.”

Post 5: “Car feed se nikal gayi” (Free Template Friday)

Format	Reel, 18.0 s (recommended). Carousel version below as an alternative.
Comment word	WINBACK
Series	Free Template Friday
Slot	Week 2, Friday
Hook type	Visual illusion: something escapes the feed
Pace	One smooth 4-second illusion, then fast cuts
Job of this post	Make “customers leave silently” visible, then give away three win-back messages.
Viewer should feel	“Wait, how did it do that?”, then “that’s exactly what my old customers did”.

Logline

A car drifting inside a post slides right out of the frame, across the feed and away, leaving an empty parking lot. Your customers leave the same way: quietly, and you never see them go.

Director’s intent

This is the only hook built entirely in the edit. The trick only works if the fake feed looks like a real phone screen at first glance, and the car’s exit is smooth. It must not look like a sticker sliding. Spend your time on two things: the cut-out edge of the car (clean, with the tyre smoke kept) and the moment the car crosses the post’s border (add a soft shadow on the “caption” area as it passes, so it feels physical).

Emotional curve

Intrigue (0 to 1 s) → disbelief (1 to 2.5 s) → loss (2.5 to 4 s) → recognition (4 to 6.5 s) → relief (6.5 to 16 s) → action

How to build the illusion (step by step)

- Get the clip.** A top-down drone clip of a black car drifting on an empty lot:
 - [Drone View of a Black Car Drifting in a Parking Lot \(Pexels\)](#)
 - [Drone Footage of a Car in a Drift Park \(Pexels\)](#)
 - [Search: car drifting](#)
- Design a fake feed in Canva (1080 x 1920).** Our own design, never Instagram’s interface: a Paper background; a rounded post card (radius 24 px) at y = 360 to 1260 with a 1 px Paper 2 border; a small circle avatar and the handle @yourshop above it in Inter 600, 32 px; plain outline heart, comment and share icons below it (2 px stroke, our own icon set); two grey placeholder caption lines; the top edge of a second post card peeking in at y = 1500.
- In CapCut, layer 1:** the feed design.
- Layer 2:** the drift clip, masked to the post card’s rounded rectangle.
- Layer 3:** a duplicate of the drift clip with **Remove background / Cutout** so only the car (and its smoke, as much as possible) remains. Unmasked.
- Keyframe layer 3:** from 1.0 s, as the car drifts wider in the clip, move the cutout car outward so it crosses the card’s right border at 1.8 s, travels across the caption area and the second post by 3.2 s, and exits the right edge of the screen by 4.0 s. Add a soft drop shadow (Night, 25% opacity, 20 px blur, offset 12 px down) under the cutout so it sits “on” the feed.
- Freeze layer 2** on a frame of the empty lot from 2.5 s, so the post the car left is just empty tarmac with painted lines and a wisp of smoke.
- Smoke:** add a separate stock smoke overlay (screen blend mode, 60%) trailing behind the cutout as it crosses the feed.

Sound design and music

- 0 to 2.5 s: engine roar and tyre screech from the clip, growing louder as the car leaves the post (raise by 4 dB).
- 2.5 to 4.0 s: engine pans hard right and fades away (a Doppler-style fade).
- 4.0 s: silence, then a single low piano note.
- 5.0 s: bass hit.
- 6.5 s onward: a smooth phonk or bass beat from the Instagram library at -20 dB. Fallback search: “drift phonk”.

Beat sheet

Time	Beat	OST
0.0 to 1.0	Car drifting in the post	Ye car dhyan se dekho.
1.0 to 2.5	It slides out of the post	Ruko...
2.5 to 4.0	It crosses the feed and leaves	Gayi.
4.0 to 5.0	The empty lot	Customers bhi aise hi chale jaate hain.
5.0 to 6.5	Slip line	Chup chaap. Tumhe pata bhi nahi chalta.

6.5 to 8.5	Proof 1	Kaun gaya: list ready.
8.5 to 10.5	Proof 2	Kya liya tha, kab gaya: pata hai.
10.5 to 12.5	Proof 3	Message likha hua. Coupon ready.
12.5 to 14.5	Proof 4	Tum check karo, tap karke bhejo.
14.5 to 16.0	Money	Wapas laao. Ad ka kharcha: ₹0.
16.0 to 18.0	End card	Comment WINBACK: free message templates.

Shooting script

SCENE 1: THE ILLUSION (0.0 to 4.0 s)

P5-S01 · 0.0 to 1.0 s · The fake feed, static

- **Frame:** the feed exactly as designed. Car drifting in a tight circle inside the post.
- **OST: Ye car dhyan se dekho.** Inter 800, 92 px, Ink on a Paper 2 box, y = 250 (above the post card). Keep it clear of the top 220 px.
- **SFX:** tyre screech, engine.

P5-S02 · 1.0 to 2.5 s · Continuous

- **Action:** the car drifts wider; its rear slides past the post border at 1.8 s, over the caption lines, smoke spilling over the card edge.
- **OST: Ruko...** replaces the first line.
- **Direction:** the camera never moves. Only the car breaks the rules.

P5-S03 · 2.5 to 4.0 s · Continuous

- **Action:** the car breaks completely free, drifts diagonally across the second post and exits the right edge. The original post is now just an empty lot.
- **OST: Gayi.** JetBrains Mono Bold, 180 px, Ink, centred on the empty post.

SCENE 2: RECOGNITION (4.0 to 6.5 s)

P5-S04 · 4.0 to 5.0 s · Snap zoom into the empty lot in the post, 100% to 180% over 300 ms

- **OST (two lines): Customers bhi aise hi / chale jaate hain.** Paper on Night box.
- **SFX:** single low piano note.

P5-S05 · 5.0 to 6.5 s · Night card

- **OST: Chup chaap.** (Paper) / **Tumhe pata bhi nahi chalta.** (Marigold)
- **SFX:** bass hit. Tap ripple wipe out.

SCENE 3: THE PROOF (6.5 to 16.0 s)

SAMPLE SHOP DATA chip throughout. All names in the recording are sample names from the app's sample data.

P5-S06 · 6.5 to 8.5 s · R5 · Snap zoom on “60 customers have gone quiet” · OST **Kaun gaya: list ready.** · SFX ding.

P5-S07 · 8.5 to 10.5 s · R5 · Snap zoom on one sample row (item, colour, last order date) · OST **Kya liya tha, kab gaya: pata hai.** · SFX whoosh.

P5-S08 · 10.5 to 12.5 s · R5 · Tap “Review & send”; the list opens with each person's item, last order date, a coupon code and a written message · OST **Message likha hua. Coupon ready.** · SFX click.

P5-S09 · 12.5 to 14.5 s · R5 · Snap zoom on the approve and tap-to-send controls · OST **Tum check karo, tap karke bhejo.** · SFX tick.

- *Honesty note:* the app prepares tap-to-send WhatsApp links. It does not auto-send. The OST says “tap karke bhejo” for that reason.

P5-S10 · 14.5 to 16.0 s · Paper card · OST **Wapas laao.** (Ink) / **Ad ka kharcha: ₹0.** (Money Green on Night chip) · SFX cash ting.

SCENE 4: END CARD (16.0 to 18.0 s)

P5-S11 · Line 1: **Comment WINBACK.** Line 1b (Inter 600, 44 px): “Free message templates, Hindi + English.” Series promise, handle, sonic logo.

AI backup for the drift clip only

Photorealistic vertical photo, 9:16, 1080x1920, top-down drone view of a black sports car drifting in a wide circle on an empty grey asphalt parking lot, white tyre smoke curling behind it, painted parking lines, late afternoon light with long shadows.
Looks like real footage, not an advert: natural exposure, slight noise, true-to-life colours, no CGI sheen.

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.

Top-down, camera locked like a drone hovering. 0 to 4 s: the car drifts in two tight, fast circles, tyres smoking, then straightens and drifts sideways out of the frame to the right, leaving smoke over the empty lot. 4 to 10 s: the empty lot, the smoke slowly clearing.

Sound: engine roar, tyre screech, fading into silence.

Avoid: any human face; readable text or logos; purple or neon; background music; cross-fades.

Carousel version (alternative, 7 slides)

Use this instead of the reel if you prefer a static post. Its numbers are illustrative and must be tagged.

- **Slide 1 (photo):** over-the-shoulder, head cropped above the collarbone. A dusty-rose kurti laid flat on a cream bedsheet with oxidised jhumkas, a ring light glowing at the top of frame, her right hand (gold bangle, mustard sleeve) filming it with a phone. An older phone lies ignored in the lower left. Warm evening lamp. Night fade on the bottom 45%.
 - Copy: **Naye followers ke liye 7th reel bana rahe ho.** / (Marigold) **Aur 38 purane customers 45 din se gayab hain.**
 - Chips: **ILLUSTRATIVE EXAMPLE** and, if AI, **AI GENERATED**.
- **Slide 2 (Night):** two of our own chat bubbles (Paper 2, 1 px border). Top labelled “You, 1:12 am · to: Ex”, text “hey”, two small ticks. Below, labelled “You, to old customer:”, an empty bubble with a blinking-cursor line and grey “Draft”.
 - Copy: **Ex ko ‘hey’ bhejne ki himmat hai.** / (Marigold) **Customer ko ‘new stock aaya’ nahi?**
- **Slide 3 (Ledger Paper):** icon a person with a heart. **Sabse sasti sale?** / Woh customer jo ek baar khareed chuka hai. Usse tum pe bharosa hai, size pata hai, taste pata hai. / highlighter: **Ad ka kharcha: ₹0.**
- **Slide 4 (Ledger Paper):** icon one person among many dots. **Problem tum nahi ho.** / 300 customers ka hisaab ek insaan dimaag mein nahi rakh sakta. Ye literally ek poori job hai.
- **Slide 5 (Indigo):** phone frame with **app-winback.png**. **One Tap Manager dhoondhta hai kaun gaya. Message likh deta hai.** / (Sky) Tum bas tap karke WhatsApp pe bhejo. Phir ye ginta hai kitne wapas aaye. · **SAMPLE SHOP DATA.**
- **Slide 6 (Paper):** chip **FREE TEMPLATE · HINDI + ENGLISH**. A Paper 2 card with the message: “Namaste [naam] ji, aapke liye naya stock aaya hai jo aapki pichhli pasand se milta hai. Sirf aapke liye 3 din tak 10% off, code WAPAS10. Dekhna ho toh bas ‘haan’ likh dijiye.” Below it in small Ink Soft: “Code apna daalo.” Then **Aise 3 templates chahiye?**
- **Slide 7 (Paper):** 1T mark. **Comment WINBACK.** / Teeno templates DM mein. Free. / Follow for Free Template Friday. Sticker: **FREE TEMPLATE FRIDAY**.

Caption (works for both versions)

Customers don't leave with a goodbye. They just stop showing up in your orders.

The cheapest sale in your shop is someone who bought once and drifted. They trust you. They know your sizes.

One Tap Manager finds who went quiet, writes the message, and gives you a tap-to-send WhatsApp link. Then it counts who came back.

Real app, sample shop data. The drifting car is stock footage.

Comment WINBACK and I'll DM you 3 ready messages in Hindi and English. Free.

#smallbusinessindia #instagramseller #boutiqueowner

Alt text: “A car drifting inside an Instagram-style post slides out of the post and off the screen, leaving an empty parking lot. Then the One Tap Manager win-back list of customers who went quiet, with a message and coupon ready to send.”

Post 6: “Stool, lights aur ₹25 lakh ki gaadi”

Format	Reel, 18.0 s
Comment word	WEEK
Slot	Week 2, Thursday
Hook type	Danger with a freeze-frame (“yep, that’s me” meme move)
Pace	Fast cuts, then a hard freeze, then real speed
Job of this post	Tie festive-season pressure to Instagram posting, then show a whole week planned in one tap.
Viewer should feel	Nervous laughter at the freeze, relief when nothing breaks, then “my Diwali posts are not ready either”.

Logline

A man on a wobbly plastic stool hangs Diwali lights on the balcony. Right below, a brand-new ₹25 lakh SUV. The stool gives way, the frame freezes, and we all know what happens next. Except it doesn’t: the lights swing down and stop a finger’s width above the roof. The house is ready for Diwali. Is your Instagram?

Director’s intent

The freeze is the joke, and it only works if the viewer has already predicted the disaster. So the first 2 seconds must plant three things clearly: the flimsy stool, the stretched plug, and the car directly below. The red circle on the car during the freeze is the viewer’s own thought made visible. After the freeze, the payoff is a gentle surprise, not a crash: nothing is harmed, the lights glow above the car, and the cat has not moved. Warm, festive, safe.

Cast and wardrobe

- **The man (guest):** seen only from behind and below. Plain white vest or an old T-shirt, a checked lungi or track pants. Barefoot.
- **The cat:** a calm ginger cat, filmed separately on a railing or wall. If no cat is available, drop the cat.

Location and plates

- **Plate A (the balcony wide):** a first-floor balcony of a housing society at dusk, with lights already strung, and a white SUV parked below. Film from the ground, looking up, on a tripod. Nobody on the balcony.
- **Plate B (the stool, ground floor):** the man on a **stool under 30 cm tall** on a ground-floor verandah against a plain wall that matches the balcony wall colour, with a mattress in front. Film at the same upward angle as Plate A. In the edit, Plate B’s stool shots are cut between Plate A wides so the viewer believes he is up on the balcony.
- **Plate C (the lights):** the string of lights hung from the balcony railing so its end hangs and stops 5 to 10 cm above the car’s roof, tied off so it can never touch. Film the gentle swing from ground level.

Props

Plastic stool with one leg pre-cut on the inside so it buckles gently when weight shifts (test it with sandbags first), a thick mattress, warm-white fairy lights (a string for Plate A and a second for Plate C), an extension board with the plug stretched, the car (a neighbour’s, with permission; or any parked car, filmed only from a distance with no number plate visible).

Sound design and music

- 0 to 2.0 s: distant crackers, plastic creaking, and a dhol build from the Instagram library.
- 2.0 s: record scratch, then **total silence** during the freeze.
- 2.5 s: real speed resumes: a soft thud (him on the mattress, out of frame), then a magical shimmer as the lights swing down.
- 3.5 s: the dhol drops back in, festive.
- 5.0 s: bass hit.
- 6.5 s onward: festive beat, -20 dB. Fallback search: “dhol build up”, “record scratch”, “Diwali”.

Beat sheet

Time	Beat	OST
0.0 to 1.0	The setup	Neeche ₹25 lakh ki nayi gaadi.
1.0 to 2.0	The warning signs	Stool ki condition dekho.
2.0 to 2.5	Freeze	Haan. Wahi hone wala hai.
2.5 to 3.5	The surprise	(none)
3.5 to 5.0	Lights glowing above the car	Ghar ki Diwali: ready.
5.0 to 6.5	Slip line	Instagram ki Diwali?
6.5 to 8.5	Proof 1	Ek tap.

8.5 to 10.5	Proof 2	Poora hafta: planned.
10.5 to 12.5	Proof 3	Caption aur hashtags bhi.
12.5 to 14.5	Proof 4	Navratri, Diwali: ready.
14.5 to 16.0	Control	Tum bas approve karo.
16.0 to 18.0	End card	Comment WEEK: free Diwali posting plan.

Shooting script

SCENE 1: THE SETUP (0.0 to 2.0 s)

P6-S01 · 0.0 to 1.0 s · Plate A wide, from the ground looking up

- **Frame:** the balcony at the top of frame with lights half-strung; the white SUV filling the lower third, gleaming, a small ribbon or “new car” marigold garland on the bonnet (the garland tells the viewer it is brand new).
- **OST:** Neeche ₹25 lakh ki / nayi gaadi. “₹25 lakh” in JetBrains Mono Bold, Marigold.
- **SFX:** distant crackers, creak.

P6-S02 · 1.00 to 1.35 s · Plate B, tight on the stool legs bowing outward P6-S03 · 1.35 to 1.70 s · The cat on the railing, watching, tail flicking P6-S04 · 1.70 to 2.00 s · Tight on the plug, pulled taut out of the extension board

- **OST across all three:** Stool ki condition dekho.
- **SFX:** dhol build accelerating under three creaks.

SCENE 2: THE FREEZE (2.0 to 2.5 s)

P6-S05 · Plate B, man from behind, arms up, the stool mid-buckle, tilted 10°

- **Edit:** freeze on the most tilted frame. Add a Leak-red hand-drawn circle (Kalam-style stroke, 8 px) drawing itself around the car in the Plate A layer composited behind, or cut to a frozen Plate A frame with the circle.
- **OST:** Haan. / Wahi hone wala hai.
- **SFX:** record scratch, then silence.

SCENE 3: THE SURPRISE (2.5 to 5.0 s)

P6-S06 · 2.5 to 3.0 s · Plate B, real speed

- **Action:** he drops safely out of frame onto the mattress. We see only his feet leaving the stool.
- **SFX:** soft thud.

P6-S07 · 3.0 to 3.5 s · Plate C

- **Action:** the string of lights slips over the railing and swings down, the last bulbs stopping a few centimetres above the roof, still glowing.
- **SFX:** magical shimmer.

P6-S08 · 3.5 to 5.0 s · Plate C wide

- **Frame:** lights gently swinging just above the car roof, the cat (cut in) calm on the railing, fireworks far behind.
- **OST:** Ghar ki Diwali: ready.
- **SFX:** dhol drops back in.

SCENE 4: THE SLIP LINE (5.0 to 6.5 s)

P6-S09 · Night card · OST Instagram ki Diwali? (Marigold, 110 px) · SFX bass hit. Tap ripple wipe.

SCENE 5: THE PROOF (6.5 to 16.0 s) (R6, SAMPLE SHOP DATA)

P6-S10 · 6.5 to 8.5 s · Tap “Plan this week”, snap zoom · OST Ek tap. · SFX click + whoosh.

P6-S11 · 8.5 to 10.5 s · The calendar fills day by day · OST Poora hafta: planned. · SFX pop pop pop, one per day.

P6-S12 · 10.5 to 12.5 s · Zoom on the caption “Which one are you wearing for Navratri?” and the hashtags · OST Caption aur hashtags bhi. · SFX ding.

P6-S13 · 12.5 to 14.5 s · The festival campaigns list; tap “Plan it: one tap” · OST Navratri, Diwali: ready. · SFX click.

P6-S14 · 14.5 to 16.0 s · Night card · OST Tum bas approve karo. · SFX tick.

SCENE 6: END CARD (16.0 to 18.0 s)

P6-S15 · Line 1: Comment WEEK. Line 1b: “Free Diwali posting plan.” Series promise, handle, sonic logo.

Safety

The stool is under 30 cm, on the ground floor, in front of a mattress, with a spotter. Nobody stands on anything near a railing. The lights are tied off so they physically cannot reach the car. The cat is filmed separately and is never near the action.

AI backup

Photorealistic vertical photo, 9:16, 1080x1920, evening in an Indian housing society: a man seen from behind stands on a small plastic stool on a first-floor balcony, stretching to hang a string of warm Diwali fairy lights on the railing. A ginger cat sits on the railing. Directly below in the parking, a brand-new shiny white SUV with a marigold garland on the bonnet. Distant fireworks, warm light from the flat.
Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no CGI sheen.

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.
0 to 2 s: quick cuts: the stool legs bowing outwards, the cat watching, the light string's plug stretching tight. 2.0 s: the stool buckles. 2.5 to 3.5 s: he drops safely out of frame onto a mattress, and the string of lights slips over the railing and swings down, the last bulbs stopping a few centimetres above the SUV's roof, still glowing. 3.5 to 10 s: wide shot of the lights swinging gently above the SUV, the cat calm on the railing, fireworks behind.
Sound: plastic creaking, a dhol build, a crack, a soft thud, a shimmer, distant crackers.
Avoid: any human face; extra or fused fingers; readable text, number plates or logos; purple or neon; background music; cross-fades; anyone or any animal being hurt.

Caption (rewritten to match the reel)

The house is lit. The car survived. The stool did not.

Now the real festive question: is your Instagram ready for Navratri and Diwali, or will you be writing captions at 11:58 pm again?

One Tap Manager plans your whole week of Instagram in one tap: posts, captions, hashtags and times, plus festival campaigns. You approve, and it posts.

Real app, sample shop data. The stool fall is staged, onto a mattress. No car was touched.

Comment WEEK and I'll DM you a free 7-day festive posting plan.

#smallbusinessindia #instagramseller #kurtibusiness

Alt text: "A man on a wobbly stool hangs Diwali lights above a new SUV. The stool gives way, the frame freezes, and the lights swing down to stop just above the car roof. Then the One Tap Manager weekly Instagram planner filling a festive week in one tap."

Post 7: “Warning”

Format	Carousel, 4 slides, 1080 x 1350
Slot	Week 3, Friday
Job of this post	A pattern-break format that challenges one belief: “I need a team before I can grow.”
Viewer should feel	Curious (slide 1), calm (slide 2), “that’s all?” (slide 3), “I can do that” (slide 4).
Assets	app - today .png

Director’s intent

A fake content warning is a proven scroll-stopper because people cannot resist “See anyway”. Our warning must be clearly **our own design**, not a copy of Instagram’s sensitive-content screen (Brand Language rule 11.8). The joke is that the “sensitive content” is a comforting truth. Slide 2 must feel like breathing out: a tidy desk, morning light, nothing dramatic.

Slide 1: the warning

Layout: Background is a heavily blurred photo of a boutique desk (folded kurtis, jewellery tray, perfume bottles), blur radius about 60 px, under a Night layer at 60%. Centre: a 2 px Paper stroke icon of an eye with a slash, 120 px. Below: **Warning.** Inter 700, 72 px, Paper. Below: “Ye post un logon ko hurt kar sakti hai jo sochte hain grow karne ke liye 10 logon ki team chahiye.” Inter 500, 40 px, Sky, max width 760 px, centred. Below: a **rounded rectangle** (radius 16 px, not a pill) with a 2 px Paper border and “See anyway →” in Inter 600, 36 px, Paper.

Detail to get right: the blurred photo must be your own desk shot from slide 2, blurred. That way the reveal on slide 2 feels like the blur lifting.

Slide 2: the reveal

Photo direction: the same desk, sharp. Top-down at 30° from standing height, 28 mm equivalent. Folded kurtis in dusty rose, sage and indigo; a bottle-green velvet tray with jhumkas; two attar bottles; kraft mailer bags; the red khata; a chai glass. Cream wall, window-grill shadows. Top 30% of the frame is clean wall.

Copy: Team nahi chahiye. / Team ka kaam chahiye. (Marigold highlighter behind the second line). Inter 800, 88 px, Ink.

Tag: **AI GENERATED** only if AI. Shooting this for real is easy and looks better.

Slide 3: the list

Layout: Night. Label: **WHAT A TEAM ACTUALLY DOES** (JetBrains Mono capitals, 26 px, Sky). Four rows, each with a 2 px Paper icon, a Money Green tick, and Inter 700, 52 px, Paper text:

1. Numbers padhna.
2. Purane customers ko bulana.
3. Roz post karna.
4. Time pe maal mangwana.

Slide 4: the app

Layout: Indigo. Phone frame with **app - today .png**, unchanged. **Bas yahi. Poori app yahi hai.** Inter 800, 64 px, Paper. “Ek insaan. Lunch se pehle.” Inter 500, 40 px, Sky. “Follow @onetapmanager” JetBrains Mono 30 px. **SAMPLE SHOP DATA** chip.

Caption

"Jab team hogi tab grow karenge." We hear this every day.

Big brands aren't winning on product. Your kurti is probably better.
They win because someone does four boring jobs every single day.

You don't need to hire that team. You need those four jobs done. That's the whole app.

Tag the friend who says "bas ek team mil jaaye, phir dekhna."

#smallbusinessindia #instagramseller #onlinebusinessindia

Alt text: “A playful warning screen, then a tidy home boutique desk with the words: you don’t need a team, you need a team’s work. Then four jobs a team does, and the One Tap Manager home screen.”

Post 8: “Bestseller khatam” (Dukaan Doctor, Ep 02)

Format	Reel, 18.0 s
Comment word	STOCK
Series	Dukaan Doctor, Episode 02
Slot	Week 2, Tuesday
Hook type	Danger in slow motion (the only slow-motion reel)
Pace	Real speed, then 240 fps slow motion, then a real-speed comic beat
Job of this post	“You can’t see the last step coming. The app can.” Sell the reorder alert and the pre-filled purchase order before the festive rush.
Viewer should feel	Suspense, then awe (silk floating), a laugh (the bonk), then “I should check my bestseller”.

Logline

The seller carries a tower of Banarasi saree boxes down the stairs, blind to the last step. She misses it. In slow motion, silk sarees unfold through the stair light like ribbons, and the last box bonks her on the head. You can’t see the last step. You can’t see your last piece of stock either.

Director’s intent (revised slip line)

The original line said “stock falls like this in the Diwali rush”, which is about too much stock. The product is about running out. The new link is the **step she cannot see**. The whole hook is about blindness to the end of something: the last step, the last piece. The slow-motion silk is the most beautiful shot on the page; let it breathe. The bonk at real speed gives permission to laugh, which keeps the post warm.

This is also the reel where **the seller from behind** (messy bun, yellow pencil, mustard kurta) finally appears. Her face is always hidden behind the box tower or above the frame.

Cast and wardrobe

- **The seller:** from behind and below only. Messy bun with a yellow HB pencil through it, mustard cotton kurta with cream piping, gold bangle right wrist, kalava left wrist. Barefoot or simple chappals.
- **Spotter:** one person out of frame at the bottom of the stairs.

Location

A narrow staircase in an old house, with a window throwing a shaft of light across the bottom steps. Film late morning so the light shaft is strong. Lay a thick yoga mat or mattress at the bottom.

Props

Prop	Stand-in	Notes
20 saree boxes	Empty flat cardboard boxes, covered in maroon and gold gift paper	The top 5 are real; the lower ones can be taped together as one block so the tower is stable until you want it to tip
Banarasi sarees	4 to 6 cheap shiny polyester sarees in red, gold, magenta and green	You want them to catch the light and unfold
Last box	Empty, very light	The one that “bonks”
Mat	Thick yoga mat or a mattress	For the landing

Camera plan

- **Hook shots:** 4K 30 fps, tripod, low angle looking up the stairs.
- **Slow motion:** 1080p at 240 fps. Frame from the side, at the height of the last step, so the fall and the floating silk cross the light shaft. Expose for the light shaft; the rest can go dark.
- **Top-down:** from the landing above, or a phone on an arm, looking straight down on the silk spread on the floor.

How to film the fall safely

1. She stands on the **second-to-last step only**, holding the tower. She does not come down the stairs with the tower.
2. On “action”, she steps down onto the mat, deliberately “missing” the last step by stepping forward over it. The drop is under 20 cm.
3. At the same moment she tips the tower forward, away from herself. The spotter tosses the sarees upward from out of frame (a second pair of hands), so they float through the light shaft.
4. The “bonk” is a separate shot: an empty light box dropped from 20 cm onto the top of her head from behind.

5. Do 5 to 8 takes. Rest between each.

Sound design and music

- 0 to 1.0 s: footsteps on stone, cardboard creaking.
- 1.0 to 2.0 s: a two-note low cello pulse (Instagram library, search “suspense cello”) or a slow heartbeat SFX. **Not the Jaws theme.** It is copyrighted and banned by our own rules.
- 2.0 to 3.5 s: everything slowed. A deep boom as the foot misses. A slowed, dramatic violin swell from the Instagram library (search “dramatic violin”).
- 3.5 to 4.0 s: a comic “bonk” at real speed.
- 4.0 to 5.0 s: a single dhol hit.
- 5.0 s: bass hit.
- 6.5 s onward: festive beat at -20 dB.

Beat sheet

Time	Beat	OST
0.0 to 1.0	The tower	₹3 lakh ki Banarasi sarees.
1.0 to 2.0	The blind foot	Aakhri step dikh raha hai? Usko nahi.
2.0 to 3.5	Slow-motion fall and float	(none)
3.5 to 4.0	The bonk	(none)
4.0 to 5.0	The silk on the floor	Aakhri step dikhta nahi.
5.0 to 6.5	Slip line	Stock ka aakhri piece bhi nahi.
6.5 to 8.5	Proof 1	App pehle hi bata deta hai.
8.5 to 10.5	Proof 2	3.2 din ka stock bacha.
10.5 to 12.5	Proof 3	Supplier ko 5 din lagte hain.
12.5 to 14.5	Proof 4	Order form: pehle se bhara.
14.5 to 16.0	Payoff	Bestseller khatam? Ab nahi.
16.0 to 18.0	End card	Comment STOCK: free reorder cheat sheet.

Shooting script

SCENE 1: THE TOWER (0.0 to 2.0 s)

P8-S01 · 0.0 to 1.0 s · Low angle up the stairs, 28 mm, tripod

- **Frame:** the seller from behind and below, a tall wobbling tower of maroon-and-gold boxes above her head hiding her head completely, the pencil bun just visible at the top edge between boxes. Light shaft across the bottom steps.
- **OST:** ₹3 lakh ki / Banarasi sarees. “₹3 lakh” in JetBrains Mono Bold, Marigold. Tag: ILLUSTRATIVE EXAMPLE (the boxes are empty).
- **SFX:** footsteps, creaking cardboard.

P8-S02 · 1.0 to 2.0 s · Macro on her bare foot at step level

- **Action:** the foot hovers, feeling blindly for the next step.
- **OST:** Aakhri step dikh raha hai? / Usko nahi.
- **SFX:** cello pulse, two notes.

SCENE 2: THE FALL (2.0 to 4.0 s)

P8-S03 · 2.0 to 3.5 s · Side angle at last-step height, 240 fps

- **Action:** her foot misses the step. The tower tilts forward, away from her. Silk sarees unfold out of the boxes and float through the light shaft like ribbons, gold threads catching the sun.
- **Edit:** play at 25% speed with a smooth speed ramp in (real speed for the first 4 frames, then ramp down over 6 frames). No other effects.
- **SFX:** deep boom, slowed violin swell.

P8-S04 · 3.5 to 4.0 s · Behind her, real speed

- **Action:** she lands safely on both feet on the mat. The last empty box drops onto the top of her head and bounces off.
- **SFX:** comic “bonk”.
- **Direction:** she does not react dramatically. A tiny shoulder shrug is the whole performance.

P8-S05 · 4.0 to 5.0 s · Top-down on the silk spread across the floor

- **Frame:** a beautiful accidental flat lay of red, gold, magenta and green silk, one box lid in the corner.
- **OST:** Aakhri step dikhta nahi.
- **SFX:** one dhol hit.

SCENE 3: THE SLIP LINE (5.0 to 6.5 s)

P8-S06 · Page flip transition from the silk to a Night card

- **OST: Stock ka aakhri piece / bhi nahi.** (Marigold)
- **SFX:** page flip, bass hit.

SCENE 4: THE PROOF (6.5 to 16.0 s) (R7, SAMPLE SHOP DATA)

P8-S07 · 6.5 to 8.5 s · The “Time to buy more” alert, snap zoom · OST **App pehle hi bata deta hai.** · SFX ding.

P8-S08 · 8.5 to 10.5 s · Snap zoom on “3.2 days” left · OST **3.2 din ka stock bacha.** · SFX bass hit.

P8-S09 · 10.5 to 12.5 s · Snap zoom on “Your supplier takes 5 days” · OST **Supplier ko 5 din lagte hain.** · SFX whoosh. Add a small Sky line: “3.2 < 5 + 3. Aaj order.”

P8-S10 · 12.5 to 14.5 s · Tap “Draft the purchase order”; the order form fills; snap zoom on ₹2,700 · OST **Order form: pehle se bhara.** · SFX click + ding. Small Sky tag: “Free during launch.”

P8-S11 · 14.5 to 16.0 s · Night card · OST **Bestseller khatam? / Ab nahi.** · SFX cash ting.

SCENE 5: END CARD (16.0 to 18.0 s)

P8-S12 · Line 1: **Comment STOCK.** Line 1b: “Free reorder cheat sheet.” Series promise, handle, sonic logo.

Safety

She never walks down the stairs with the tower. The “miss” is a single step under 20 cm onto a mat. The boxes are empty. A spotter stands at the bottom, out of frame. Stop if she is tired.

AI backup

Photorealistic vertical photo, 9:16, 1080x1920, a narrow staircase in an old Indian house, warm light shaft from a window: a woman seen from behind and below (mustard kurta, gold bangle, messy bun with a yellow pencil, head hidden behind the boxes) carries a tall wobbling tower of about 20 flat maroon-and-gold saree boxes above her head, at the last few steps.

Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no CGI sheen.

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.

0 to 2 s: her foot feels for the last step without seeing it. 2.0 to 3.5 s in slow motion: her foot misses the step, the tower tilts forward away from her, and colourful silk sarees unfold out of the boxes and float through the window light like ribbons. 3.5 to 4 s at real speed: she lands safely on her feet on a mat and the last empty box bounces off the top of her head. 4 to 10 s: top-down shot of silk sarees spread across the floor.

Sound: footsteps, creaking cardboard, a deep slow-motion boom, a comic bonk, a dhol hit.

Avoid: any human face or profile; extra or fused fingers; readable text or logos; purple or neon; background music; cross-fades; anyone being hurt.

Caption

You can't see the last step when your arms are full. You can't see the last piece of your bestseller either, until a customer asks for it.

Rule of thumb: buy again when the days of stock you have left are fewer than your supplier's delivery days plus 3 spare days.

One Tap Manager does that maths for every product and fills in the purchase order. Free during launch.

Numbers are an illustrative example. Real app, sample shop data. The fall is staged onto a mat, and the boxes were empty. Comment STOCK for the free reorder cheat sheet, before the festive rush.

#smallbusinessindia #kurtibusiness #clothingbusiness

Alt text: “A woman carrying a tower of saree boxes misses the last stair; in slow motion silk sarees float through the window light and a box bounces off her head. Then the One Tap Manager reorder alert showing 3.2 days of stock left and a ready purchase order.”

Post 9: “Tumhara sona naali mein”

Format	Reel, 18.0 s (recommended). Single image version below.
Comment word	PRICE
Slot	Week 3, Monday
Hook type	One unbroken take, real time
Pace	No cuts for 5 seconds. The stillness is the tension.
Job of this post	Show that money leaks out through app subscriptions and fees, and that One Tap Manager is ₹0 or ₹999 flat, never a percentage.
Viewer should feel	Holding their breath, then a sharp “ting” of relief, then “wait, how much am I paying?”

Logline

A heavy gold bridal set lies in a steel sink, its chain slowly slithering down the drain, link by link. Two fingers pinch it out at the last moment. Your money slips away just as quietly, one app subscription and one fee at a time.

Director’s intent

This is the calmest hook on the page, and the most tense. One locked macro shot, no cuts, no music. The only sounds are running water, a faint tinkle of metal on steel, and a ticking clock. The audience’s own anxiety does the editing. The rescue must be precise and unhurried: two fingers, a clean pinch, a lift. Then one bright “ting”.

Cast

The seller’s hands only: bangle and kalava visible in the pinch.

Location and props

A clean steel kitchen sink with a round drain grate. An imitation bridal set (heavy-looking gold-tone necklace with a large pendant, from any artificial jewellery shop). **A fine mesh strainer fitted under the grate** so nothing can actually go down. A tap with gentle flow.

Camera plan

- Phone on a tripod or arm directly above the sink, looking down at about 70°. Macro lens or macro mode. Focus locked on the drain grate.
- Light: a window or a single soft lamp from the side, so the gold throws highlights and the wet steel reflects.
- **One continuous take of 10 to 15 seconds.** No edits in the first 5 seconds.

How to get the slither

- Lay the chain’s end through the grate so a few links hang into the strainer below.
- Tie a fine fishing line to the chain’s end under the grate and have a helper pull it very slowly from under the sink (through the drain pipe opening or from below). The water flow hides the line.
- Practice until the chain moves at a steady, creeping pace: about one link per 0.3 s.

Sound design and music

- 0 to 3.0 s: running water, sink echo, faint metallic tinkle, and a ticking clock that starts at 1.0 s.
- 3.0 s: the ticking stops.
- 3.2 s: one bright “ting” as the set lifts out.
- 3.8 s: bass hit.
- 6.5 s onward: a clean bass into a smooth R&B-style beat from the Instagram library. Fallback search: “ticking clock”, “smooth beat”.

Beat sheet

Time	Beat	OST
0.0 to 1.0	The set in the sink	₹8 lakh ka set.
1.0 to 3.0	The slither	Bas... thoda... sa...
3.0 to 3.8	Wedge and rescue	(none)
3.8 to 5.0	In the palm	Paisa aise hi dheere dheere jaata hai.
5.0 to 6.5	Slip line	App ki fees. Platform ka cut.
6.5 to 8.5	The receipt	App list with prices
8.5 to 10.0	The total	₹7,600 a month.

10.0 to 12.5	Proof 1	Ek app. ₹999 flat.
12.5 to 14.5	Proof 2	Free plan: ₹0, forever.
14.5 to 16.0	Promise	Sale ka %: ₹0. Kabhi nahi.
16.0 to 18.0	End card	Comment PRICE.

Shooting script

SCENE 1: THE UNBROKEN TAKE (0.0 to 5.0 s)

P9-S01 · 0.0 to 5.0 s · Locked macro, one take

- **0.0 s:** the set lies near the drain, the chain’s end draped over the grate, water swirling around it.
 - **OST: ₹8 lakh ka set.** JetBrains Mono Bold, 170 px, Marigold, top third. Tag: ILLUSTRATIVE EXAMPLE and IMITATION JEWELLERY chips bottom-left.
- **1.0 to 3.0 s:** the chain creeps into the drain link by link, dragging the pendant slowly across the steel.
 - **OST: Bas...** (1.0 s) **thoda...** (1.7 s) **sa...** (2.4 s), each word added to the line, not replacing it.
- **3.0 s:** the pendant wedges at the hole.
- **3.2 s:** two fingers (bangle on the wrist) enter from the top of frame, pinch the chain and lift the whole set out, dripping.
- **3.8 to 5.0 s:** the dripping set held in the open palm above the sink, water still running.
 - **OST: Paisa aise hi / dheere dheere jaata hai.**
- **Edit:** no cuts, no speed change, no zoom.

SCENE 2: THE SLIP LINE (5.0 to 6.5 s)

P9-S02 · Night card · OST App ki fees. / Platform ka cut. (Marigold) · SFX bass hit.

Changed from the original “Har sale pe 10 se 20% cut”, which is not a sourced number.

SCENE 3: THE RECEIPT (6.5 to 10.0 s)

P9-S03 · 6.5 to 8.5 s · Paper card, the arithmetic receipt

- **Design:** a receipt graphic (Paper 2 paper with a zig-zag torn bottom edge), JetBrains Mono 500, 44 px, lines appearing one at a time every 0.3 s:

Analytics app	₹1,600
Inventory app	₹2,500
Win-back app	₹1,500
Reviews app	₹1,200
Orders app	₹800

- Chip: TYPICAL APP COSTS .
- **SFX:** a pen tick on each line.

P9-S04 · 8.5 to 10.0 s · Night card · OST ₹7,600 a month. (JetBrains Mono Bold, Leak) / Plus fees. (Paper) · SFX bass hit.

SCENE 4: THE PROOF (10.0 to 16.0 s) (R8b, the real pricing page)

P9-S05 · 10.0 to 12.5 s · Snap zoom on Max ₹999 · OST Ek app. ₹999 flat. · SFX ding.

P9-S06 · 12.5 to 14.5 s · Snap zoom on Free ₹0 · OST Free plan: ₹0, forever. · SFX whoosh.

P9-S07 · 14.5 to 16.0 s · Night card · OST Sale ka %: / ₹0. Kabhi nahi. (Money Green) · SFX cash ting.

SCENE 5: END CARD (16.0 to 18.0 s)

P9-S08 · Line 1: Comment PRICE. Series promise, handle, sonic logo.

Safety and honesty

Imitation jewellery, with a strainer under the grate. The necklace cannot go down the drain. The ₹8 lakh figure is illustrative and tagged.

AI backup

Photorealistic vertical photo, 9:16, 1080x1920, a locked macro shot looking down into a steel kitchen sink: a heavy gold bridal necklace set with a large pendant lies near the drain, the end of its chain draped over the drain grate, water from the tap swirling around it. Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no CGI sheen.
--

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.
One unbroken take, no cuts, camera locked. 0 to 3 s: the chain slowly slithers into the drain link by link, pulled by the water, dragging the pendant towards the hole. 3.0 s: the pendant wedges at the hole. 3.2 s: two fingers with a gold bangle on the wrist pinch the chain and lift the whole set out, dripping. 3.8 to 10 s: the dripping necklace held in the palm above the sink, water still running.
Sound: running water, a faint metallic tinkle, a ticking clock, then one bright "ting".
Avoid: any human face; extra or fused fingers; readable text or logos; purple or neon; background music; cross-fades.

Single image version (alternative)

A white receipt printer on a wooden desk printing an endless receipt that flows off the desk, across a mosaic floor and out of an open door. The bottom half fades to Night. On top, the arithmetic receipt graphic listing the five apps, a dashed line, "Typical total ₹7,600" in Leak, and "One Tap Manager Max ₹999" in Indigo. Above it: **Tumhara paisa tumhara hai.** / (Marigold) **Hum sale ka cut nahi lete. Kabhi nahi.** Chips: TYPICAL APP COSTS, and AI GENERATED if AI.

Caption

Most tools grow their fee as you grow. You sell more, they take more. That's backwards.

A typical small-seller app stack: analytics ₹1,600, inventory ₹2,500, win-back ₹1,500, reviews ₹1,200, orders ₹800. That's ₹7,600 a month, before any fees your selling platform charges.

One Tap Manager: Free plan ₹0, forever. Max ₹999 a month, flat. Never a percentage of your sales.

Typical costs, not a quote for your shop. The necklace is imitation, and there was a strainer under the drain. Screenshot this and show your CA.

Comment PRICE and I'll send you the full comparison.

#smallbusinessindia #onlinebusinessindia #instagramseller

Alt text: "A gold necklace slowly slides down a sink drain until two fingers pull it out. Then a receipt of typical monthly app costs adding up to ₹7,600, compared with One Tap Manager's free plan and ₹999 flat plan."

Post 10: “Wrong answers only”

Format	Carousel, 4 slides, 1080 x 1350
Slot	Week 3, Thursday
Job of this post	Pure engagement. Get comments from sellers by inviting jokes about a chaotic desk they recognise.
Viewer should feel	“Haha, that’s my desk”, then the urge to comment something funnier.
Assets	app-today.png

Director’s intent

This is the page’s comment farm. The cover must be funny without any explanation: a real seller’s “system” styled as a detective’s crime board. The more specific the props, the more people comment “this is literally me”. Shoot it for real if you can; a real messy desk beats any AI image.

Slide 1: the crime board

Photo direction: top-down at 90°, 35 mm equivalent, f/5.6 (everything sharp). A wooden desk covered with: three phones with blank screens, the open red khata, about twenty yellow sticky notes with scribbles (unreadable), crumpled receipts, a calculator, a folded kurta, a jhumka tray, a chai glass, all connected by tight red wool strings pinned into the wood (or taped at the ends). Window light from the top of frame.

How to shoot: pin the strings with drawing pins into a cork sheet under a wooden-look tablecloth, or tape them. Shoot from a chair or a ladder with someone holding it. Take 20 frames, re-arranging one string each time.

Copy: Ye kya hai? / (Marigold) **Wrong answers only.** Inter 800, 104 px, Paper, on a Night fade across the bottom 25%.

Tag: AI GENERATED only if AI.

Slide 2: the annotated board

Layout: the same photo under a Paper layer at 80%. Headline at top: **Ye hai ek normal seller ka ‘system’.** Inter 800, 76 px, Ink. Four Kalam-style handwritten notes in Indigo with arrows pointing at the right objects:

- “Orders: 3 WhatsApp chats” (arrow to the three phones)
- “Stock: yaadasht” (arrow to the sticky notes)
- “Hisaab: khata” (arrow to the khata)
- “Customers: Mummy ko pata hai” (arrow to the chai glass)

Brand Language allows one Kalam element per slide. This slide is the exception because the notes are the joke. Keep all four identical in style so they read as one element.

Slide 3: after

Photo direction: the same desk from the same tripod position, now almost empty: one phone in the centre showing app-today.png (composited, unchanged), a chai glass, a small money plant, the khata closed in the corner.

Copy: After: ek screen. Aaj ke kaam. Inter 800, 76 px, Ink. Then: “Chaos tumhari galti nahi thi. System ki kami thi.” Inter 500, 40 px, Ink Soft. Chips: SAMPLE SHOP DATA, and AI GENERATED if AI.

Director’s note: shoot slides 1 and 3 in one session without moving the tripod. The exact match is what makes the before and after feel real.

Slide 4: the ask

Paper. 1T mark with Marigold ring. **Best wrong answer ko pin karenge.** Inter 800, 80 px, Ink. “Follow @onetapmanager”.

Caption

Slide 1 has a simple explanation. We want to hear yours first.

Wrong answers only. Best one gets pinned.

(The real answer: orders in three chats, stock in memory, money in a red notebook, customers in Mummy's head.)

The chaos was never your fault. There was just no system.

#smallbusinessindia #instagramseller #onlinebusinessindia

After posting: reply to the first 20 comments within the first hour in the same playful voice. Pin the funniest one within 24 hours as promised.

Alt text: "A desk covered in phones, sticky notes, receipts, a red ledger and chai, all connected with red strings like a detective's board.
Text: what is this? Wrong answers only."

Post 11: “‘Nice product’ ka matlab kya hai?” (Dukaan Doctor, Ep 03)

Format	Reel, 18.0 s
Comment prompt	The weirdest review you’ve ever got (no keyword DM)
Series	Dukaan Doctor, Episode 03
Slot	Week 3, Tuesday
Hook type	Danger to an expensive object, fast real speed
Pace	Three quick angles, a snap, then calm
Job of this post	Show that one repeated complaint (size) quietly damages the brand, and that the app finds it and names the fix.
Viewer should feel	Panic for the lehenga, relief at the slam, then “my size chart is a mess”.

Logline

A mixie full of bright green chutney, lid off, and a ₹2 lakh white bridal lehenga hanging right behind it. A finger reaches for the switch. The lid slams on at the last split second. One green drop, on the counter, not the lehenga. The size chart is your lid.

Director’s intent (revised slip line)

The lid is the metaphor: a small, boring thing that protects something precious. For a clothing seller, that small boring thing is a clear size chart. Without it, “size chhota hai” reviews splash across the brand. Everything in the hook exists to make the lid feel important.

The seller from behind appears here too: her hand, bangle and kurta sleeve on the switch, and her other hand slamming the lid.

Cast and location

- **The seller’s hands.** Gold bangle on the right, kalava on the left.
- **Kitchen:** an ordinary Indian home kitchen in daylight. Granite or steel counter. The kitchen door is directly behind the mixie, 1.5 m away, so the lehenga hangs in the background, in soft focus but clearly white and gold.

Props

- Mixer-grinder with a steel jar. **Unplugged for every take except P11-S03.**
- Plain water with a few drops of green food colour (not real chutney). Fill the jar only one-third so nothing can surge out.
- A cheap white dupatta or white-and-gold lehenga on a hanger on the door. It is always 1.5 m away from the counter.
- One tiny green drop, placed on the counter with a dropper for P11-S04.

Camera plan

- P11-S01 wide at 28 mm, counter height, the lehenga framed in the upper half.
- P11-S02 and S03 macros on the switch and the jar.
- P11-S04 an overhead on the jar as the lid lands.
- P11-S05 a slow push-in on the lehenga at 85 mm equivalent.

Sound design and music

- 0 to 1.0 s: kitchen ambience (a pressure cooker far away, a spoon on steel).
- 1.0 to 2.0 s: a tension riser from the Instagram library.
- 2.0 to 2.8 s: the mixer motor roar (record it separately with an empty jar).
- 2.8 s: a hard lid slam. Cut the music to silence. The motor keeps whirring safely.
- 3.5 to 5.0 s: silence except the motor winding down.
- 5.0 s: bass hit.
- 6.5 s onward: upbeat beat at -20 dB. Fallback search: “tension riser”, “funny”.

Beat sheet

Time	Beat	OST
0.0 to 1.0	The setup	₹2 lakh ka safed lehenga.
1.0 to 2.0	The finger	Lid?
2.0 to 2.8	The switch	LID??
2.8 to 3.5	The slam	(none)
3.5 to 5.0	The lehenga, spotless	Bach gaya. Is baar.
5.0 to 6.5	Slip line	Size chart hi lid hai.
6.5 to 8.5	Proof 1	Reviews daalo.
8.5 to 10.5	Proof 2	Sabse badi shikayat: size.

10.5 to 12.5	Proof 3	40 mein se 17 shikayat.
12.5 to 14.5	Proof 4	Fix: size chart daalo.
14.5 to 16.0	Payoff	Returns kam. Brand saaf.
16.0 to 18.0	End card	Comment the weirdest review you've ever got.

Shooting script

SCENE 1: THE SETUP (0.0 to 2.8 s)

P11-S01 · 0.0 to 1.0 s · Wide, counter height

- **Frame:** the mixie jar full of bright green liquid in the lower third, its lid lying on the counter beside it. Behind, the white-and-gold lehenga on the door.
- **OST:** ₹2 lakh ka / safed lehenga. “₹2 lakh” in JetBrains Mono Bold, Marigold. Chip: ILLUSTRATIVE EXAMPLE.
- **SFX:** kitchen ambience.

P11-S02 · 1.0 to 2.0 s · Macro on the switch

- **Action:** the seller’s finger (bangle visible) moves slowly toward the switch. The lid stays on the counter in the soft background.
- **OST: Lid?** Inter 800, 120 px.
- **SFX:** riser.

P11-S03 · 2.0 to 2.8 s · Three quick cuts (0.25 s each)

- a. the finger presses the switch; (b) macro on the jar as the green water swirls up; (c) the lehenga, still white, in the background.
- **OST: LID??** (Leak)
- **SFX:** motor roar.
- **Safety:** the only plugged-in take. Jar one-third full, lid within reach, and the switch is pressed for under half a second.

P11-S04 · 2.8 to 3.5 s · Overhead on the jar

- **Action:** her other hand slaps the lid on. One tiny green drop sits on the counter beside the jar.
- **SFX:** slam; music cuts to silence.

P11-S05 · 3.5 to 5.0 s · Slow push-in on the spotless lehenga

- **OST: Bach gaya. / Is baar.**
- **SFX:** motor winding down.

SCENE 2: THE SLIP LINE (5.0 to 6.5 s)

P11-S06 · **Night card** · OST **Size chart hi lid hai.** (Paper) / **Nahi lagaya, toh returns ke chhinte.** (Marigold, Inter 700, 56 px) · SFX bass hit. Tap ripple wipe.

SCENE 3: THE PROOF (6.5 to 16.0 s) (R9, tags: SAMPLE SHOP DATA and SAMPLE REVIEWS)

P11-S07 · **6.5 to 8.5 s** · The reviews file uploads · OST **Reviews daalo.** · SFX click.

P11-S08 · **8.5 to 10.5 s** · Snap zoom on “Sizing Issue is your loudest complaint” · OST **Sabse badi shikayat: size.** · SFX bass hit.

P11-S09 · **10.5 to 12.5 s** · Snap zoom on “42.5% rate” · OST **40 mein se 17 shikayat.** · SFX whoosh. (17 ÷ 40 = 42.5%, so the maths matches the screen.)

P11-S10 · **12.5 to 14.5 s** · Snap zoom on “Publish a real size chart” · OST **Fix: size chart daalo.** · SFX ding.

P11-S11 · **14.5 to 16.0 s** · **Night card** · OST **Returns kam. / Brand saaf.** · SFX tick.

SCENE 4: END CARD (16.0 to 18.0 s)

P11-S12 · Line 1: **Comment the weirdest review you’ve ever got.** (Inter 800, 60 px, two lines). Series promise, handle, sonic logo.

AI backup

Photorealistic vertical photo, 9:16, 1080x1920, an Indian home kitchen in daylight: a mixer-grinder with a steel jar of bright green chutney, the jar's lid lying on the counter beside it (not on the jar). Behind it, a white-and-gold bridal lehenga hangs on the kitchen door.
Looks like real phone footage, not an advert: natural exposure, slight noise, true-to-life colours, no CGI sheen.

Use the attached image as the first frame. Duration exactly 10 seconds, 24 fps.
Real speed, three quick hard cuts. 0 to 2 s: a woman's finger (gold bangle) moves towards the mixer's switch while the lid lies on the counter. 2.0 s: the finger presses the switch and the green chutney swirls up the jar. 2.8 s: her other hand slaps the lid on at the last moment; only one tiny green drop lands on the counter. 3.5 to 10 s: slow push-in on the spotless white lehenga on the door.
Sound: kitchen ambience, a rising tension sound, the mixer's roar, a lid slam, then calm.
Avoid: any human face; extra or fused fingers; readable text or logos; purple or neon; background music; cross-fades.

Caption

"Nice product" tells you nothing. "Size ek number chhota hai" tells you exactly what to fix.

A size chart is the lid on your mixie. Boring, small, and it saves the lehenga.

One Tap Manager reads your reviews file, groups what customers love and complain about, and shows the complaint costing you most. For clothing, it's usually size.

Reviews in this video are samples we wrote. Real app, sample shop data. The "chutney" was green water.

Comment the weirdest review you've ever received.

#smallbusinessindia #kurtibusiness #clothingbusiness

Alt text: "A finger switches on a mixer full of green chutney with the lid off, right in front of a white bridal lehenga; a hand slams the lid on just in time. Then the One Tap Manager review analysis showing sizing as the top complaint and recommending a size chart."

Post 12: “0 customers. 20 sellers. 7 days.” (0 to 20, Day 1)

Format	Carousel, 5 slides, 1080 x 1350
Series	0 to 20 (pinned post 2 of 3)
Slot	Week 1, Friday. Post only if you will really run the challenge and post updates.
Comment word	STORE
Job of this post	The most honest post on the page. A public promise that gives people a reason to follow and a reason to sign up now.
Viewer should feel	Surprised by the honesty, then rooting for you.
Assets	app-site.png

Director’s intent

Everything else on the page is polished. This one should feel like a founder at night with a lamp and a laptop. Keep it quiet, dark and warm. The “0 / 20” counter becomes a recurring visual: every update post and Story shows it ticking up. Do not fake progress. If you are at 3 on Day 7, post “3 / 20” and what you learned.

Before you post this

- A comment-to-DM reply for STORE is live, or you have blocked 30 minutes after posting to reply by hand.
- The website flow has been tested end to end with a real phone, including the UPI checkout on GPay, PhonePe and Paytm.
- You have a list of 50 sellers you will personally message with this post in the first 48 hours. This is how the 20 actually happen (see Part 1.1).

Slide 1: the night desk

Photo direction: night, one warm brass lamp at 2,700 K and a laptop’s glow. A small home-shop desk. The laptop screen is blank (black or a dim desktop, no readable content). On the cream wall above, a plain paper calendar with seven empty hand-drawn boxes in a row. A chai glass, the red khata, a phone face down. Deep Night shadows around the lamp pool. Shoot on a tripod, exposure locked for the lamp.

Copy: Maine app banaya. (Inter 800, 88 px, Paper) / **0 / 20** (JetBrains Mono Bold, 240 px, Paper, centred) / **Customers: 0.** (Inter 800, 88 px, Marigold)

Tag: AI GENERATED only if AI.

Slide 2: the mission

Layout: Ledger Paper. A row of seven hand-drawn calendar boxes (Kalam-style strokes in Indigo); the first says “Day 1”. Sticker top-left: 0 TO 20 · DAY 1.

Copy: Mission: 7 din mein 20 Instagram sellers ki free website. Inter 800, 80 px, Ink. Marigold highlighter behind “20 Instagram sellers”.

Slide 3: what they get

Layout: Indigo. Phone frame with app-site.png unchanged. **Tumhara Instagram shop. Tumhari website.** Inter 700, 56 px, Paper. “Cart, COD, UPI. Humara cut: ₹0.” Inter 500, 40 px, Sky. SAMPLE SHOP DATA chip.

Slide 4: the honest stake

Layout: Night. Centred, generous space.

Copy: 20 sellers ko bhi kaam ka nahi laga... / ...toh maine galat cheez banayi hai. (Inter 800, 72 px, Paper) / **Fail hua toh bhi yahin dikhaunga.** (Inter 800, 72 px, Marigold)

Slide 5: the ask

Layout: Paper. **0 / 20** in JetBrains Mono Bold, 200 px, Ink, above the 1T mark with a Marigold ring. **Comment STORE to be one of the 20.** Inter 800, 72 px, Ink. “Follow to see if I make it.” Inter 500, 40 px, Ink Soft. Sticker: 0 TO 20 · DAY 1.

Caption

Honest post: I built this app and we have zero customers.

The challenge: in the next 7 days, I'll help 20 Instagram sellers get their own website live on One Tap Manager, free. Your products, your name, cart, COD, UPI to your own UPI ID. We never take a cut of your sales.

If 20 sellers don't find it useful, I've built the wrong thing, and I'll say so here.

Comment STORE to be one of the 20. Follow to see if I make it.

#buildinpublic #startupindia #smallbusinessindia #instagramseller

Follow-up content (daily Stories, 7 days): the counter card (Paper, "3 / 20" in JetBrains Mono Bold), one sentence on what happened that day, and one screenshot of a real store (only with the seller's written permission, name blurred if they prefer).

Alt text: "A desk at night lit by one lamp, with a laptop and a calendar of seven empty days. Text: I built an app, customers zero, 0 of 20. The founder's challenge to put 20 Instagram sellers' websites live in 7 days."

Part 4: Appendices

Appendix A: The shoot plan (3 shoot days plus one desk session)

Batching by location means each set-up happens once. Shot codes match the scripts.

Day 0: Desk session (2 hours, any day before Week 1)

Time	Task	For
0:00	Load sample shop data. Do Not Disturb on. Clock 10:10.	All
0:15	Record R2: website builder, shop name, 3 products, publish (3 takes)	Post 2
0:45	Record R3: storefront, cart, checkout with COD and UPI (3 takes)	Post 2
1:15	Test the UPI checkout on GPay, PhonePe and Paytm with a personal UPI ID. Note what works.	Posts 2, 12
1:45	Check the other recordings (R1b, R5, R6, R7, R8b, R9) still match the live app. Re-record any that changed.	All reels

Day 1: Home interiors (morning window light, 9 am to 1 pm)

Order	Set-up	Shots	Notes
1	Desk by the window	Post 1 slide 1 (name plates)	Tripod at desk height
2	Same desk	Post 3 slide 1 (taraazu)	Hearts, parcels, burst for falling hearts
3	Same desk, tidy	Post 7 slide 2 (and blur it for slide 1)	
4	Same desk, overhead rig	Post 10 slides 1 and 3	Do not move the rig between the two
5	Kitchen	Post 11, P11-S01 to S05	Mixie unplugged except S03
6	Kitchen sink	Post 9, P9-S01	Strainer under the grate, fishing line on the chain
7	Kitchen stove, cold kadhai	Post 2, Plate B: P2-S02 to S12	Kadhai cold and empty

Day 2: Stairs, terrace and balcony (late morning to dusk)

Order	Set-up	Shots	Notes
1	Staircase with window light (late morning)	Post 8, P8-S01 to S05	Spotter, mat, 240 fps for S03
2	Terrace, open sky (early afternoon)	Post 4, Plate B: P4-S01, S02, S04, S06, S07	Chair well back from any edge, fan on low
3	Ground-floor verandah (late afternoon)	Post 6, Plate B: P6-S02, S05, S06	Stool under 30 cm, mattress, spotter
4	Balcony and parking (dusk)	Post 6, Plates A and C: P6-S01, S07, S08	Lights tied off above the car
5	Railing or wall	Post 6 cat shot, P6-S03	Only if the cat is calm

Day 3: Night (7 pm onward)

Order	Set-up	Shots	Notes
1	Pakoda stall	Post 2, Plate A: P2-S01 and atmosphere, 30 s of oil sound	Buy pakodas, ask the owner, 10 minutes
2	Home desk with lamp	Post 12 slide 1	Lamp at 2,700 K, laptop dim

Edit-only

Post 5 (the drift illusion) needs no shoot, only stock footage and a Canva feed design.

Appendix B: Master props list

6	Stool, lights, car	Freeze-frame	Posting plan, WEEK, Thu
8	Sarees on the stairs	Slow motion	Reorder, STOCK, Tue
9	Necklace in the drain	One unbroken take	Pricing, PRICE, Mon
11	Mixie with no lid	Fast, real speed	Reviews, no keyword, Tue

How to read it:

- **3-second hold** tells you whether the first frame works. This is the fairest comparison between hooks.
- **Watched to the end** tells you whether the slip line and proof hold attention.
- **Shares** drive reach. **Saves** mean it was useful.
- **Keyword comments and sign-ups** are the only columns that pay the rent. Add the last column by asking each new seller which post brought them.
- After all 7 have run, make the next 7 reels using the two hook styles with the best 3-second hold, **and** keep one wildcard style so you keep learning.

Appendix E: Pre-publish checklist (every post)

Honesty

- ☐ AI GENERATED chip on every AI visual, and Instagram's AI label switched on.
- ☐ SAMPLE SHOP DATA chip on every app recording or screenshot.
- ☐ ILLUSTRATIVE EXAMPLE chip on every number that is not a real seller's real number.
- ☐ No claim that is not live in `Product.md`. Supplier orders and reorder maths say "Free during launch". WhatsApp is "tap to send", never "we send it".
- ☐ No real customer names, numbers or chats.
- ☐ Caption matches the reel (Posts 4 and 6 were wrong in the previous version).

Look

- ☐ Only brand colours. No purple, no two-colour gradients, no pill-shaped buttons.
- ☐ Inter, JetBrains Mono, Noto Sans Devanagari and Kalam only.
- ☐ No em dashes, no emoji, sentence case.
- ☐ Text inside the safe zones (reels: clear of top 220 px, bottom 420 px, right 150 px from y = 900 to 1700; carousels: 88 px side margins).
- ☐ No human face anywhere, including stock footage.

Sound and motion

- ☐ Music from Instagram's library, chosen on the day. No film scores.
- ☐ Silence where the script says silence.
- ☐ End card with the comment line, "One dukaan problem. Fixed every week.", the handle and the sonic logo.
- ☐ Watched once on a phone at full speed with sound, once without sound. It must work both ways.

Leads

- ☐ Comment-to-DM reply for the keyword is live and the link opens the signup with the right UTM tag.
- ☐ The free thing promised (templates, posting plan, cheat sheet) is ready to send.
- ☐ You have a list of real sellers to send the post to in the first hour.

Accessibility

- ☐ Alt text filled in (Advanced settings).
- ☐ Reel captions on (Instagram auto-captions checked for Hinglish errors).

Appendix F: Change log from the Simple version

Post	What changed	Why
All reels	End card now includes the series promise and handle	Brand Language 9.7
All reels	Shot-by-shot scripts with camera, light, sound, performance and safety	Director's version as requested
1	Real-photo method for slide 1; optional "Supplier orders: free during launch" line on slide 4	Better realism; Product.md accuracy
2	Caption opens with the account-loss hook; "No phone went near hot oil" added; UPI test added	Caption now matches the reel; honesty; untested feature
3	Reorder rule changed to "supplier days + 3" with a worked example	Matches Post 8
4	New slip line ("Dadaji ko pata tha drop aane wala hai"); new caption; forecast labelled "not a promise"	Old caption described a different reel; logic of hook
5	Reel and carousel numbers separated and tagged; "tap karke bhejo"	Contradicting numbers; WhatsApp is tap-to-send
6	New caption; stool shot moved to the ground floor and composited	Old caption described a different reel; safety
8	Jaws theme replaced; new slip line about the unseen last step; the seller from behind is the lead	Copyright; logic of hook; recurring cast
9	"10 se 20% cut" replaced with "App ki fees. Platform ka cut."; comment CTA added to caption	Unsupported number; the reel asked for PRICE but the caption did not
11	New slip line ("Size chart hi lid hai"); "chutney was green water" in caption	Logic of hook; honesty
12	Pre-post conditions added (DM reply, UPI test, outreach list)	The challenge is won in DMs
